

## SAS<sup>®</sup> Anti-Money Laundering 2.1.1

This Road Map briefly describes the media contained in your SAS Anti-Money Laundering 2.1.1 package and how to proceed to install the software.

### Description of Your Package

Each installation kit in your package represents a distinct functional area of your solution. You should set these installation kits aside until the implementation team reads the *Solution Planning Guide*, which you can download from the SAS Anti-Money Laundering Resource Center at <http://support.sas.com/aml>. Please contact SAS Technical Support for the user name and password required to access the Resource Center.

For U.S. and Canadian customers, support is provided from our corporate headquarters in Cary, North Carolina. You may call **(919) 677-8008**, Monday through Friday. Customers outside of the U.S. can obtain local-language technical support through the local office in their countries. Customers in these locations should contact their local office for specific support hours. See <http://support.sas.com/techsup/contact/index.html> for contact information for local offices.

Your SAS Anti-Money Laundering software comes in as many as three installation kits; each kit's contents should be installed on a separate machine:

- SAS Anti-Money Laundering Alert Generation Server
- SAS Anti-Money Laundering Discovery Client
- SAS AppDev Studio

SAS Anti-Money Laundering is a solution made up of the SAS Foundation, including several SAS products, and the files on the **SAS Anti-Money Laundering Investigation User Interface** and **SAS Anti-Money Laundering Supplemental Files** CDs.

**Note:** *The SAS Anti-Money Laundering Installation Manual discusses an alternate configuration that includes SAS Web Report Studio and SAS Web Report Viewer. These mid-tier components cannot be installed on the same server as the SAS Anti-Money Laundering investigation user interface.*

### How to Proceed

#### Step 1: Prepare for the installation.

- Go to the SAS Anti-Money Laundering Resource Center at <http://support.sas.com/aml>. Please contact SAS Technical Support for the user name and password required to access the Resource Center.
- Download and read the *Solution Planning Guide*. This document explains concepts, considerations, and preparation steps that are required before handling this software.

## Step 2: Install and Configure SAS Anti-Money Laundering.

- ❑ To identify the installation kit that contains SAS Anti-Money Laundering Alert Generation Server, see the product listing on the SAS 9.1.3 label on each kit.
- ❑ Download the *Installation Manual* from the SAS Anti-Money Laundering Resource Center at <http://support.sas.com/aml>. Please contact SAS Technical Support for the user name and password required to access the Resource Center.
- ❑ Follow the instructions in the *Installation Manual* to install and configure SAS Anti-Money Laundering.

## Step 3: Optional – Install the SAS Anti-Money Laundering Discovery Client.

- ❑ To identify the installation kit that contains SAS Anti-Money Laundering Discovery Client, see the product listing on the SAS 9.1.3 label on each kit.
- ❑ The SAS Anti-Money Laundering Discovery Client is optional software that includes SAS Enterprise Miner Client that you may use for data mining and advanced analysis. It may be installed on any Windows machine. If you choose to install the SAS Anti-Money Laundering Discovery Client, read and complete all of the steps in the *QuickStart Guide* of the SAS Anti-Money Laundering Discovery Client installation kit.

This installation kit also includes copies of the **System Requirements Wizard for SAS Enterprise Guide** CD and the **SAS Enterprise Guide** CD. This is optional software that you may use to enhance reporting. It may be installed on any Windows machine.

## Step 4: Optional – Install SAS AppDev Studio.

SAS AppDev Studio is optional software that may be used to write custom reporting applications that will be used with SAS Anti-Money Laundering. It may be installed on any Windows machine. If you choose to install SAS AppDev Studio, use the procedure that follows.

- ❑ To identify the installation kit that contains SAS AppDev Studio, see the product listing on the SAS 9.1.3 label on each kit. Follow the steps in the *QuickStart Guide* in the Getting Started folder of the SAS AppDev Studio kit.
- ❑ Read and complete the tasks in “Chapter 4 – Using the Advanced Deployment” of the *User’s Guide for SAS Software Navigator*. The *User’s Guide* is found on the **Documentation for Installing and Configuring SAS** CD or Install Center by selecting **Planning Installation Edition Kit** on the first page, then selecting **User’s Guide – SAS Software Navigator** in the “Installation” section. When you reach Step 9 of Chapter 4, click **Select a standard plan** and choose “SAS AppDev Studio” from the drop-down list. Continue following the steps in Chapter 4 until the installation of SAS AppDev Studio is complete.
- ❑ SAS has provided two downloadable updates for SAS AppDev Studio. For more information about what those downloads offer, please see the “What’s New in SAS AppDev Studio 3.2, 3.2.1, and 3.2.2” Web page, located at <http://support.sas.com/rnd/appdev/doc/whatsnew32.html>.
