The following products are included in SAS Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Metadata Server.

- Base SAS software
- SAS/CONNECT software

Mid-Tier

Note: If you are using an application server on a UNIX machine, SAS strongly recommends that you set the ulimit on that machine to 10240. For details about the procedure to set the ulimit for your operating system, contact your system administrator.

The following products are included with this solution and should be installed on the mid-tier. For information about each product's specific requirements, please see its System Requirements document available from Install Center (<http://support.sas.com/idsearch?ct=200000>).

SAS Social Network Analysis Mid-Tier

SAS Social Network Analysis Mid-Tier should be used on this mid-tier.

SAS BI Server Mid-Tier

SAS Web Report Studio software should be used on this mid-tier.

Application Server

SAS Social Network Analysis Server requires the JBoss application server. For information about the required versions, please see the Third Party Software Reference Web site at <http://support.sas.com/resources/thirdpartysupport/index.html> or refer to the pre-installation checklist described in the *QuickStart Guide* included with your software order.

Client Tier

The following products are included with this solution and should be installed on the client tier. For information about each product's specific requirements, please see its System Requirements document available from Install Center (<http://support.sas.com/idsearch?ct=200000>).

SAS Enterprise Data Integration and BI Server Clients

- SAS Add-In for Microsoft Office
- SAS Data Integration Studio
- SAS Enterprise Guide
- SAS Information Map Studio
- SAS Management Console
- SAS Metadata Bridges
