

# Alert Notes

## Risk Dimensions™ Analyst and Enterprise Editions Release 3.1 Windows®

### Please Read Before Beginning Installation

#### Introduction

Alert Notes list problems that you need to be aware of before installing or using this software. Should you need assistance with the software, we ask that only the SAS Installation Representative or SAS Support Consultant call our Technical Support Division. Sites in the U.S. and Canada may call (919) 677-8008. Other sites should contact their SAS Installation Representative or SAS Support Consultant for the nearest SAS Institute Office.

#### Risk Dimensions Installation

- Your software contains necessary elements of SAS/CONNECT software or SAS/SHARE software, so you will need to install the CD labeled *Hot Fixes for the SAS System, Release 8.1 (TS1M0), All Operating Systems, October 2000* included in your package. The CD corrects data corruption problems with either SAS/CONNECT software or SAS/SHARE software, and its installation is required. For further information about the data corruption problems, SAS Note SN-003461 and SAS Note SN-003537 document these problems.

#### Risk Dimensions Update

- A Risk Dimensions update is available from the following Web site:

<http://www.sas.com/download>

Please visit this site, select **Downloads by Product Category**, and then select **Risk Dimensions**. This update should be applied immediately following the installation process.
