

SAS[®] Real-Time Decision Manager

This Road Map briefly describes the media contained in your SAS Real-Time Decision Manager package and how to proceed to install the software.

Description of Your Packages

Your SAS Real-Time Decision Manager software comes in as many as two installation kits. Each kit represents a distinct functional area of your SAS Real-Time Decision Manager offering and should be installed on a separate machine:

- SAS 9.1.3 Foundation with SAS[®] Service Pack 4
- SAS Metadata Server
- SAS Real-Time Decision Manager

How to Proceed

Be sure to terminate all non-essential applications before proceeding with the installation of any CD. Disable any anti-virus software that may be running.

Step 1: Plan your installation.

- ❑ Review the **Installation and Configuration** section of the *SAS Real-Time Decision Manager 5.1 Administrator's Guide*, located on the Web at http://support.sas.com/documentation/solutions/ci/51/rtdm_ag.pdf. Work with your on-site SAS support personnel to plan the hardware and software topologies for your SAS Real-Time Decision Manager development, test (optional), and production deployments.

Step 2: Install and configure SAS Metadata Server.

- ❑ To identify the installation kit that contains SAS Metadata Server, see the product listing on the SAS 9.1.3 label on each kit. Unless you have already done so, follow the steps in the *QuickStart Guide* in the Getting Started folder of the SAS Metadata Server kit.
- ❑ Read and complete the tasks in the *SAS 9.1.3 Intelligence Platform: Installation Guide*, which is available on the **Documentation for Installing and Configuring SAS** CD or Install Center. On the first page, select **Planning Installation Edition Kit**, then select **SAS 9.1.3 Intelligence Platform: Installation Guide** in the "Installation" section under "Installation Instructions – SAS Intelligence Platform." The *Installation Guide* takes you through the pre-installation, installation, and basic configuration steps to install your SAS Metadata Server.

Step 3: Install and configure SAS Real-Time Decision Manager Server.

- ❑ To identify the installation kit that contains SAS Real-Time Decision Manager Server, see the product listing on the SAS 9.1.3 label on each kit.
- ❑ Complete the tasks in the **Installation and Configuration** section of the *SAS Real-Time Decision Manager 5.1 Administrator's Guide* to install, configure, and verify each SAS Real-Time Decision Manager deployment.
