

Scalable Performance Data Server[®] Software Media Instructions, Version 3.0 (TS M3) for Windows[®] on Intel[®]

To install Scalable Performance Data Server Software for Windows NT on Intel, Version 3.0 (TS M3), complete the following steps:

1. Insert the CD into the CD-ROM drive on your Windows NT system. The system should automatically run the installation program on the CD.
2. Once installation is complete, click on the SPDS Installation icon available from the Programs folder off the taskbar Start menu. Use the HTML document that is displayed to guide you through the remainder of the installation process.

The installation guide includes a packing list for the product. It includes detailed instructions for completing the server-side installation and configuration, as well as the SAS client-side installation and configuration. It also refers you to additional online documentation for the product.

For documentation of enhancements and compatibility issues, see the *Scalable Performance Data Server Product Notes* ([prod-notes-v3.html](#)).
