For the latest information about required JREs, please see the Third Party Software Reference Web site at <http://support.sas.com/resources/thirdpartysupport/index.html>.

Additional Requirement Information

Software

SAS Web Application Themes requires SAS Web Infrastructure Platform.

Application Server

SAS Web Application Themes 9.2 requires a Java application server. The following application servers are supported:

- JBoss Application Server
- BEA Weblogic Server
- IBM WebSphere Application Server

For details about the specific supported versions of these application servers, please consult the SAS 9.2 Third Party Software page, <http://support.unx.sas.com/resources/thirdpartysupport/v92/index.html>.

Other SAS Requirements

SAS Application Themes 9.2 requires SAS Web Infrastructure Platform 9.2 and provides a common set of resources for use by other SAS applications and solutions. SAS Application Themes shares the prerequisites that are required by SAS Web Infrastructure Platform.
