For the latest information about required JREs, please see the Third Party Software Reference Web site at <http://support.sas.com/resources/thirdpartysupport/index.html>.

SAS Formats Library for Teradata is initially installed on the machine where you will have installed SAS Foundation. However, during the configuration process, the files being installed will be moved to the machine where you have a Teradata database installed. The Java requirement is for the initial laying down of the files. There is no Java requirement for the machine on which the SAS Formats Library for Teradata will ultimately end up.

Additional Requirement Information

Teradata V2R6.2 or Teradata 12 must be installed on the machine on which the SAS Formats Library for Teradata will ultimately reside.
