

System Requirements

SAS[®] Fraud Management Alert Generation Server 3.1

Basic Installation Requirements

Platform	Installation Space Required
AIX	30 MB

For the latest information about required JREs, please see the Third Party Software Reference Web site at <http://support.sas.com/resources/thirdpartysupport/index.html>.

Additional Requirement Information

The Alert Generation Server (AGS) has two components:

- a standalone Java application that requires a set of jars and some configuration files
- SAS software

The AGS jars are part of the SAS versioned jar repository and require about 30MB of storage space during installation. The configuration files are small and require no more than a few KB of space.
