Additional Requirement Information

SAS Grid Manager Client Utility also has the following installation requirements:

- a grid already deployed by the SAS Deployment Wizard
- a user name that can log into the metadata server and read the logical grid server metadata
- a shared file system directory that is accessible between the grid nodes and the client machines by all users of the grid
- the SID file that was used to install the SAS Grid Manager Grid Control Server must be copied to the shared directory and renamed license.sasgsub
