Road Map

SAS® Enterprise Miner™

This Road Map briefly describes the media contained in your SAS Enterprise Miner package and how to proceed to install the software.

Description of Your Packages

Your SAS Enterprise Miner software comes in two installation kits. Each installation kit represents a distinct functional area of your SAS Enterprise Miner solution and should be installed on a separate machine:

- SAS Enterprise Miner Server
- SAS Enterprise Miner Client

Note: *In addition, depending on your order, your kits may include SAS Text Miner Server and SAS Text Miner Client.*

Overview

Two parallel versions of SAS Enterprise Miner, either 4.3 or 5.2, are available in SAS 9.1. SAS Enterprise Miner 4.3 is a continuation of the SAS client/SAS server system. SAS Enterprise Miner 5.2 uses the production SAS 9.1 server and is a Web-deployable client application, which was developed using Java technology.

Important*: If SAS Text Miner is included with your order, be sure to complete Step 3 below after upgrading or installing SAS Enterprise Miner.*

How to Proceed

Be sure to terminate all non-essential applications before proceeding with the installation of any CD. Disable any anti-virus software that may be running.

SAS Enterprise Miner 4.3

All required SAS Enterprise Miner components are installed as part of the SAS Foundation install.

Once the install is complete, refer to the "Post-Installation Setup of Enterprise Miner Solution Software" chapter in the *Post-Installation Guide* (for Windows users) or *Configuration Guide* (for UNIX users) on the **Documentation for Installing and Configuring SAS** CD or Install Center for more information. On the first page, select **Planning Installation Edition Kit**, then select the appropriate document in the "Configuration" section under "Post-Installation and Configuration Guides."

Upgrading from Enterprise Miner 5.1 to Enterprise Miner 5.2

- ❑ SAS Enterprise Miner 5.2 can be installed as an update to your Enterprise Miner 5.1 installation. The upgrade does not require full system reconfiguration. Please follow the installation instructions found at the following Web site:

  http://support.sas.com/techsup/unotes/SN/016/016082.html.

Installing a New SAS Enterprise Miner 5.2

SAS Enterprise Miner 5.2 requires a planned SAS install. During a planned SAS installation, a SAS Metadata Server, an Object Spawner, and a SAS Workspace Server are defined and configured and are available for use by SAS Enterprise Miner. The deployment process also creates a foundation metadata repository and some initial users.

Step 1: Install and configure the installation kit containing SAS Enterprise Miner Server.

- ❑ To identify the installation kit that contains SAS Enterprise Miner Server, see the product listing on the SAS 9.1.3 label on each kit.
- ❑ Read and complete all of the steps in the *QuickStart Guide* in order to install SAS Enterprise Miner Server.
- ❑ Proceed with your installation and configuration by selecting a deployment scenario from the document entitled *Installation and Configuration Instructions—SAS Enterprise Miner 5.2*, which may be found at the following Web site:

    http://support.sas.com/documentation/onlinedoc/miner/

Step 2: Install and configure the installation kit containing SAS Enterprise Miner Client.

- ❑ To identify the installation kit that contains SAS Enterprise Miner Client, see the product listing on the SAS 9.1.3 label on each kit.
- ❑ Read and complete all of the steps in the *QuickStart Guide* in order to install SAS Enterprise Miner Client.
- ❑ Proceed with your installation and configuration by selecting a deployment scenario from the document entitled *Installation and Configuration Instructions—SAS Enterprise Miner 5.2*, which may be found at the following Web site:

    http://support.sas.com/documentation/onlinedoc/miner/

Step 3: Configure SAS Text Miner 3.1

Note: *If SAS Text Miner Server and SAS Text Miner Client are listed on the spines of your SAS Enterprise Miner installation kits, continue with this step.*

SAS Text Miner Server and SAS Text Miner Client were installed as part of the planned SAS Enterprise Miner Server and SAS Enterprise Miner Client installations. Please go to http:/support.sas.com/textminer for additional post-configuration steps that are required to complete your installation of SAS Text Miner.
