Additional Requirement Information

Additional space may be required, depending on the Web applications server that you use.

SAS OnlineDoc for the Web will not deploy on BEA WebLogic when attempting to extract the ear file to directories containing long path names. For more information, see the Sun Developer Web site at http://bugs.sun.com/bugdatabase/view_bug.do?bug_id=4403166. A workaround is suggested in the BEA forums at <http://forums.bea.com/message.jspa?messageID=400006524&tstart=0>.
