SAS® Add-In 4.2 for Microsoft Office

Software Requirements

SAS Add-In for Microsoft Office is supported on the following platforms:

- Microsoft Windows XP Professional updated with Service Pack 2 or later (both 32-bit and x64-bit versions)
- Microsoft Windows Vista - Business, Enterprise, and Ultimate Editions (both 32-bit and x64-bit versions)
- Microsoft Windows Server 2003 (both 32-bit and x64-bit versions)

Additional Software Requirements

One of the following Microsoft Office installs:

- Microsoft Office 2007
- Microsoft Office 2003
- Microsoft Office 2002
- Microsoft Office 2000 (SP3 or later)

System Requirements Wizard

The System Requirements Wizard is used to ensure that a computer onto which you would like to install SAS Add-In for Microsoft Office software meets the minimum system software requirements. Space requirements will vary depending upon the third-party components and the individual files on your computer that need to be updated.

The System Requirements Wizard will inform you of the components that do not meet the minimum system requirements before updating them. The System Requirements Wizard will install these components if you do not already have them installed on your system:

- Microsoft Runtime Components 8.0 SP1
- Microsoft .NET Framework 2.0
- Microsoft Web Services Enhancements 3.0

Hardware Requirements

Machines Supported

Intel or Intel-compatible Pentium III class processor (minimum 800 MHz recommended), with a minimum of 256 MB of memory (512 MB or more recommended).

Disk Space Requirements

System Components	126 MB
SAS Add-In + Components	124 MB
Total Required Disk Space	**250 MB**
