

System Requirements

SAS[®] Foundation Services 2.1

Basic Installation Requirements

Platform	Installation Space Required
Microsoft Windows	96 MB
Microsoft Windows for x64	96 MB
Solaris	96 MB
AIX	96 MB
HP-UX for the Itanium Processor Family Architecture	96 MB
Linux for x64	96 MB
Solaris for x64	96 MB
z/OS	96 MB

For the latest information about required JREs, please see the Third Party Software Reference Web site at <http://support.sas.com/resources/thirdpartysupport/index.html>.

Additional Requirement Information

When SAS Foundation Services is installed with other SAS middle-tier applications (such as SAS Web Report Studio, SAS Information Delivery Portal, or SAS Web OLAP Viewer for Java), the physical machines in question should be capable of communicating via IP multicast.

SAS 9.2 software uses multicast networking in the SAS Remote Services application. IBM has identified that AIX 6.1 systems might require updates to support multicast networking correctly. Review the IBM support note for APAR IZ35571 at <http://www-01.ibm.com/support/docview.wss?uid=isg1IZ35571>. If necessary, apply the appropriate fix pack from the IBM support Web site (<http://www-01.ibm.com/support/docview.wss?uid=isg1fixinfo109837>) for the issue.
