SAS® Visual Data Discovery for Desktop

This Road Map briefly describes the media contained in your SAS Visual Data Discovery for Desktop package and how to proceed to install the software.

Description of the Contents

Your SAS Visual Data Discovery for Desktop package contains the following software:

- Depending on the media type you requested for your software, the required SAS software will arrive either as multiple CDs or a single DVD. The CD installation kit is labeled "SAS Visual Data Discovery for Desktop". The DVD installation kit is labeled " *SAS 9.1.3 Foundation and SAS Enterprise Guide 4.1.*"
- The required JMP software is shipped in a separate JMP folder along with a JMP introductory guide. The guide is a usage guide only, and is not required for the installation of your software.

How to Proceed

Be sure to terminate all non-essential applications before proceeding with the installation of any CD. Disable any anti-virus software that may be running.

Step 1: Install and configure the installation kit containing SAS Visual Data Discovery for Desktop.

If your SAS software arrives on CDs:

- ❑ To identify the installation kit that contains SAS Visual Data Discovery for Desktop, see the product listing on the SAS 9.1.3 label on each kit. If you have not ordered any SAS software other than SAS Visual Data Discovery for Desktop, there will only be one installation kit.
- ❑ Read and complete all of the steps in the *QuickStart Guide* in the Getting Started folder within the installation kit in order to install SAS Visual Data Discovery for Desktop.

If your SAS software arrives on a DVD, read and complete all of the steps in the *QuickStart Guide* located inside the front cover of the DVD case in order to install the required SAS pieces for SAS Visual Data Discovery for Desktop.

Step 2: Install and configure JMP.

JMP should be installed on the same machine on which you just installed SAS Visual Data Discovery for Desktop. The **JMP** DVD is in a separate folder in your software package. Once you insert the DVD into your DVD drive, it will automatically start the install program and step you through the JMP install process. After installing JMP, you can submit SAS code using the **New SAS Program** or **Open SAS Program** buttons in the SAS section of the **JMP Starter** window.

Note: The other buttons in the SAS section of the **JMP Starter** *screen are used only when connecting to a remote SAS server. For more information, see Chapter 11 of the* JMP Users Guide*.*
