

System Requirements

SAS[®] Human Capital Management 5.1

Overview

You must update your system to meet the minimum requirements before you install or run these SAS products.

For information about the hardware required for the SAS Human Capital Management solution, please contact your account team who can work with a variety of SAS resources to determine the hardware configuration required to support your specific needs. The scope of this document does not include any hardware requirements and/or limitations that are associated with installing and running the SAS software.

Server Tier

For information about the file sizes required for the server-tier software, please visit Install Center (<http://support.sas.com/installcenter>) and refer to the SAS 9.2 Foundation System Requirements document appropriate for the host.

Third-Party Software: MySQL

The following third-party software is needed to complete the installation of the Server Tier:

- MySQL Pro 5.0.80 for Windows 32-bit and Windows 64-bit
- MySQL Pro 5.0.70 when using VMWare
- MySQL Connector/J 5.0.8, commercial version

If MySQL Pro is not included in your SAS software order, obtain a copy of the Connector/J jar and MySQL database from your MySQL representative.

SAS Human Capital Management Server Software

Hosts: Microsoft Windows, Microsoft Windows for x64

Hardware supported: Intel/AMD x86 and x64.

Windows Operating Systems:

- Windows Server 2003, Enterprise Edition
- Windows Server 2003, Standard x64 Edition, Service Pack 2

The following products are included in SAS Human Capital Management Server. Unless explicitly licensed, use of this software is limited to SAS Human Capital Management Server.

- SAS Human Capital Management Server software
- Base SAS software
- SAS High-Performance Forecasting

In addition, SAS Human Capital Management Server has vertical products that are not included with SAS Foundation. For information about each product's specific requirements, please see its System Requirements document available from Install Center (<http://support.sas.com/idsearch?ct=200000>).

- SAS Human Capital Management Data-Tier
- SAS Metadata Bridges
- SAS Solutions Services Data-Tier
- SAS Strategy Management Data-Tier

Mid-Tier

Third-Party Software

The following third-party software is needed to complete the installation of the mid-tier. For information about the required versions, please see the Third Party Software Reference Web site at <http://support.sas.com/resources/thirdpartysupport/index.html> or refer to the pre-installation checklist described in the *QuickStart Guide* included with your software order.

Application Server

SAS Human Capital Management requires an Oracle WebLogic 10.3 application server.

This software can either be purchased from SAS or directly from Oracle. SAS Performance Management Solutions require this specific version of WebLogic.

Java Development Kit

For more information on JDK requirements, please visit this Web page:

<http://support.sas.com/resources/thirdpartysupport/v92/jdks.html>

Java 6 with the required update should be obtained from the support.sas.com site referenced above or from the Sun Microsystems, Inc. support site.

SAS Human Capital Management Mid-Tier

The following products are included with this solution and should be installed on the mid-tier. For information about each product's specific requirements, please see its System Requirements document available from Install Center (<http://support.sas.com/idsearch?ct=200000>).
