System Requirements

SAS® Credit Scoring for Banking 4.4

Overview

This document provides minimum requirements for installing and running SAS Credit Scoring for Banking software.

The major requirements listed in this document include

- software requirements
- hardware requirements
- database requirements

The information in this document is current as of the release date of SAS Credit Scoring for Banking 4.4. For additional information and to view the latest system requirements for your system, please visit Install Center, located at
http://support.sas.com/documentation/installcenter/index.html.

Pre-requisites

SAS Credit Scoring for Banking requires SAS Banking Intelligence Architecture on SAS 9.2 as a pre-requisite. For more information about specific requirements of the prerequisites, please refer to the System Requirements document of SAS Banking Intelligence Architecture for the appropriate host available from Install Center.

Software Requirements

The following sections provide the description of components, per tier, of SAS Credit Scoring for Banking.

Server Tier

The following products are included with this solution and should be installed on the server tier –

- SAS Credit Scoring for Banking Server
- SAS Metadata Server

SAS Credit Scoring for Banking Server

The following products are included in SAS Credit Scoring for Banking Server. Unless explicitly licensed, use of this software is limited to SAS Credit Scoring for Banking Server.

- SAS Credit Scoring for Banking Server software
- Base SAS software
- BIS Common Server software
- Credit Scoring for SAS Enterprise Miner software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/ACCESS Interface to PC Files software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/INSIGHT software
- SAS/OR software
- SAS/STAT software

This software is supported on following host operating systems: Microsoft Windows, Microsoft Windows for x64, Solaris, Linux for x64, AIX, and HP-UX for the Itanium Processor Family Architecture.

SAS Metadata Server

The following products are included in SAS Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Metadata Server.

- Base SAS software
- SAS/CONNECT software

This software is supported on following host operating systems: Microsoft Windows, Microsoft Windows for 64-Bit Itanium-based Systems, Microsoft Windows for x64, AIX, HP-UX, HP-UX for the Itanium Processor Family Architecture, Linux for Intel Architecture, Linux for x64, Solaris, Solaris for x64, and z/OS.

Mid-Tier

The following products are included with this solution and should be installed on the mid-tier.

- SAS Analytics Platform
- SAS Enterprise Miner Java Client

For information about each product's specific requirements, please refer to its System Requirements document for the appropriate host available from Install Center.

Application Server

SAS Credit Scoring for Banking requires one of the following application servers:

- BEA WebLogic Server
- IBM WebSphere Application Server
- JBoss Application Server

For information about the required versions of web servers and associated host operating system details, please refer to the Third Party Software Reference Web site, located at http://support.sas.com/resources/thirdpartysupport/index.html or refer to the pre-installation checklist described in the *QuickStart Guide* included with your software order.

Client Tier

Web Browsers

SAS Credit Scoring for Banking supports the following Web browsers:

- Internet Explorer
- Firefox

For information about the minimum version requirements of Web browser software, please refer to the Third Party Software Requirements Web site.

SAS Enterprise Miner SAS Client 4.3

The following products are included in SAS Enterprise Miner SAS Client 4.3 software. Unless explicitly licensed, use of this software is limited to SAS Enterprise Miner SAS Client 4.3.

- Base SAS software
- SAS Enterprise Miner software
- SAS Enterprise Guide software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/ACCESS to PC Files software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/INSIGHT software
- SAS/OR software
- SAS/STAT software

This software is supported on following host operating systems: Microsoft Windows and Microsoft Windows for x64.

SAS Enterprise Miner Thin Clients

The following products are included with this solution and should be installed on the client tier –

- SAS Analytics Platform
- SAS Enterprise Guide
- SAS Enterprise Miner Java Client
- SAS Enterprise Miner Plug-in for SAS Management Console
- SAS Management Console

For information about each product's specific requirements, please refer to its System Requirements document for the appropriate host available from Install Center.

Hardware Requirements

For information about the file sizes required for the server-tier software and SAS Enterprise Miner SAS Client, please refer to the SAS 9.2 Foundation System Requirements document for the appropriate host available from Install Center.

Database Requirements

SAS Credit Scoring for Banking supports SAS data sets as databases. Additionally, the Foundation Mart works on DDS which is in Oracle. For information about the supported operating systems and minimum version requirements of Oracle database software, please refer to the Third Party Software Reference Web site. For SAS's policy on supporting updates to third party products, see the *SAS Third Party Software Requirements – Baseline and Higher Support* document at the same location.
