System Requirements

SAS® Enterprise Case Management 2.1

Overview

This document provides minimum requirements for installing and running SAS Enterprise Case Management 2.1 software. SAS Enterprise Case Management 2.1 requires SAS 9.2 M2.

The major requirements listed in this document include:

- software requirements
- hardware requirements
- database requirements

The information in this document is current as of the release date of SAS Enterprise Case Management 2.1. For additional information and to view the latest system requirements for your system, access the following SAS Institute web site:

http://support.sas.com/documentation/installcenter/index.html

Software Requirements

Client-Tier Requirements

SAS Enterprise Case Management 2.1 supports the following Web browsers:

- Internet Explorer
- Firefox

For information about the supported operating systems and minimum version requirements of Web browser software for SAS 9.2 M2, see the "References" section at the end of this document.

Mid-Tier Requirements

SAS Enterprise Case Management 2.1 supports the following application servers:

- BEA WebLogic Server
- IBM WebSphere Application Server
- JBoss Application Server

SAS Enterprise Case Management 2.1 supports the following operating systems:

- Microsoft Windows
- Microsoft Windows for x64
- Solaris for x64
- Solaris

- Linux for x64
- HP-UX for the Itanium Processor Family Architecture
- AIX

Version numbers and operating system specific details are available in the SAS 9.2 M2 System Requirements. See the "References" section at the end of this document.

SAS Application Tier Requirements

SAS 9.2 M2 servers run on the back tier to provide metadata, data and compute services. The following applications are required on the SAS Application Tier:

- SAS 9.2 Foundation
- Base SAS
- SAS/ACCESS Interface for Oracle
- SAS Enterprise Case Management Server

SAS Enterprise Case Management 2.1 supports the following operating systems:

- Microsoft Windows
- Microsoft Windows for x64
- Solaris for x64
- Solaris
- Linux for x64
- HP-UX for the Itanium Processor Family Architecture
- AIX

Operating system version numbers are available in the SAS 9.2 M2 System Requirements. See the "References" section at the end of this document.

Hardware Requirements

Basic Installation Requirements

Product	Installation Space Required
SAS Enterprise Case Management Server	20 MB
SAS Enterprise Case Management Web Components	225 MB

Mid-Tier Requirements

Memory

The minimum recommended memory for the SAS Enterprise Case Management 2.1 Mid-Tier is 4 gigabytes.

Database Requirements

SAS Enterprise Case Management supports Oracle 10. SAS Enterprise Case Management uses the `ojdbc14.jar` file. You can download a copy of the Oracle driver from `http://www.oracle.com/technology/software/tech/java/sqlj_jdbc/index.html`. Select the latest Oracle 10.2.x driver. The JDBC driver version must match the database version.

Additional information about third-party products is available at `http://support.sas.com/resources/thirdpartysupport/index.html`. For SAS's policy on supporting updates to third party products, see the *SAS Third Party Software Requirements – Baseline and Higher Support* document at the Third Party Software Requirements Web site.
