Using the System Requirements

This document provides requirements for installing and running SAS 9.1.3 Foundation for Windows. You must update your system to meet the minimum requirements before running SAS 9.1.3.

These are the major requirements listed in the document:

- Software Requirements
- Hardware Requirements
- Additional Features
- Space Requirements
- Specific Product Requirements
- Graphics Hardware and Software Compatibility

For additional information and to view the latest system requirements for your system, please visit the SAS Install Center Web site, located at http://support.sas.com/documentation/installcenter/913/kit/index.html.

SAS Technical Support

Should you need assistance with the software, we ask that only the SAS Installation Representative or onsite SAS support personnel call our Technical Support Division. For U.S. and Canadian customers, support is provided from our corporate headquarters in Cary, North Carolina. You may call (919) 677-8008, Monday through Friday.

Customers outside of the U.S. can obtain local-language technical support through the local office in their country. Customers in these locations should contact their local office for specific support hours. See http://support.sas.com/techsup/contact/index.html for contact information for local offices.

Before calling, you may want to explore the SAS Technical Support Web site at http://support.sas.com/techsup/. The Technical Support Web site offers a Knowledge Base, FAQs, Technical Support Documents and more information that may answer your questions. This Web site also provides a mechanism for reporting problems.
Software Requirements

Preparing for Installation

Administrator privilege
An installer must have administrator privilege to install various updates. This requirement ensures that SAS 9.1.3 Foundation can be completely and safely installed.

Anti-virus and/or Firewall Software
Before you start the System Requirements Wizard, it is recommended that you close your anti-virus and firewall software. Some anti-virus and/or firewall configurations can prevent an application from installing successfully.

If you are unable to close the anti-virus or firewall software, make sure that your configuration allows you to install software and to update the registry. If your SAS installation fails and you have mandatory anti-virus or firewall software running, please check with your system administrator.

Operating Systems

Microsoft Windows Vista
A set of SAS 9.1.3 Service Pack 4 Foundation products support Microsoft Windows Vista editions targeted at the business market:
- Windows Vista Business
- Windows Vista Enterprise - available only to Microsoft Enterprise Agreement customers
- Windows Vista Ultimate

Please refer to SAS Problem Note 20402: “SAS products supported under Vista” at (http://support.sas.com/kb/20/402.html) for a complete list of SAS products that are supported on Windows Vista.

Note: SAS 9.1.3 Service Pack 4 does not support Windows Vista x64 editions or SAS 9.1.3 Service Pack 4 editions that are targeted at the consumer market such as Windows Vista Home Premium and Windows Vista Home Basic.

Microsoft Windows x64 Family
SAS 9.1.3 Foundation is supported on the following editions the Microsoft Windows x64 family:
- Microsoft® Windows® XP Professional x64 Edition
- Microsoft® Windows® Server 2003, Standard x64 Edition
- Microsoft® Windows® Server 2003, Enterprise x64 Edition
- Microsoft® Windows® Server 2003, Datacenter x64 Edition

Note: SAS BI software is not among the products that are supported on x64 operating systems. Please refer to the last part of SAS Note SN-016568 “Does SAS run on x64 or 64-bit systems?” for a complete list of products that are supported on x64.
Microsoft Windows Server 2003 Family

SAS 9.1.3 Foundation is supported on all 32-bit editions of the Microsoft Windows Server 2003 family:

- Microsoft® Windows® Server 2003, Enterprise Edition
- Microsoft® Windows® Server 2003, Datacenter Edition

Microsoft Windows XP

SAS 9.1.3 Foundation is supported on Windows XP Professional updated with Service Pack 1 or higher.

Microsoft Windows 2000 Family

SAS 9.1.3 Foundation must be updated with Service Pack 3 or higher, and is supported on these editions of the Microsoft Windows 2000 family:

- Microsoft® Windows® 2000 Professional
- Microsoft® Windows® 2000 Server
- Microsoft® Windows® 2000 Advanced Server
- Microsoft® Windows® 2000 Datacenter Server

Microsoft Windows NT Family

SAS 9.1.3 Foundation requires Windows NT, Version 4.0 updated with Service Pack 6a or higher, and is supported on these editions of the Microsoft Windows NT family:

- Microsoft® Windows® NT Workstation 4.0
- Microsoft® Windows® NT Server 4.0
- Microsoft® Windows® NT Server 4.0 Enterprise Edition
- Microsoft® Windows® NT Server 4.0 Terminal Server

File System Recommendations:

- The use of file systems supporting long filenames is required.
- For Windows NT, the NTFS file partition is recommended.

Network Installations:

Long filename support is required on any Windows NT Server, Windows 2000 Server, or Novell Server where a server installation is performed.
Hardware Requirements

SAS 9.1.3 Foundation on Microsoft Windows

Please note the following requirements for installation of SAS 9.1.3 Foundation for Windows.

Machines Supported
Intel or Intel-compatible Pentium II class processor (minimum required)

Memory Requirements
Windows, Windows NT, Windows 2000 Professional, Windows XP Professional

• 128 MB minimum or more for improved performance
• 128 MB minimum of swapfile space

• 256 MB minimum (more memory is recommended for improved performance)
• 256 MB minimum of swapfile space

Monitors Supported
SVGA (resolution of 800x600 or higher)
Additional Features

The User Installation Experience in SAS 9.1.3

If you are upgrading to SAS 9.1.3 Foundation, please note that some of these features were not available in earlier releases of SAS software.

Internet Access

With Internet access, you can view and download documents from the SAS Install Center, and review material on the SAS Support Web site.

Web Browser

A Web browser is required to use two features of SAS 9.1.3 Foundation. This Web browser must be Internet Explorer 5 or Internet Explorer 6, or if the operating system is Windows XP with Service Pack 2, Internet Explorer 7.

1. Output is rendered as HTML pages using the SAS 9.1.3 Output Delivery System (ODS). Any Web browser can be used for basic viewing, but if IE 5 or IE 6 or IE 7 (with Windows XP, SP 2) is used, ODS output can be viewed in an integrated browser window that functions as part of SAS 9.1.3 Foundation. Other browsers can be used to view ODS output in a separate application window.

2. To conform to the native Windows environment, SAS Help and Documentation is provided in the compiled HTML format supported by the Microsoft HTML Help Viewer, which presents help information in the same layout used in newer Windows applications. This format is very compact and provides extensive searching capabilities. The highest level of functionality is available when IE 5 or IE 6 or IE 7 (with Windows XP, SP 2) is installed.

Note: These two features of SAS 9.1.3 Foundation require IE 5, IE6, or IE7 because those browsers enable the most completely functional user interface.

SAS System Viewer

The SAS System Viewer is an application intended for the Windows environment as a lightweight viewer for SAS data files and other simple text-based files. The application lets you view the contents of SAS data files without using SAS 9.1.3 Foundation and without requiring SAS 9.1.3 Foundation to be installed on your machine. You may distribute this application royalty-free in order to give other people the ability to view your SAS data.

The SAS System Viewer lets you view the following types of SAS data sets and SAS catalogs, which can reside on a local or network disk:

- SAS data sets generated by SAS 9 or SAS 9.1.3 Foundation for Windows.
- SAS data sets generated by any Version 6 release of the SAS System for Windows, OS/2, or DOS. These data sets can be compressed and/or encrypted. If you attempt to access an encrypted data set, the SAS System Viewer prompts you for the read password.
- SAS catalogs created by the SAS System for Windows or OS/2 generated by Release 6.04 through Release 6.12.
• SAS programs (.sas files), output listings (.lst files), logs (.log files), configuration files (.cfg files).
• Files created by SAS Institute’s JMP product (.jmp files) that reside on a local or network disk.
• Other simple (ASCII) text-based files.
• HTML pages, such as output rendered by SAS 9 or SAS 9.1.3 Foundation.

You can also view cross-platform Version 6 data sets and catalogs (OpenVMS, MacOS, UNIX, OS/2, Windows, and DOS) that you can access from a disk, file server, or using the HTTP and FTP network protocols.

The SAS System Viewer is available to users during a CD installation from the Client-Side Components Volume 1 CD, and after an Administrator lays down the image on the server. About 4.8 MB of disk space is required to install the SAS System Viewer. For more information about the SAS System Viewer, please see “Installing the SAS System Viewer” in the User Installation Guide for SAS 9.1.3 Foundation for Microsoft Windows.

**Windows NT and Windows 2000 Performance Monitor and Event Log Support**

Support for Windows NT and Windows 2000 Performance Monitor will allow advanced users and administrators to observe some internal characteristics of SAS 9.1.3 Foundation. This facilitates performance analysis and tuning of SAS 9.1.3. Also, support for the Event Log on these operating systems allows the tracking of critical errors in SAS 9.1.3 Foundation and SAS Setup. The user account installing SAS 9.1.3 Foundation must have administrator privileges to install these features, so non-administrators will not get these features by default. They can be added later by invoking setup.exe (found under the sas folder on the Setup Disk) with the following command lines:

To install the Windows NT and Windows 2000 Performance Monitor and Event Log:

```
setup perfmon
```

To uninstall the Windows NT and Windows 2000 Performance Monitor and Event Log:

```
setup uperfmon
```

**Dynamic Data Exchange**

Dynamic Data Exchange (DDE) allows for the exchange of data between SAS 9.1.3 Foundation and any other application supporting DDE. SAS 9.1.3 Foundation will act as a client only.

**Electronic Mail**

Send Mail... is provided as a menu item in the File pull-down menu. Send Mail... allows electronic mail messages to be initiated from SAS 9.1.3 Foundation. It is also possible to send mail using a data step file access method or SCL via SAS/AF software.

The following mail APIs are supported - MAPI and VIM. This requires installation of third party products such as Microsoft Outlook, Microsoft Outlook Express, or Lotus Notes 4.0 (32-bit version only) and above. SMTP email server access via MAPI requires an Internet connection.

**Lotus Notes**

The Lotus Notes access method, NOTESDB, allows populating new documents directly to Lotus Notes from SAS 9.1.3 Foundation. The NotesSQL ODBC driver allows Lotus Notes documents to be accessed from within SAS 9.1.3. An installed license of Lotus Notes Desktop is required. SAS 9.1.3 Foundation supports the 32-bit version of Lotus Notes 4.0 or later.
System Requirements Wizard

The System Requirements Wizard ensures that your computer meets the minimum system requirements before you install SAS 9.1.3 Foundation. Space requirements will vary depending upon the third-party components and the individual files on your computer that need to be updated. The System Requirements Wizard will inform you of the components that do not meet the minimum system requirements before updating them.

The following table shows which updates the System Requirements Wizard performs on the supported versions of Windows.

- Use of the term *Family* here implies workstation, professional and server editions of these operating systems.
- If a cell is labeled No, the required version of the update is already included in the operating system(s) identified by the column. The update item listed to the left will not be installed by the System Requirements Wizard.

* This column also refers to the x64 Edition(s).

** The x64 operating system already includes a newer version of this component.

*** All SAS Foundation products are required to use the same Java Runtime Environment if it is available on a particular machine. For SAS 9.1.3 Foundation, the System Requirements Wizard will install the SAS Private JRE 1.4.2_09.

**** The Vista operating system already includes a newer version of this component.

For more information about the SAS System Requirements Wizard, please refer to the *Administrator Guide for SAS 9.1.3 Foundation for Microsoft Windows*, or the *User Installation Guide for SAS 9.1.3 Foundation for Microsoft Windows*. 
SAS Administrator Wizard

The SAS Administrator Wizard is intended for administrators who want to prepare an installation point on the network from which end users may later install SAS 9.1.3 Foundation. In addition to the space required by SAS 9.1.3 Foundation products, the SAS Administrator Wizard places up to an additional 336 MB of installation-related files at the installation point:

- Autorun 2 MB
- SAS Setup Files 4.5 MB
- SAS Viewer Setup 4 MB
- System Requirements Wizard 320 MB
- SAS Administrator Wizard 3 MB
- Installation Instructions Documentation 2.5 MB

For more information about the use and operation of the SAS Administrator Wizard, please refer to the Administrator Guide for SAS 9.1.3 Foundation for Microsoft Windows.

SAS Service Configuration Utility

The SAS Service Configuration Utility allows administrators to customize the operation of SAS 9.1.3 Foundation running as a service on a particular computer. It requires only 0.5 MB of space on the computer using the SAS Service Configuration Utility. The SAS Service Configuration Utility is available from the SAS 9.1.3 Utilities folder on the SAS Start Menu.
Space Requirements

The media you received contains all SAS software products. This media is customized by the SAS Installation Data for easy identification of the products for which you are licensed.

The following list contains space requirements in MB for all of the products available with this release of SAS 9.1.3 Foundation for Windows. Use this information to help you determine how much free disk space you must have available before you can install SAS 9.1.3 software. Disk space requirements will vary depending upon the blocking factor and compression algorithms that are in use on the installation disk drive. Product disk space values were determined with the HTMLHelp System in use.

**Note about the Space Requirements Table**

* Base SAS Shared Components and SAS/GRAPH Shared Components are specific components shipped with SAS 9.1.3 Foundation for Windows. The components are intended to be shared with an installation of SAS Enterprise Guide software on the same machine. The Shared Components installation location is selectable the first time shared components are installed and is fixed for all subsequent installations of shared components. It is typically under C:\Program Files\SAS\Shared Files.

SAS/TOOLKIT Korean Support Files | 0.1
SAS/Warehouse Administrator Korean Support Files | 5.3
Total | 194.4

Notes about the Asian Language Support Tables

* Actual disk space sizes have been rounded to the nearest tenth, so the values will differ slightly from the ones shown by the installer.

** Under Korean and Simplified Chinese Support, the installer incorrectly displays SAS OLAP Server as sample. Even though the sub-component is incorrectly identified, if selected, the SAS OLAP Server Korean and Simplified Chinese Support Files install correctly.

Using Asian Languages in a non-Asian Language Environment

Depending on the version of Microsoft Windows you are using, you may experience problems displaying Asian languages on an English operating system.

Windows 2000/Windows 2000 Server

Windows 2000 offers the most flexibility in supporting multiple languages. During the installation of Windows 2000, you will be asked what languages you want to support. Select the appropriate ones and continue your installation. The necessary components, packages, and Input Method Editors (IMEs) will be installed for you. At the time when you need another language, Windows 2000 should recognize that fact and proceed correctly. If you need to install software that utilizes an installation
program not written in English, it may be necessary to change the default code page to that language. This can be done from the Control Panel under Regional Options.

**Windows NT/Windows NT Server**

Windows NT offers many of the features in Windows 2000, although they are not as robust. To effectively display an Asian language (for example, Japanese) from Internet Explorer, Versions 5.01 through 6.x, select Windows Update from the Tools menu. After that page has successfully loaded, choose the various items that you want for your chosen language. Japanese, for example, will need the Japanese Input Method Editor, as well as the Japanese Language Pack. Both of these items will aid you in displaying Japanese on your English operating system and will install the proper fonts that you may need.

**European Languages Support**

The following list contains space requirements in MB for SAS System components that support various European Languages.

<table>
<thead>
<tr>
<th>European Languages Support</th>

Specific Product Requirements

**SAS/ACCESS Interface to Baan Software**

**Products Included:**
- Base SAS software
- SAS/ACCESS Interface to Baan software

Additional functionality is obtained if SAS/Warehouse Administrator software is installed.

**Other Products Required:**
One of the following Baan releases is required:
- Baan IV
- BaanERP

SAS/ACCESS Interface to Baan software requires the Exchange Module from Baan Utilities.

**SAS/ACCESS Interface to DB2 Software**

**Products Included:**
- Base SAS software
- SAS/ACCESS Interface to DB2 software

**DBMS Products Required:**
One of the following releases of IBM’s DB2 Client software is required:
- IBM DB2 Run-Time Client, Version 5 or later
- IBM DB2 Software Developer's Kit, Version 5 or later
- IBM DB2 Universal Database Client Application Enabler, Version 5 or later
- IBM DB2 Administration Client, Version 6 or later
- IBM DB2 Application Development Client, Version 7 or later

In addition, IBM DB2 Connect must be installed to connect to DB2 databases that reside on AS/400, VSE, VM, MVS, and OS/390 systems.

Before using SAS/ACCESS Interface to DB2 software, you must install the appropriate IBM DB2 Client software to allow your PC to connect to a DB2 server. Contact your database administrator for assistance with the Client Setup utility.

For more information about SAS/ACCESS Interface to DB2 software, please see the DB2 chapter in *SAS/ACCESS Software for Relational Databases: Reference*.

**SAS/ACCESS Interface to HP Neoview Software**

**Products Required:**
- Base SAS software
- SAS/ACCESS Interface to HP Neoview software
- Neoview ODBC driver, release 2.2 or later

SAS/ACCESS Interface to HP Neoview requires an ODBC driver from HP. To get the driver, go to [http://software.hp.com](http://software.hp.com) and click “HP Neoview Platform” under “Our top featured products.”
**SAS/ACCESS Interface to MySQL**

**Products Included:**
- Base SAS software
- SAS/ACCESS Interface to MySQL software

**DBMS Products Required:**
- MySQL Client 4.0.14 or later
- MySQL Server 4.0.14 or later

*Note:* The MySQL Client 5.0 is not supported.

For more information about SAS/ACCESS Interface to MySQL software, please see the MySQL chapter in *SAS/ACCESS Software for Relational Databases: Reference*.

**SAS/ACCESS Interface to Netezza Software**

**Products Required:**
- Base SAS software
- SAS/ACCESS Interface to Netezza software
- Netezza ODBC driver, release 3.1.4 or later (available from Netezza; see below for more information)

SAS/ACCESS Interface to Netezza requires an ODBC driver from Netezza.

To get the Netezza ODBC driver, release 3.1.4 or above, please contact Netezza technical support at (877) 810-4441 or visit the Netezza customer support Web site, http://www.netezza.com/support/login.cfm.

**SAS/ACCESS Interface to ODBC Software**

**Products Included:**
- Base SAS software
- SAS/ACCESS Interface to ODBC software

**DBMS Products Required:**
- A 32-bit ODBC driver for the data source from which you want to access data
- Microsoft Data Access Components (MDAC), Version 2.7 or higher

Before you can use SAS/ACCESS Interface to ODBC software, a 32-bit ODBC driver for the data source from which you want to access data is required. ODBC drivers are often available from DBMS vendors and other third party ODBC driver developers. The ODBC driver you choose may require additional DBMS software for network access. All required network software supplied by your database system vendor must be 32-bit-compliant.

In order to read SAS System Version 6 views that were created with the discontinued SAS/ACCESS Interface to AS/400 software on OS/2, an ODBC Conversion Utility is provided to help users migrate to SAS/ACCESS Interface to ODBC software on Windows. Before you can use the ODBC Conversion Utilities, you need to install the Client Access ODBC Driver (32-bit), Version 3.00.0004 or above from IBM. If your AS/400 Client Access installation loaded a Client Access ODBC Driver prior to this version, you can download Program Temporary Fix (PTF) SF59504 or later from ftp.software.ibm.com for an update. The service packs for the Client Access product can be found in the /as400/products/clientaccess/win32/v3r1m3/servicepack directory. When this update is installed, Version 3.00.0004 or later of the Client Access ODBC Driver should be installed. For Version 4.00, service packs for the Client Access product can be found in the /as400/products/clientaccess/win32/v4r4m01/servicepack directory.
In order to read SAS System Version 6 views to access data in Microsoft SQL Server that were created with SAS/ACCESS Interface to SYBASE and SQL Server software on Windows, an ODBC Conversion Utility is provided to help users migrate to SAS/ACCESS Interface to ODBC software on Windows. (Note: The Conversion Utility only applies to views that access data in Microsoft SQL Server and does not apply to SYBASE SQL Server.) The ODBC Conversion Utilities require the Microsoft SQL Server ODBC driver (32-bit) from Microsoft. This driver is installed as part of Microsoft Data Access Components (MDAC).

**Note:** SAS 9.1.3 Foundation will automatically install Microsoft Data Access Components (MDAC) when you install SAS/ACCESS Interface to ODBC software.

Please see the *Post-Installation Configuration Guide for SAS 9.1.3 Foundation for Microsoft Windows* for the details of installation.

**Note:** In order to use SAS/ACCESS Interface to ODBC software to access data on a Sybase Adaptive Server IQ (ASIQ), Release 12.x database, certain restrictions and setup information is required. ASIQ, Release 12.x supports ODBC, Release 3.x, so a certified ODBC driver manager is required. You must also do a full install of ASIQ, Release 12.x on the client machine (Sybase does not have a client install yet). Limitations with using SAS/ACCESS Interface to ODBC software and ASIQ, Release 12.x are that with ASIQ, Release 12.1, you cannot update data at all (for example, a DATA step modify, PROC SQL LIBNAME update, SCL code doing updates, or even a simple Pass-Through Update statement will not work). With ASIQ, Release 12.4.1, GA, the PROC SQL Pass-Through Facility will work using the EXECUTE (UPDATE ...) statement. However, updating using a cursor, which is what is used with DATA step modify and PROC SQL LIBNAME update, is not scheduled to be supported by the Sybase ODBC driver. Also, ASIQ does not support bulk loading, so we recommend using the DBISQL load statement to load data from an external sequential file.

The following modification to the Windows registry file is also required:

Modify each of the ASIQ 32 bit ODBC DSN connection definitions, adding 'AutoPreCommit=Y'.

Make the modifications within the registry for 32 bit definitions as follows:

Manually add the 'AutoPreCommit=Y' parameter to your ODBC definitions as follows:

32 bit definitions:

Modify the User DSN connection definition directly within the Windows Registry. Load the Registry (regedit), and select the following folders:

```
HKEY_CURRENT_USER => SOFTWARE => ODBC => ODBC.INI => <dsn name>
```

From the menu bar, select Edit => New => String Value. Define the "Value Name" as AutoPreCommit and select OK. Double-click on AutoPreCommit and enter Y for the Value Data within the String Editor box and select OK.

If your data source is a System DSN, modify the connection definition directly within the Windows Registry by doing the following:

Load the Registry (regedit), and select the following folders:

```
HKEY_LOCAL_MACHINE => SOFTWARE => ODBC => ODBC.INI => <dsn name>
```

From the menu bar, select Edit => New => String Value. Define the "Value Name" as AutoPreCommit and select OK. Double-click on AutoPreCommit and enter Y for the Value Data within the String Editor box and select OK.
SAS/ACCESS Interface to OLE DB Software

Products Included:
- Base SAS software
- SAS/ACCESS Interface to OLE DB software

DBMS Products Required:
- An OLE DB data source provider
- Microsoft Data Access Components (MDAC), Version 2.7 or higher

Before you can use SAS/ACCESS Interface to OLE DB software, an OLE DB provider for the data source from which you want to access data is required. OLE DB providers are often available from DBMS vendors and other third party software vendors. The OLE DB provider you choose may require additional DBMS software for network access. All required network software supplied by your database system vendor must be 32-bit-compliant.

Note: SAS 9.1.3 Foundation will automatically install Microsoft Data Access Components (MDAC) when you install SAS/ACCESS Interface to OLE DB software.

SAS/ACCESS Interface to Oracle Software

Products Included:
- Base SAS software
- SAS/ACCESS Interface to Oracle software

DBMS Products Required:
- Oracle Server, Release 8.1.7 or later
- Oracle Client, Release 8.1.7 or later

SAS/ACCESS Interface to Oracle software can be installed on either a full Oracle RDBMS server node or on an Oracle client node.

Note: In order to use the Bulk Load feature of this SAS product, you must have Oracle's SQL*Loader data-loading utility installed on your PC. This utility can be obtained by running the Oracle Installer and selecting the Oracle Utilities product. Please refer to your Oracle documentation for information on SQL*Loader.

SAS/ACCESS Interface to PC Files Software

Products Included:
- Base SAS software
- SAS/ACCESS Interface to PC Files software

DBMS Products Required:
- Microsoft Jet 4.0 Components
- Microsoft Data Access Components (MDAC), Version 2.7 or higher

Note: SAS 9.1.3 Foundation will automatically install Microsoft Data Access Components (MDAC) and Microsoft Jet 4.0 components when you install SAS/ACCESS Interface to PC Files software.
**SAS/ACCESS Interface to PeopleSoft Software**

**Products Included:**
- Base SAS software
- SAS/ACCESS Interface to PeopleSoft software
- PeopleSoft Software, Version 7.5 or higher

**DBMS Products Required:**
SAS/ACCESS Interface to PeopleSoft software requires another SAS/ACCESS product to access the underlying PeopleSoft database. The following products are currently supported:
- SAS/ACCESS Interface to Oracle software
- SAS/ACCESS Interface to ODBC software
- SAS/ACCESS Interface to OLE DB software

Please see the specific product requirements for each of these products.

**SAS/ACCESS Interface to R/3 Software**

**Products Included:**
- Base SAS software
- SAS/ACCESS Interface to R/3 software

Additional functionality is obtained if the following products are installed:
- SAS/CONNECT software
- SAS/SHARE software
- SAS/Warehouse Administrator software

SAS/ACCESS Interface to R/3 software requires the use of communication protocols such as TCP/IP to function properly.

**SAP R/3 Product Required:** SAP Kernel Release 4.6C or higher

The SAS RFC Server requires the SAP RFC library which is provided by SAP AG. Refer to SAP Note 413708 for the current version, download and installation instructions.

For Windows, the recommended installation method is to install the SAP GUI or the RFC SDK.

For the RFC servers on Windows, z/OS, and Linux, download the 32-bit version; for all other platforms, download the 64-bit version of the RFC library.

For the Unicode RFC server, download the Unicode RFC library and the shared libraries required by the Unicode RFC library.

**SAS/ACCESS Interface to SAP BW Software**

**Products Included:**
- Base SAS software
- SAS/ACCESS Interface to R/3 software
- SAS/ACCESS Interface to SAP BW software

Additional functionality is obtained if the following products are installed:
- SAS/EIS software
- SAS OLAP Server software

**SAP BW Product Required:** SAP BW, Release 2.0B or higher
**SAS/ACCESS Interface to Sybase Software**

**Products Included:**
- Base SAS software
- SAS/ACCESS Interface to Sybase software

**DBMS Products:**
- Sybase Open Client SDK (Software Developers Kit) Software, Release 12.5.x
- Adaptive Server Enterprise, Release 11.x or higher is recommended.

**Note:** Sybase ASIQ, Release 12.x is not supported; SAS/ACCESS Interface to ODBC software must be used instead.

For more information about SAS/ACCESS Interface to Sybase software, refer to SAS/ACCESS Software for Relational Databases: Reference.

**Note:** If you want to access Microsoft SQL Server data, you will need to use SAS/ACCESS Interface to ODBC software.

For more information, refer to the ODBC software section of the chapter “SAS/ACCESS Interfaces” in the Post-Installation Configuration Guide for SAS 9.1.3 Foundation for Microsoft Windows.

**SAS/ACCESS Interface to Teradata Software**

**Products Included:**
- Base SAS software
- SAS/ACCESS Interface to Teradata software

**DBMS Products Required:**
- Teradata CLIv2 client libraries and utilities, TTU 7 for Windows or higher
- For support of Multiload or FastExport from within SAS, Teradata CLIv2 client libraries and utilities, TTU 8.2 for Windows or higher

For more information about SAS/ACCESS Interface to Teradata software, please see the Teradata chapter in SAS/ACCESS Software for Relational Databases: Reference.

**SAS Activity-Based Management Software**

**SAS Activity-Based Costing Server**

The following products are included in SAS Activity-Based Costing Server software. Unless explicitly licensed, use of this software is limited to SAS Activity-Based Costing Server software.

- SAS Activity-Based Costing software
- Base SAS software
- SAS/ACCESS Interface to ODBC software
- SAS/ACCESS Interface to Oracle software
- SAS Integration Technologies software

**Disk Space Required for SAS Activity-Based Costing Server:**

SAS Activity-Based Costing Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Activity-Based Costing Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Activity-Based Management SAS Server

The following products are included in SAS Activity-Based Management SAS Server software. Unless explicitly licensed, use of this software is limited to SAS Activity-Based Management SAS Server software.

- Base SAS software
- SAS/ACCESS Interface to OLE DB software
- SAS/CONNECT software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/SHARE software

Disk Space Required for SAS Activity-Based Management SAS Server:

SAS Activity-Based Management SAS Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Activity-Based Management SAS Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Activity-Based Management Select SAS Server

The following products are included in SAS Activity-Based Management Select SAS Server software. Unless explicitly licensed, use of this software is limited to SAS Activity-Based Management Select SAS Server software.

- Base SAS software
- SAS/ACCESS Interface to ODBC software
- SAS/ACCESS Interface to OLE DB software
- SAS/ACCESS Interface to Oracle software
- SAS Activity-Based Costing software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/SHARE software

Disk Space Required for SAS Activity-Based Management Select SAS Server:

SAS Activity-Based Management Select SAS Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Activity-Based Management Select SAS Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Activity-Based Management Data Integration and Enterprise BI Server

The following products are included in SAS Activity-Based Management Data Integration and Enterprise BI Server software. Unless explicitly licensed, use of this software is limited to SAS Activity-Based Management Data Integration and Enterprise BI Server software.

- SAS Activity-Based Management ETL Server
- Base SAS software
- SAS/ACCESS engine of choice
- SAS/ACCESS Interface to PC Files software
- SAS/CONNECT software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS OLAP Server software

Disk Space Required for SAS Activity-Based Management Data Integration and Enterprise BI Server:

SAS Activity-Based Management Data Integration and Enterprise BI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Activity-Based Management Data Integration and Enterprise BI Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Activity-Based Management Server Metadata Server

Products Required for SAS Activity-Based Management Server Metadata Server:

Base SAS software is required, which includes SAS Metadata Server.

Disk Space Required for SAS Activity-Based Management Server Metadata Server:

SAS Activity-Based Management Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Activity-Based Management Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Activity-Based Management Adapter for SAP R/3 Software

SAS Activity-Based Management Adapter for SAP R/3 requires the installation of SAP R/3 (release 4.5B or higher) prior to the installation of the Adapter itself. SAS Activity-Based Management Adapter must be installed on a machine that already has the Activity-Based Management SAS Server or Activity-Based Management ETL and BI Server installed on it.

The following products are included in SAS Activity-Based Management Adapter for SAP R/3 software. Unless explicitly licensed, use of this software is limited to SAS Activity-Based Management Adapter for SAP R/3.

- SAS Activity-Based Management Adapter for SAP R/3
- Base SAS software
- SAS/ACCESS to R/3 software
- SAS Activity-Based Management Adapter for SAP R/3
Disk Space Required for SAS Activity-Based Management Adapter for SAP R/3:
The disk space required for SAS Activity-Based Management Adapter for SAP R/3 is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install the SAS Activity-Based Management Adapter for SAP R/3 should be decreased by the disk space of any of the above products that have been previously installed.

SAS/AF Software

Products Required for Build Mode:
- Base SAS software
- SAS/AF software
- SAS/GRAPH software (to create and display some graphics objects)

Other products may be required depending on the application.

Products Required for Run Mode:
- Base SAS software
- SAS/GRAPH software (to display some graphics objects)

Other products may be required depending on the application.

Printers:
- A color or gray scale printer is required for printing graphics-based objects.
- Depending on the object, certain non-graphic objects may require SAS/GRAPH software to print.
SAS Anti-Money Laundering Software

SAS Anti-Money Laundering Alert Generation Server

The following products are included in SAS Anti-Money Laundering Alert Generation Server. Unless explicitly licensed, use of this software is limited to SAS Anti-Money Laundering Alert Generation Server.

- SAS Anti-Money Laundering Alert Generation software
- Base SAS software
- SAS/ACCESS engine of choice (SAS/ACCESS Interface to DB2, SAS/ACCESS Interface to Oracle, or SAS/ACCESS Interface to Teradata—please note that SAS Anti-Money Laundering software is considered “Pre-Production” when used with SAS/ACCESS Interface to Teradata)
- SAS/CONNECT software
- SAS Data Quality Server
- SAS Enterprise Miner software
- SAS/EIS Software
- SAS/ETS Software
- SAS/FSP Software
- SAS/GRAPH software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS Metadata Server
- SAS OLAP Server software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Anti-Money Laundering Alert Generation Server:

The disk space required for SAS Anti-Money Laundering Alert Generation Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Anti-Money Laundering Alert Generation Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Anti-Money Laundering Discovery Clients

The following products are included in SAS Anti-Money Laundering Discovery Clients. Unless explicitly licensed, use of this software is limited to SAS Anti-Money Laundering Discovery Clients.

- Base SAS software
- SAS/CONNECT software
- SAS/EIS Software
- SAS Enterprise Miner software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/OR software
- SAS/STAT software

Disk Space Required for SAS Anti-Money Laundering Discovery Clients:

The disk space required for SAS Anti-Money Laundering Discovery Clients is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Anti-Money Laundering Discovery Clients should be decreased by the disk space of any of the above products that have been previously installed.

SAS AppDev Studio 3.0

Products Included:

- Base SAS software
- SAS Integration Technologies software
- SAS/AF software
- SAS/CONNECT software
- SAS/EIS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/IntrNet software
- SAS/SHARE software

Disk Space Required:

The disk space required for SAS AppDev Studio 3.0 is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS AppDev Studio 3.0 should be decreased by the disk space of any of the above products that have been previously installed.
SAS Banking Intelligence Architecture Software

SAS Banking Intelligence Architecture Data Integration Server

The following products are included in SAS Banking Intelligence Architecture Data Integration Server. Unless explicitly licensed, use of this software is limited to SAS Banking Intelligence Architecture Data Integration Server.

- Base SAS software
- SAS/ACCESS engine of choice
- a second SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Integration Technologies software

Disk Space Required for SAS Banking Intelligence Architecture Data Integration Server:

The disk space required for SAS Banking Intelligence Architecture Data Integration Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Banking Intelligence Architecture Data Integration Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Banking Intelligence Architecture EBI Server

The following products are included in SAS Banking Intelligence Architecture EBI Server. Unless explicitly licensed, use of this software is limited to SAS Banking Intelligence Architecture EBI Server.

- Base SAS software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/STAT software

Disk Space Required for SAS Banking Intelligence Architecture EBI Server:

The disk space required for SAS Banking Intelligence Architecture EBI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Banking Intelligence Architecture EBI Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Banking Intelligence Architecture Metadata Server

The following products are included in SAS Banking Intelligence Architecture Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Banking Intelligence Architecture Metadata Server.

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software

Disk Space Required for SAS Metadata Server:

SAS Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Banking Intelligence Architecture OLAP Server
The following products are included in SAS Banking Intelligence Architecture OLAP Server. Unless explicitly licensed, use of this software is limited to SAS Banking Intelligence Architecture OLAP Server.

- Base SAS software
- SAS Integration Technologies
- SAS OLAP Server

Disk Space Required for SAS Banking Intelligence Architecture OLAP Server:
The disk space required for SAS Banking Intelligence Architecture OLAP Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Banking Intelligence Architecture OLAP Server should be decreased by the disk space of any of the above products that have been previously installed.

Base SAS Software
Requirements for SPD Engine on Microsoft Windows:
The following are general guidelines for a minimum computer system to support SPD Engine.

- An SMP (symmetric multiprocessing) computer with at least two CPUs; four are preferred
- At least one I/O channel per two CPUs
- Enough disk drives to have at least one mount point per CPU isolated on its own disk; two mount points per CPU are better

SAS BI Server

SAS BI Server
The following products are included in SAS BI Server software:

- Base SAS software
- SAS/GRAPH software
- SAS Integration Technologies software

Disk Space Required for SAS BI Server:
The disk space required for SAS BI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS BI Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS BI Server Metadata Server

The following products are included in SAS BI Server Metadata Server software:

- Base SAS software
- SAS Metadata Server software
- SAS Integration Technologies software

Disk Space Required for SAS BI Server Metadata Server:

The disk space required for SAS BI Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS BI Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Interface to Bloomberg

Products Required:

- Base SAS software
- SAS Interface to Bloomberg

Bloomberg Products Required:

- Bloomberg LP, V.05.07.02 or higher
- Bloomberg API, Version 3.0 or higher

SAS Interface to Bloomberg requires the use of TCP/IP communication protocols to function properly. In addition, SAS Interface to Bloomberg will execute properly only on authorized Bloomberg workstations.

SAS Campaign Management Software

Campaign Management Server software

The following products are included in SAS Campaign Management Server software. Unless explicitly licensed, use of this software is limited to SAS Campaign Management Server.

- Base SAS software
- SAS/ACCESS Engine of choice
- SAS/ACCESS Interface to PC Files software
- SAS/CONNECT software
- SAS Customer intelligence Processes software
- SAS/ETS software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Campaign Management Server:

SAS Campaign Management Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Campaign Management Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Campaign Management Server Metadata Server**

**Products Required for the SAS Campaign Management Server Metadata Server:**

Base SAS software is required, which includes the SAS Metadata Server.

**Disk Space Required for SAS Campaign Management Server Metadata Server:**

SAS Campaign Management Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Campaign Management Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS/CONNECT Software**

**Product Required:** Base SAS software

SAS/CONNECT software uses the TCP/IP access method and supports Microsoft’s TCP/IP System Driver, which is provided with Windows.

**Note:** The APPC access method is no longer supported for Windows.
SAS Credit Risk Management for Banking Software

SAS Credit Risk Management for Banking Server

The following products are included in SAS Credit Risk Management for Banking Server software. Unless explicitly licensed, use of this software is limited to SAS Credit Risk Management for Banking Server.

- Base SAS software
- SAS/ACCESS engine of choice
- a second SAS/ACCESS engine of choice
- SAS/ACCESS Interface to ODBC software
- SAS/ACCESS Interface to PC Files software
- SAS/AF software
- SAS/CONNECT software
- SAS Credit Scoring for SAS Enterprise Miner software
- SAS/EIS software
- SAS Enterprise Miner software (installation code)
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/IML software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS/IntrNet software
- SAS OLAP Server software
- SAS/OR software
- SAS Risk Dimensions software (installation code)
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Credit Risk Management for Banking Server:

The disk space for SAS Credit Risk Management for Banking Server is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Credit Risk Management for Banking Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Credit Risk Management Server Metadata Server

Products Included in SAS Credit Risk Management Server Metadata Server:

Base SAS software is required, which includes SAS Metadata Server software.

Disk Space Required for SAS Credit Risk Management Server Metadata Server:

The disk space for SAS Credit Risk Management Server Metadata Server is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Credit Risk Management Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Credit Risk Management for Banking SAS Client

The following products are included in SAS Credit Risk Management for Banking SAS Client software. Unless explicitly licensed, use of this software is limited to SAS Credit Risk Management for Banking SAS Client.

- Base SAS software
- SAS/ACCESS engine of choice
- a second SAS/ACCESS engine of choice
- SAS/ACCESS Interface to ODBC software
- SAS/ACCESS Interface to PC Files software
- SAS/AF software
- SAS/CONNECT software
- SAS Credit Scoring for SAS Enterprise Miner software
- SAS/EIS software
- SAS Enterprise Miner software (installation code)
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/IML software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS/IntrNet software
- SAS OLAP Server software
- SAS/OR software
- SAS Risk Dimensions software (installation code)
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Credit Risk Management for Banking SAS Client:

The disk space required for SAS Credit Risk Management for Banking SAS Client is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Credit Risk Management for Banking SAS Client should be decreased by the disk space of any of the above products that have been previously installed.
SAS Credit Scoring for Banking Software

SAS Credit Scoring for Banking Server

The following products are included in SAS Credit Scoring for Banking Server. Unless explicitly licensed, use of this software is limited to SAS Credit Scoring for Banking Server.

- Base SAS software
- SAS/CONNECT software
- SAS Credit Scoring for SAS Enterprise Miner software
- SAS/EIS software
- SAS Enterprise Miner software (installation code)
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/INSIGHT software
- SAS OLAP Server software
- SAS/OR software
- SAS/STAT software

Disk Space Required:

The disk space required for the SAS Credit Scoring for Banking Server package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

SAS Credit Scoring for Banking SAS Client

The following products are included in SAS Credit Scoring for Banking SAS Client. Unless explicitly licensed, use of this software is limited to SAS Credit Scoring for Banking Server.

- Base SAS software
- SAS/CONNECT software
- SAS Credit Scoring for SAS Enterprise Miner software
- SAS/EIS software
- SAS Enterprise Miner software (installation code)
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/INSIGHT software
- SAS OLAP Server software
- SAS/OR software
- SAS/STAT software

Disk Space Required:

The disk space required for the SAS Credit Scoring for Banking SAS Client package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
**SAS Credit Scoring for SAS Enterprise Miner Software**

SAS Enterprise Miner software is a prerequisite for the installation of SAS Credit Scoring for SAS Enterprise Miner software.

**SAS Cross-Sell and Up-Sell for Banking Software**

**SAS Cross-Sell and Up-Sell for Banking Server**

The following products are included in SAS Cross-Sell and Up-Sell for Banking Server. Unless explicitly licensed, use of this software is limited to SAS Cross-Sell and Up-Sell for Banking Server.

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/AF software
- SAS/CONNECT software
- SAS Customer Intelligence for Banking Supplemental Server software
- SAS Enterprise Miner Installation software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS High-Performance Forecasting
- SAS Integration Technologies software
- SAS/INSIGHT software
- SAS OLAP Server software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software

**Disk Space Required for SAS Cross-Sell and Up-Sell for Banking Server:**

The disk space required for SAS Cross-Sell and Up-Sell for Banking Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Cross-Sell and Up-Sell for Banking Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Cross-Sell and Up-Sell for Banking Metadata Server**

The following products are included in SAS Cross-Sell and Up-Sell for Banking Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Cross-Sell and Up-Sell for Banking Metadata Server.

- Base SAS software
- SAS Metadata Server software

**Disk Space Required for SAS Cross-Sell and Up-Sell for Banking Metadata Server:**

The disk space required for SAS Cross-Sell and Up-Sell for Banking Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Cross-Sell and Up-Sell for Banking Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Customer Retention for Banking Software

SAS Customer Retention for Banking Server

The following products are included in SAS Customer Retention for Banking Server. Unless explicitly licensed, use of this software is limited to SAS Customer Retention for Banking Server.

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/AF software
- SAS/CONNECT software
- SAS Customer Intelligence for Banking Supplemental Server software
- SAS Enterprise Miner Installation software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS High-Performance Forecasting
- SAS Integration Technologies software
- SAS/INSIGHT software
- SAS OLAP Server software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Customer Retention for Banking Server:

The disk space required for SAS Customer Retention for Banking Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Customer Retention for Banking Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Customer Retention for Banking Metadata Server

The following products are included in SAS Customer Retention for Banking Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Customer Retention for Banking Metadata Server.

- Base SAS software
- SAS Metadata Server software

Disk Space Required for SAS Customer Retention for Banking Metadata Server:

The disk space required for SAS Customer Retention for Banking Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Customer Retention for Banking Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Customer Segmentation for Banking Software

SAS Customer Segmentation for Banking Server

The following products are included in SAS Customer Segmentation for Banking Server. Unless explicitly licensed, use of this software is limited to SAS Customer Segmentation for Banking Server.

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/AF software
- SAS/CONNECT software
- SAS Customer Intelligence for Banking Supplemental Server software
- SAS Enterprise Miner Installation software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS High-Performance Forecasting
- SAS Integration Technologies software
- SAS/INSIGHT software
- SAS OLAP Server software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Customer Segmentation for Banking Server:

The disk space required for SAS Customer Segmentation for Banking Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Customer Segmentation for Banking Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Customer Segmentation for Banking Metadata Server

The following products are included in SAS Customer Segmentation for Banking Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Customer Segmentation for Banking Metadata Server.

- Base SAS software
- SAS Metadata Server software

Disk Space Required for SAS Customer Segmentation for Banking Metadata Server:

The disk space required for SAS Customer Segmentation for Banking Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Customer Segmentation for Banking Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Data Integration Server**

**SAS Data Integration Server**
The following products are included in SAS Data Integration Server:

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software

**Disk Space Required for SAS Data Integration Server:**
The disk space required for SAS Data Integration Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Data Integration Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Data Integration Server Metadata Server**
The following products are included in SAS Data Integration Server Metadata Server:

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

**Disk Space Required for SAS Data Integration Server Metadata Server:**
The disk space required for SAS Data Integration Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Data Integration Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Data Mining for the Classroom 5.3

The following products are included in SAS Data Mining for the Classroom 5.3 software. Unless explicitly licensed, use of this software is limited to SAS Data Mining for the Classroom 5.3.

- Base SAS software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS Enterprise Miner software
- SAS/FSP software
- SAS/GRAF software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/OR software
- SAS/STAT software
- SAS Text Miner software

Disk Space Required for SAS Data Mining for the Classroom 5.3:

The disk space required for the SAS Data Mining for the Classroom 5.3 is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install the SAS Data Mining for the Classroom 5.3 should be decreased by the disk space of any of the above products that have been previously installed.

SAS Data Quality Server

Product Required: Base SAS software

Memory: 100 MB recommended per locale

Note: The memory requirements for SAS Data Quality Server software are dependent upon the complexity of the data and the number of locales loaded from the Quality Knowledge Base at one time.

SAS Data Surveyor for Oracle

An installation of SAS Data Surveyor for Oracle requires one of the following products as a prerequisite:

- SAS Data Integration Server
- SAS Enterprise Data Integration Server
- any solution containing SAS Data Integration Studio

SAS Data Surveyor for Oracle contains SAS/ACCESS Interface to Oracle. When determining the file space required for this product from the file size tables, use only the figure for SAS/ACCESS Interface to Oracle.
**SAS Data Surveyor for PeopleSoft**

An installation of SAS Data Surveyor for PeopleSoft requires one of the following products as a prerequisite:

- SAS Data Integration Server
- SAS Enterprise Data Integration Server
- any solution containing SAS Data Integration Studio

SAS Data Surveyor for PeopleSoft contains a SAS/ACCESS engine of your choice. When determining the file space required for this product engine from the file size tables, use only the figure for your chosen SAS/ACCESS.

**SAS Data Surveyor for SAP**

An installation of SAS Data Surveyor for SAP requires one of the following products as a prerequisite:

- SAS Data Integration Server
- SAS Enterprise Data Integration Server
- any solution containing SAS Data Integration Studio

SAS Data Surveyor for SAP contains SAS/ACCESS Interface to R/3 and SAS/ACCESS Interface to SAP BW. When determining the file space required for this product from the file size tables, use only the figures for these two SAS/ACCESS products.

**SAS Data Surveyor for Siebel**

An installation of SAS Data Surveyor for Siebel requires one of the following products as a prerequisite:

- SAS Data Integration Server
- SAS Enterprise Data Integration Server
- any solution containing SAS Data Integration Studio

SAS Data Surveyor for Siebel contains a SAS/ACCESS engine of your choice. When determining the file space required for this product from the file size tables, use only the figure for your chosen SAS/ACCESS engine.

**SAS Digital Marketing**

The following products are included in SAS Digital Marketing SAS Server. Unless explicitly licensed, use of this software is limited to SAS Digital Marketing SAS Server.

- Base SAS software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/SHARE software

**Disk Space Required for SAS Digital Marketing SAS Server:**

SAS Digital Marketing SAS Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Digital Marketing SAS Server should be decreased by the disk space of any of the above products that have been previously installed.
**SAS Drug Development Software**

The following products are included in SAS Drug Development File Access software. Unless explicitly licensed, use of this software is limited to SAS Drug Development.

- Base SAS software
- SAS/ACCESS Interface to PC Files
- SAS/CONNECT

**Disk Space Required for SAS Drug Development File Access software:**

SAS Drug Development File Access software is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Drug Development File Access software should be decreased by the disk space of any of the above products that have been previously installed.

**Education Analytical Suite**

The following products are included in Education Analytical Suite Server. Unless explicitly licensed, use of this software is limited to Education Analytical Suite Server.

- Base SAS software
- SAS/ACCESS Interface to DB2 software
- SAS/ACCESS Interface to MySQL software
- SAS/ACCESS Interface to ODBC software
- SAS/ACCESS Interface to OLE DB software
- SAS/ACCESS Interface to Oracle software
- SAS/ACCESS Interface to PC Files software
- SAS/ACCESS Interface to Sybase software
- SAS/ACCESS Interface to Teradata software
- SAS/AF software
- SAS/ASSIST software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/IML software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS/LAB software
- SAS/OR software
- SAS/QC software
- SAS/SECURE software
- SAS/SHARE software
- SAS/STAT software

**Disk Space Required for Education Analytical Suite Server:**

The disk space required for Education Analytical Suite Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install Education Analytical Suite Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS/EIS Software

Products Required for Build Mode:

- Base SAS software
- SAS/AF software
- SAS/EIS software
- SAS/FSP software
- SAS/GRAPH software

Other products may be required depending on the application.

Products Required for Run Mode:

- Base SAS software
- SAS/GRAPH software
- SAS/EIS software

Other products may be required depending on the application.

Memory: 128 MB required

SAS Enterprise BI Server

SAS Enterprise BI Server

The following products are included in SAS Enterprise BI Server software:

- Base SAS software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS OLAP Server

Disk Space Required for SAS Enterprise BI Server software:

The disk space required for SAS Enterprise BI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Enterprise BI Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Enterprise BI Server Metadata Server

The following products are included in SAS Enterprise BI Server Metadata Server software.

- Base SAS software
- SAS Metadata Server software

Disk Space Required:

The disk space required for SAS Enterprise BI Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Enterprise BI Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

### SAS Enterprise Data Integration Server

**SAS Enterprise Data Integration Server**

The following products are included in SAS Enterprise Data Integration Server:

- Base SAS software
- SAS/ACCESS software of choice
- A second SAS/ACCESS software of choice
- SAS/CONNECT software
- SAS Data Quality Server and the Quality Knowledge Base of choice
- SAS Integration Technologies software
- SAS/SHARE software

**Disk Space Required for SAS Enterprise Data Integration Server:**

The disk space required for SAS Enterprise Data Integration Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Enterprise Data Integration Server should be decreased by the disk space of any of the above products that have been previously installed.

### SAS Enterprise Data Integration Server Metadata Server

**SAS Enterprise Data Integration Server Metadata Server**

The following products are included in SAS Enterprise Data Integration Server Metadata Server:

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

**Disk Space Required for SAS Enterprise Data Integration Server Metadata Server:**

The disk space required for SAS Enterprise Data Integration Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Enterprise Data Integration Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Enterprise Intelligence Suite for Education

SAS Enterprise Intelligence Suite Server

The following products are included in SAS Enterprise Intelligence Suite Server. Unless explicitly licensed, use of this software is limited to SAS Enterprise Intelligence Suite Server.

- Base SAS software
- Quality Knowledge Base locale of choice
- SAS/ACCESS engine of choice
- A second SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Data Quality Server software
- SAS/ETS software
- SAS/GRAPH software
- SAS/IML software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Enterprise Intelligence Suite Server:

The disk space required for SAS Enterprise Intelligence Suite Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Enterprise Intelligence Suite Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Enterprise Intelligence Suite Server Metadata Server

The following products are included in SAS Enterprise Intelligence Suite Server Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Enterprise Intelligence Suite Server Metadata Server.

- Base SAS software
- SAS/Connect software
- SAS Metadata Server software

Disk Space Required for SAS Enterprise Intelligence Suite Server Metadata Server:

The disk space required for SAS Enterprise Intelligence Suite Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Enterprise Intelligence Suite Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Enterprise Intelligence Suite OLAP Server

The following products are included in SAS Enterprise Intelligence Suite OLAP Server. Unless explicitly licensed, use of this software is limited to SAS Enterprise Intelligence Suite OLAP Server.

- Base SAS software
- SAS/AF
- SAS/GRAPH
- SAS Integration Technologies
- SAS OLAP Server

Disk Space Required for SAS Enterprise Intelligence Suite OLAP Server:

The disk space required for SAS Enterprise Intelligence Suite OLAP Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Enterprise Intelligence Suite OLAP Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Enterprise Management for Six Sigma Software

SAS Enterprise Management for Six Sigma Server

The following products are included in SAS Enterprise Management for Six Sigma Server. Unless explicitly licensed, use of this software is limited to SAS Enterprise Management for Six Sigma Server.

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/ACCESS Interface to ODBC software
- SAS/ACCESS Interface to PC Files software
- SAS/AF software
- SAS/CONNECT software
- SAS/ETS software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/IntrNet software
- SAS OLAP Server software
- SAS/QC software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Enterprise Management for Six Sigma Server:

SAS Enterprise Management for Six Sigma Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Enterprise Management for Six Sigma Server should be decreased by the disk space of any of the above products that have been previously installed.
Enterprise Management for Six Sigma Server Metadata Server

The following products are included in SAS Enterprise Management for Six Sigma Server Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Enterprise Management for Six Sigma Server Metadata Server.

- Base SAS software
- SAS Metadata Server software

Disk Space Required for SAS Enterprise Management for Six Sigma Server Metadata Server:

SAS Enterprise Management for Six Sigma Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Enterprise Management for Six Sigma Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Enterprise Miner 4.3 and 5.3

SAS Enterprise Miner Server 4.3 and 5.3

Base SAS software and SAS/STAT software are prerequisites for the installation of SAS Enterprise Miner Server.

The following products are included in SAS Enterprise Miner Server 4.3 and 5.3. Unless explicitly licensed, use of this software is limited to SAS Enterprise Miner Server.

- SAS Enterprise Miner software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/OR software

Memory Required for SAS Enterprise Miner Server 4.3 and 5.3: 1 GB required

Disk Space Required for SAS Enterprise Miner Server 4.3 and 5.3:

The disk space required for the SAS Enterprise Miner Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install the SAS Enterprise Miner Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Enterprise Miner Client 4.3

The following products are included in SAS Enterprise Miner Client 4.3 software. Unless explicitly licensed, use of this software is limited to SAS Enterprise Miner Client 4.3.

- SAS Enterprise Miner Client software
- Base SAS software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/OR software
- SAS/STAT software

Memory Required for SAS Enterprise Miner Client 4.3: 512 MB required.

Disk Space Required for SAS Enterprise Miner Client 4.3:

The disk space required for the SAS Enterprise Miner Client is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install the SAS Enterprise Miner Client should be decreased by the disk space of any of the above products that have been previously installed.

SAS Enterprise Miner for Desktop 5.3

Base SAS software and SAS/STAT software are prerequisites for the installation of SAS Enterprise Miner for Desktop.

The following products are included in SAS Enterprise Miner for Desktop 5.3 software. Unless explicitly licensed, use of this software is limited to SAS Enterprise Miner for Desktop 5.3.

- SAS Enterprise Miner software
- SAS/GRAPH software
- SAS Integration Technologies software

Disk Space Required for SAS Enterprise Miner for Desktop software:

The disk space required for the SAS Enterprise Miner for Desktop 5.3 is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install the SAS Enterprise Miner for Desktop 5.3 should be decreased by the disk space of any of the above products that have been previously installed.
SAS Enterprise Model Management Software

The following products are included in SAS Enterprise Model Management Server. Unless explicitly licensed, use of this software is limited to SAS Enterprise Model Management Server.

- SAS Model Manager Server software
- Base SAS software
- SAS/CONNECT software
- SAS/EIS software
- SAS Enterprise Miner software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/INSIGHT software
- SAS OLAP Server software
- SAS/OR software
- SAS/STAT software

Disk Space Required for SAS Enterprise Model Management Server

The disk space required for SAS Enterprise Model Management Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Enterprise Model Management Server should be decreased by the disk space of any of the above products that have been previously installed.

Enterprise Reporter

Products Required:

- Base SAS software
- SAS/GRAPH software

Additional functionality is obtained if the following products are installed:

- SAS/ACCESS family of software products
- SAS/AF software
- SAS/CONNECT software
- SAS OLAP Server software

Enterprise Reporter Web Gallery

Additional functionality is obtained with SAS/IntrNet software installed.

SAS Bridge for ESRI

Products Required:

- Base SAS software
- SAS Integration Technologies software (if you are installing the SAS Bridge for ESRI client on the same machine as Base SAS, SAS Integration Technologies is not required.)
Disk Space Required:
SAS Bridge for ESRI is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Bridge for ESRI should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Fair Banking Software**

**SAS Fair Banking SAS Server**

The following products are included in SAS Fair Banking SAS Server software. Unless explicitly licensed, use of this software is limited to SAS Fair Banking SAS Server.

- Base SAS software
- SAS/ACCESS Interface to ODBC software
- SAS/ACCESS Interface to PC Files software
- SAS/AF software
- SAS/CONNECT software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/IntrNet software
- SAS OLAP Server software
- SAS/SHARE software

Disk Space Required for SAS Fair Banking SAS Server:
The disk space for SAS Fair Banking SAS Server is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Fair Banking SAS Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Fair Banking Administrator**

Products Included in SAS Fair Banking Administrator software:

- Base SAS software
- SAS/CONNECT software
- SAS/GRAPH software

Disk Space Required for SAS Fair Banking Administrator:
The disk space for SAS Fair Banking Administrator is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Fair Banking Administrator should be decreased by the disk space of any of the above products that have been previously installed.
**SAS Financial Management Adapter for SAP**

SAS Financial Management is a prerequisite for SAS Financial Management Adapter for SAP.

**The following products are required for SAS Financial Management Adapter Server:**

- SAS Solutions Adapter for SAP Server software
- SAS/ACCESS Interface to R/3 software
- SAS/ACCESS Interface to SAP BW software

Additional functionality may require additional products to be installed.

**Disk Space Required:**

The disk space required for SAS Financial Management Adapter for SAP is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Financial Management Adapter for SAP should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Financial Management Software**

**SAS Financial Management Server**

**The following products are included in SAS Financial Management Server software.**

Unless explicitly licensed, use of this software is limited to SAS Financial Management Server.

- SAS Financial Management
- Base SAS software
- SAS/ACCESS engine of choice
- SAS/ACCESS to MySQL
- SAS/ACCESS to PC Files
- SAS/AF
- SAS/CONNECT
- SAS/GRAPH
- SAS Integration Technologies
- SAS/SHARE
- SAS Strategic Performance Management

**Disk Space Required for SAS Financial Management Server:**

SAS Financial Management Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Financial Management Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Financial Management Metadata Server

The following products are included in SAS Financial Management Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Financial Management Metadata Server.

- Base SAS software
- SAS/CONNECT
- SAS Integration Technologies
- SAS Metadata Server

Disk Space Required for SAS Financial Management Metadata Server:

SAS Financial Management Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Financial Management Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Forecast Server Software

SAS Forecast Server

Products Included in SAS Forecast Server:

- SAS Forecast Server Batch Interface
- Base SAS software
- SAS/ETS software
- SAS/GRAPH software
- SAS High-Performance Forecasting software
- SAS Integration Technologies software
- SAS/OR software (unless explicitly licensed, use of SAS/OR is limited to SAS Forecast Server)

Disk Space Required for SAS Forecast Server

The disk space required for SAS Forecast Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Forecast Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Forecast Server Metadata Server

Products Included in SAS Forecast Server Metadata Server:

- Base SAS software
- SAS Metadata Server software

Disk Space Required for SAS Forecast Server Metadata Server:

The disk space required for SAS Forecast Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Forecast Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
**SAS/GIS Software**

**Products Required for Build Mode:**
- Base SAS software
- SAS/AF software
- SAS/GIS software
- SAS/GRAPH software

Other products may be required depending on the application.

**Products Required for Run Mode:**
- Base SAS software
- SAS/FSP software
- SAS/GIS software
- SAS/GRAPH software

Other products may be required depending on the application.

**Printers:**
A color or gray scale printer is required. The list of possible printers can be found in the Graphics Hardware and Software Compatibility section on page 54.

**Display:** 256-color display adapter is strongly recommended.

**SAS/GRAPH Software**

Running the SAS/GRAPH ActiveX Graph Control from a Web browser requires Internet Explorer 5 or Internet Explorer 6. Running the SAS/GRAPH Java Applets from a Web browser requires either Internet Explorer, Versions 5.01 SP2 through 6.x, or Netscape 6.2.3 or greater.

The SAS 9 SAS/GRAPH ActiveX Graph Control will be installed in a separate directory with a separate registry entry. This allows it to co-exist with previous versions of the ActiveX Graph Control.

**SAS Grid Manager Software**

**SAS Grid Manager Control Server**
Base SAS software and SAS/CONNECT software are prerequisites for the installation of SAS Grid Manager Control Server.

**SAS Grid Server Metadata Server**

**The following products are included in SAS Grid Server Metadata Server.** Unless explicitly licensed, use of this software is limited to SAS Grid Server Metadata Server.

- Base SAS software
- SAS Metadata Server software

**Disk Space Required for SAS Grid Manager Metadata Server:**
SAS Grid Manager Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Grid Manager Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Grid Manager Node
Base SAS software and SAS/CONNECT software are prerequisites for the installation of SAS Grid Manager Node.

SAS GridClient
Base SAS software and SAS/CONNECT software are prerequisites for the installation of SAS GridClient.

SAS High-Performance Forecasting Software
Base SAS software is a prerequisite for the installation of SAS High-Performance Forecasting.

Products Included in SAS High-Performance Forecasting:
- SAS High-Performance Forecasting software
- SAS/OR software (unless explicitly licensed, use of SAS/OR is limited to SAS High-Performance Forecasting)

Disk Space Required for SAS High-Performance Forecasting:
The disk space required for SAS High-Performance Forecasting is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS High-Performance Forecasting should be decreased by the disk space of any of the above products that have been previously installed.

SAS Human Capital Management Adapter for SAP
SAS Human Capital Management is a prerequisite for SAS Human Capital Management Adapter for SAP.

The following products are required for SAS Human Capital Management Adapter Server:
- SAS Solutions Adapter for SAP Server software
- SAS/ACCESS Interface to R/3 software
- SAS/ACCESS Interface to SAP BW software

Additional functionality may require additional products to be installed.

Disk Space Required:
The disk space required for SAS Human Capital Management Adapter for SAP is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Human Capital Management Adapter for SAP should be decreased by the disk space of any of the above products that have been previously installed.
SAS Human Capital Management Software

SAS Human Capital Management Server

The following products are included in SAS Human Capital Management Server software. Unless explicitly licensed, use of this software is limited to SAS Human Capital Management Server.

- SAS Human Capital Management Server
- Base SAS software
- SAS/ACCESS engine of choice
- SAS/ACCESS to MySQL
- SAS/ACCESS to PC Files
- SAS/ETS
- SAS/CONNECT
- SAS/GRAPH
- SAS Integration Technologies
- JMP Software
- SAS OLAP Server
- SAS/SHARE
- SAS/STAT
- SAS Strategic Performance Management

Disk Space Required for SAS Human Capital Management Server:

SAS Human Capital Management Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Human Capital Management Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Human Capital Management Metadata Server

The following products are included in SAS Human Capital Management Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Human Capital Management Metadata Server.

- Base SAS software
- SAS/CONNECT
- SAS Integration Technologies
- SAS Metadata Server

Disk Space Required for SAS Human Capital Management Metadata Server:

SAS Human Capital Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Human Capital Management Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
**SAS Information Delivery Portal Software**

Base SAS software is a prerequisite for the installation of SAS Information Delivery Portal Server.

**Products Included in SAS Information Delivery Portal Server:**
SAS Information Delivery Portal is included. This software contains SAS Integration Technologies.

**Disk Space Required for SAS Information Delivery Portal Server:**
SAS Information Delivery Portal Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Information Delivery Portal Server should be decreased by the disk space of any of the above products that have been previously installed.*

**SAS Insurance Intelligence Architecture Software**

**SAS Insurance Intelligence Architecture Data Integration Server**

The following products are included in SAS Insurance Intelligence Architecture Data Integration Server. Unless explicitly licensed, use of this software is limited to SAS Insurance Intelligence Architecture Data Integration Server.

- Base SAS software
- SAS/ACCESS engine of choice
- a second SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Integration Technologies software

**Disk Space Required for SAS Insurance Intelligence Architecture Data Integration Server:**
The disk space required for SAS Insurance Intelligence Architecture Data Integration Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Insurance Intelligence Architecture Data Integration Server should be decreased by the disk space of any of the above products that have been previously installed.*

**SAS Insurance Intelligence Architecture EBI Server**

The following products are included in SAS Insurance Intelligence Architecture EBI Server. Unless explicitly licensed, use of this software is limited to SAS Insurance Intelligence Architecture EBI Server.

- Base SAS software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/STAT software

**Disk Space Required for SAS Insurance Intelligence Architecture EBI Server:**
The disk space required for SAS Insurance Intelligence Architecture EBI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Insurance Intelligence Architecture EBI Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Insurance Intelligence Architecture Metadata Server

The following products are included in SAS Insurance Intelligence Architecture Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Insurance Intelligence Architecture Metadata Server.

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software

Disk Space Required for SAS Metadata Server:

SAS Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Insurance Intelligence Architecture OLAP Server

The following products are included in SAS Insurance Intelligence Architecture OLAP Server. Unless explicitly licensed, use of this software is limited to SAS Insurance Intelligence Architecture OLAP Server.

- Base SAS software
- SAS Integration Technologies
- SAS OLAP Server

Disk Space Required for SAS Insurance Intelligence Architecture OLAP Server:

The disk space required for SAS Insurance Intelligence Architecture OLAP Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Insurance Intelligence Architecture OLAP Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Intelligence Storage

SAS Intelligence Storage Server

Products are included in SAS Intelligence Storage Server:

- Base SAS software
- SAS/AF software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS OLAP Server
Disk Space Required for SAS Intelligence Storage:
The disk space required for SAS Intelligence Storage Server is the combined total space requirements
for the SAS software products listed above. See the Space Requirements table on page 9 for more
information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required
to install SAS Intelligence Storage Server should be decreased by the disk space of any of the
above products that have been previously installed.

SAS Intelligence Storage Server Metadata Server
Products are included in SAS Intelligence Storage Server Metadata Server:
- Base SAS software
- SAS Metadata Server software

Disk Space Required for SAS Intelligence Storage Server Metadata Server:
The disk space required for SAS Intelligence Storage Server Metadata Server is the combined total
space requirements for the SAS software products listed above. See the Space Requirements table on
page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required
to install SAS Intelligence Storage Server Metadata Server should be decreased by the disk space of any of the
above products that have been previously installed.

SAS/IntrNet Software
SAS/IntrNet software consists of several components that may be installed independently.
SAS/IntrNet Server software is installed on an existing SAS System and is included on SAS 9.1.3
media. Other SAS/IntrNet software components may be installed from the SAS Client-Side
Components CD.

CGI Tools and Applications

Application Dispatcher
Requires Base SAS software and SAS/IntrNet Server software. The Application Broker component of
the Application Dispatcher must be installed on a Web server.

htmSQL
Requires Base SAS software, SAS/SHARE software, and a SAS/IntrNet software license (SETINIT).
The htmSQL component must be installed on a Web server.

MDBG Report Viewer Application
Requires Base SAS software; SAS/GRAPH software; SAS/IntrNet software; and SAS/EIS software or
SAS OLAP Server software. The Application Dispatcher component must be installed and configured.

Xplore Sample Web Application
Requires Base SAS software and SAS/IntrNet Server software. The Application Dispatcher
component must be installed and configured.
**Design-Time Controls**
Requires Base SAS software and SAS/IntrNet Server software. The Application Broker component of the Application Dispatcher must be installed on a Web server.

**Java Tools and Applications**

**SAS/CONNECT Driver for Java**
Requires Base SAS software, SAS/CONNECT software, and SAS/IntrNet Server software. SAS/SHARE software must also be installed if data services are used. The Java Tools package must be installed on a Web server or a client system.

**Tunnel Feature**
Must be installed on a Web server running on a UNIX or Windows system.

**SAS Inventory Optimization Software**
Base SAS is a prerequisite for the installation of SAS Inventory Optimization.

**Product included in SAS Inventory Optimization Server software:** SAS Inventory Optimization.

Unless explicitly licensed, use of SAS Inventory Optimization software is limited to SAS Inventory Optimization Server.

**Disk Space Required for SAS Inventory Optimization Server:**
SAS Inventory Optimization Server is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

**Note:** **If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Inventory Optimization Server should be decreased by the disk space of any of the above products that have been previously installed.**

**SAS IT Charge Management Software**
SAS IT Resource Management Server is a prerequisite for the installation of SAS IT Charge Management.

**Product Included in SAS IT Charge Management:** Enterprise Reporter

**Disk Space Required for SAS IT Charge Management Server:**
The disk space required for SAS IT Charge Management is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

**Note:** **If you have SAS 9.1.3 installed already, then the amount of disk space required to install SAS IT Charge Management should be decreased by the disk space of any of the above products that have been previously installed.**

**SAS IT Management Adapter for SAP Software**
SAS IT Management Adapter for SAP requires Base SAS software and SAS IT Resource Management Server software to be installed. In addition, it requires SAP R/3 (release 4.5B or higher) to be installed prior to the installation of the Adapter itself.
The following products are included in SAS IT Management Adapter for SAP software. Unless explicitly licensed, use of this software is limited to SAS IT Management Adapter for SAP.

- SAS IT Management Adapter for SAP
- SAS/ACCESS Interface to R/3 software
- SAS/ACCESS Interface to SAP BW software

**Disk Space Required for SAS IT Management Adapter for SAP:**
The disk space required for SAS IT Management Adapter for SAP is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install the SAS IT Management Adapter for SAP should be decreased by the disk space of any of the above products that have been previously installed.

**SAS IT Resource Management Software**

**SAS IT Resource Management Client 2.7 Software**
The following products are included in SAS IT Resource Management Client. Unless explicitly licensed, use of this software is limited to SAS IT Resource Management Client.

- Base SAS software
- SAS/AF software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS IT Management Solutions Core Components MVA Data software
- SAS/STAT software

**Disk Space Required for SAS IT Resource Management Client:**
The disk space required for the SAS IT Resource Management Client is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 installed already, then the amount of disk space required to install SAS IT Resource Management Client should be decreased by the disk space of any of the above products that have been previously installed.
SAS IT Resource Management Server Software

The following products are included in SAS IT Resource Management Server. Unless explicitly licensed, use of this software is limited to SAS IT Resource Management Server.

- SAS IT Resource Management Server software
- Base SAS software
- SAS/ACCESS to DB2 software
- SAS/ACCESS to ODBC software
- SAS/ACCESS to Oracle software
- SAS/AF software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS IT Management Solutions Core Components MVA Data software
- SAS/MDDB Server software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS IT Resource Management Server:

The disk space required for the SAS IT Resource Management Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 already installed, then the amount of disk space required to install SAS IT Resource Management Server should be decreased by the disk space of any of the above products that have been previously installed.

Other Requirements for SAS IT Resource Management Server:

- SAS IT Resource Management requires a screen resolution of at least 800x600. If your display is set to a lower screen resolution, some windows may be truncated to fit the screen. If you experience font display problems, you may want to use the default SAS font. To set the default font type, issue the SAS command dlgfont at the command prompt. In the Font window, select the font Sasfont, a style of regular, and font size 10.
- SAS IT Resource Management requires an Xwindows device that supports 256 or more colors.
- Adobe Acrobat Reader 3.x is required for some online documents supplied in printable form.

JMP Genetics SAS Components

The following products are included in JMP Genetics. Unless explicitly licensed, use of this software is limited to JMP Genetics.

- Base SAS software
- SAS/ACCESS to PC Files
- SAS Genetics
- SAS/GRAPH software
- SAS/IML
- SAS/STAT software
Disk Space Required for JMP Genetics SAS Components:

The disk space required for JMP Genetics SAS Components is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install JMP Genetics SAS Components should be decreased by the disk space of any of the above products that have been previously installed.

JMP Genomics Software

The following products are included in JMP Genomics Client. Unless explicitly licensed, use of this software is limited to JMP Genomics Client.

- Base SAS software
- SAS/ACCESS to PC Files software
- SAS/Genetics software
- SAS/GRAPH software
- SAS/IML software
- SAS/STAT software

Disk Space Required for JMP Genomics Client:

JMP Genomics Client is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install JMP Genomics Client should be decreased by the disk space of any of the above products that have been previously installed.

JMP Microarray SAS Components

The following products are included in JMP Microarray. Unless explicitly licensed, use of this software is limited to JMP Microarray.

- Base SAS software
- SAS/ACCESS to PC Files
- SAS/GRAPH software
- SAS/IML
- SAS/STAT software

Disk Space Required for JMP Microarray SAS Components:

The disk space required for JMP Microarray SAS Components is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install JMP Microarray SAS Components should be decreased by the disk space of any of the above products that have been previously installed.
**JMP Proteomics SAS Components**

The following products are included in JMP Proteomics. Unless explicitly licensed, use of this software is limited to JMP Proteomics.

- Base SAS software
- SAS/ACCESS to PC Files
- SAS/GRAPH software
- SAS/IML
- SAS/STAT software

**Disk Space Required for JMP Proteomics SAS Components:**

The disk space required for JMP Proteomics SAS Components is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install JMP Proteomics SAS Components should be decreased by the disk space of any of the above products that have been previously installed.

**SAS/LAB Software**

Products Required:

- Base SAS software
- SAS/FSP software (required for interactive data entry)
- SAS/GRAPH software
- SAS/LAB software

**SAS Manufacturing Intelligence Architecture Software**

**SAS Manufacturing Intelligence Architecture Data Integration Server**

The following products are included in SAS Manufacturing Intelligence Architecture Data Integration Server. Unless explicitly licensed, use of this software is limited to SAS Manufacturing Intelligence Architecture Data Integration Server.

- Base SAS software
- SAS/ACCESS engine of choice
- a second SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Integration Technologies software

**Disk Space Required for SAS Manufacturing Intelligence Architecture Data Integration Server:**

The disk space required for SAS Manufacturing Intelligence Architecture Data Integration Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Manufacturing Intelligence Architecture Data Integration Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Manufacturing Intelligence Architecture EBI Server

The following products are included in SAS Manufacturing Intelligence Architecture EBI Server. Unless explicitly licensed, use of this software is limited to SAS Manufacturing Intelligence Architecture EBI Server.

- Base SAS software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/STAT software

Disk Space Required for SAS Manufacturing Intelligence Architecture EBI Server:

The disk space required for SAS Manufacturing Intelligence Architecture EBI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Manufacturing Intelligence Architecture EBI Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Manufacturing Intelligence Architecture Metadata Server

The following products are included in SAS Manufacturing Intelligence Architecture Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Manufacturing Intelligence Architecture Metadata Server.

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software

Disk Space Required for SAS Metadata Server:

SAS Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Manufacturing Intelligence Architecture OLAP Server

The following products are included in SAS Manufacturing Intelligence Architecture OLAP Server. Unless explicitly licensed, use of this software is limited to SAS Manufacturing Intelligence Architecture OLAP Server.

- Base SAS software
- SAS Integration Technologies
- SAS OLAP Server

Disk Space Required for SAS Manufacturing Intelligence Architecture OLAP Server:

The disk space required for SAS Manufacturing Intelligence Architecture OLAP Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Manufacturing Intelligence Architecture OLAP Server should be decreased by the disk space of any of the above products that have been previously installed.
**SAS Markdown Optimization**

**SAS Markdown Optimization Server**

Products Included in SAS Markdown Optimization Server:

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Enterprise Miner Server
- SAS/ETS software
- SAS/GRAPH software
- SAS High-Performance Forecasting software
- SAS/IML software
- SAS Integration Technologies software
- SAS IntrNet software
- SAS Markdown Optimization Server software
- SAS Merchandise Intelligence Server software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software

**Disk Space Required for SAS Markdown Optimization Server:**

The disk space required for SAS Markdown Optimization Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Markdown Optimization Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Markdown Optimization Metadata Server**

Products Included in SAS Markdown Optimization Metadata Server:

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

**Disk Space Required for SAS Markdown Optimization Metadata Server:**

The disk space required for SAS Markdown Optimization Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Markdown Optimization Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Marketing Automation Software

SAS Marketing Automation Server
The following products are included in SAS Marketing Automation Server. Unless explicitly licensed, use of this software is limited to SAS Marketing Automation Server.

- Base SAS software
- SAS/ACCESS Interface to PC Files
- SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Customer Intelligence Processes software
- SAS Enterprise Miner software
- SAS/ETS software
- SAS/GRAF software
- SAS Integration Technologies software
- SAS/OLAP Server software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Marketing Automation Server:
SAS Marketing Automation Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Marketing Automation Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Marketing Automation Metadata Server
The following products are included in SAS Marketing Automation Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Marketing Automation Metadata Server.

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

Disk Space Required:
The disk space required for the SAS Marketing Automation Metadata Server package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Marketing Automation Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
**SAS Marketing Optimization Software**

**SAS Marketing Optimization Server**

The following products are included in SAS Marketing Optimization Server. Unless explicitly licensed, use of this software is limited to SAS Marketing Optimization Server.

- SAS Marketing Optimization software
- Base SAS Software
- SAS/ACCESS engine of choice
- SAS/ACCESS to PC Files
- SAS/CONNECT
- SAS/GRAH
- SAS Integration Technologies
- SAS OLAP Server
- SAS/OR
- SAS/SHARE
- SAS/STAT

**Disk Space Required for SAS Marketing Optimization Server:**

SAS Marketing Optimization Server is the combined total space requirements for the SAS software products listed above.

*Note:* Platform JobScheduler for SAS must be installed on the same machine as SAS Marketing Optimization Server.

See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Marketing Optimization Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Marketing Optimization Metadata Server**

The following products are included in SAS Marketing Optimization Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Marketing Optimization Metadata Server.

- Base SAS software
- SAS Metadata Server software

**Disk Space Required for SAS Marketing Optimization Metadata Server:**

SAS Marketing Optimization Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Marketing Optimization Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
Marketmax Base and Performance Analysis and Micromarketing Software

Marketmax Base and Performance Analysis and Micromarketing Server

The following products are included in Marketmax Base and Performance Analysis and Micromarketing Server. Unless explicitly licensed, use of this software is limited to Marketmax Base and Performance Analysis and Micromarketing Server.

- Base SAS software
- SAS/AF software
- SAS/CONNECT software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS OLAP Server software

Disk Space Required for Marketmax Base and Performance Analysis and Micromarketing Server:

The disk space required for Marketmax Base and Performance Analysis and Micromarketing Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install Marketmax Base and Performance Analysis and Micromarketing Server should be decreased by the disk space of any of the above products that have been previously installed.

Marketmax Base and Performance Analysis and Micromarketing Metadata Server

The following products are included in Marketmax Base and Performance Analysis and Micromarketing Metadata Server. Unless explicitly licensed, use of this software is limited to Marketmax Base and Performance Analysis and Micromarketing Metadata Server.

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

Disk Space Required for Marketmax Base and Performance Analysis and Micromarketing Metadata Server:

The disk space required for Marketmax Base and Performance Analysis and Micromarketing Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install Marketmax Base and Performance Analysis and Micromarketing Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

Marketmax Base and Performance Analysis and Micromarketing Data-Tier

The following products are included in Marketmax Base and Performance Analysis and Micromarketing Data-Tier. Unless explicitly licensed, use of this software is limited to Marketmax Base and Performance Analysis and Micromarketing Data-Tier.

- Base SAS software
- SAS/ACCESS engine of choice
Disk Space Required for Marketmax Base and Performance Analysis and Micromarketing Data-Tier:

The disk space required for Marketmax Base and Performance Analysis and Micromarketing Data-Tier is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install Marketmax Base and Performance Analysis and Micromarketing Data-Tier should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Metadata Server Software**

**Products Required:**
- Base SAS software
- SAS/Connect

**Disk Space Required for SAS Metadata Server:**

SAS Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Model Manager Software**

SAS Model Manager Server requires Base SAS software and SAS/STAT software to be installed.

The following products are included in SAS Model Manager Server. Unless explicitly licensed, use of this software is limited to SAS Model Manager Server.
- SAS Model Manager Server software
- SAS/GRAPH software
- SAS Integration Technologies software

**Disk Space Required for SAS Model Manager Server:**

The disk space required for SAS Model Manager Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Model Manager Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Money Laundering Detection Software**

**SAS Money Laundering Detection Server**

The following products are included in SAS Money Laundering Detection Server. Unless explicitly licensed, use of this software is limited to SAS Money Laundering Detection Server.
- Base SAS Software
- SAS/GRAPH
- SAS/SHARE
Disk Space Required for SAS Money Laundering Detection Server:
SAS Money Laundering Detection Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Money Laundering Detection Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Money Laundering Detection Client
Base SAS Software is included in SAS Money Laundering Detection Client. Unless explicitly licensed, use of this software is limited to SAS Money Laundering Detection Client.

Disk Space Required for SAS Money Laundering Detection Client:
SAS Money Laundering Detection Client is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Money Laundering Detection Client should be decreased by the disk space of any of the above products that have been previously installed.

SAS Money Laundering Detection Watch List Management Software
SAS Money Laundering Detection is a prerequisite for the installation of SAS Money Laundering Detection Watch List Management.

SAS Data Quality is included in SAS Money Laundering Detection Watch List Management Server. Unless explicitly licensed, use of this software is limited to SAS Money Laundering Detection Watch List Management Server.

Disk Space Required for SAS Money Laundering Detection Watch List Management Server:
SAS Money Laundering Detection Watch List Management Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Money Laundering Detection Watch List Management Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS OLAP Server Software
Base SAS software is a prerequisite for the installation of SAS OLAP Server software.

The following products are included in SAS OLAP SERVER software. Unless explicitly licensed, use of this software is limited to SAS OLAP Server.

- SAS OLAP Server software
- SAS/AF software
- SAS/GRAPH software
- SAS Integration Technologies software

Memory: 512 MB required

The memory requirements for SAS OLAP Server software depend upon the complexity of the data. Large applications will see performance improvements with more available memory.
**SAS OpRisk Global Data**

The following products are included in **SAS OpRisk Global Data**. Unless explicitly licensed, use of this software is limited to SAS OpRisk Global Data.

- Base SAS software
- SAS/ACCESS to PC Files

**Disk Space Required for SAS OpRisk Global Data:**

The disk space required for the SAS OpRisk Global Data package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Op Risk Global Data should be decreased by the disk space of any of the above products that have been previously installed.

**SAS OpRisk Monitor Software**

**SAS OpRisk Monitor Server**

The following products are included in **SAS OpRisk Monitor Server**. Unless explicitly licensed, use of this software is limited to SAS OpRisk Monitor Server.

- SAS OpRisk Monitor Server software
- Base SAS software
- SAS/ACCESS engine of choice (Oracle)
- SAS/ACCESS Interface to PC Files software
- SAS/CONNECT software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS OLAP Server software

**Disk Space Required for SAS OpRisk Monitor Server:**

SAS OpRisk Monitor Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS OpRisk Monitor Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS OpRisk Metadata Server**

The following products are included in **SAS OpRisk Metadata Server**. Unless explicitly licensed, use of this software is limited to SAS OpRisk Metadata Server.

- SAS Metadata Server software
- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software

**Disk Space Required for SAS OpRisk Metadata Server:**

SAS OpRisk Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS OpRisk Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS OpRisk VaR Software**

**SAS OpRisk VaR Server**

The following products are included in SAS OpRisk VaR Server. Unless explicitly licensed, use of this software is limited to SAS OpRisk VaR Server:

- SAS OpRisk VaR Server software
- Base SAS software
- Standard SAS/ACCESS engine of choice (Oracle or DB2)
- SAS/ACCESS to PC Files software
- SAS/AF software
- SAS/CONNECT software
- SAS/ETS software
- SAS/GRAPH software
- SAS/IML software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software

**Disk Space Required:**

The disk space required for the SAS OpRisk VaR Server Package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**SAS OpRisk Metadata Server**

The following products are included in SAS OpRisk Metadata Server. Unless explicitly licensed, use of this software is limited to SAS OpRisk Metadata Server:

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software

**Disk Space Required:**

The disk space required for the SAS OpRisk Metadata Server package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
**SAS Pack Optimization**

**SAS Pack Optimization Server**

Products Included in SAS Pack Optimization Server:

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS/ETS software
- SAS/GRAPH software
- SAS High-Performance Forecasting software
- SAS/IML software
- SAS Integration Technologies software
- SAS IntrNet software
- SAS Merchandise Intelligence Server software
- SAS/OR software
- SAS/SHARE software
- SAS Pack Optimization Server software
- SAS/STAT software

**Disk Space Required for SAS Pack Optimization Server:**

The disk space required for SAS Pack Optimization Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Pack Optimization Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Pack Optimization Metadata Server**

Products Included in SAS Pack Optimization Metadata Server:

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

**Disk Space Required for SAS Pack Optimization Metadata Server:**

The disk space required for SAS Pack Optimization Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Pack Optimization Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
Portal Server Components 9.1.3

The following products are included in Portal Server Components 9.1.3. Unless explicitly licensed, use of this software is limited to Portal Server Components.

- Portal Server Components
- Base SAS software
- SAS Integration Technologies software

Disk Space Required:

The disk space required for Portal Server Components 9.1.3 is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install Portal Server Components 9.1.3 should be decreased by the disk space of any of the above products that have been previously installed.

SAS Profitability Management Software

SAS Profitability Management Data Integration and BI Server

The following products are included in SAS Profitability Management Data Integration and BI Server. Unless explicitly licensed, use of this software is limited to SAS Profitability Management Data Integration and BI Server.

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/ACCESS Interface to PC Files software
- SAS/CONNECT software
- SAS/GRAPH software
- SAS Integration Technologies software

Disk Space Required for SAS Profitability Management Data Integration and BI Server:

SAS Profitability Management Data Integration and BI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Profitability Management Data Integration and BI Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Profitability Management Metadata Server

The following products are included in SAS Profitability Management Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Profitability Management Metadata Server.

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

Disk Space Required for SAS Profitability Management Metadata Server:

SAS Profitability Management Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Profitability Management Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Profitability Management SAS Server
The following products are included in SAS Profitability Management SAS Server.
Unless explicitly licensed, use of this software is limited to SAS Profitability Management SAS Server.

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS OLAP Server software
- SAS Integration Technologies software
- SAS Transaction Server software

Disk Space Required for SAS Profitability Management SAS Server:
SAS Profitability Management SAS Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Profitability Management SAS Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Promotion Optimization

SAS Promotion Optimization Server
Products Included in SAS Promotion Optimization Server:

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Enterprise Miner
- SAS/ETS software
- SAS/GRAPH software
- SAS High-Performance Forecasting software
- SAS/IML software
- SAS Integration Technologies software
- SAS IntrNet software
- SAS Markdown Optimization Server software
- SAS Merchandise Intelligence Server software
- SAS/OR software
- SAS Promotion Optimization Server software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Promotion Optimization Server:
The disk space required for SAS Promotion Optimization Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Promotion Optimization Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Promotion Optimization Metadata Server

Products Included in SAS Promotion Optimization Metadata Server:

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

Disk Space Required for SAS Promotion Optimization Metadata Server:

The disk space required for SAS Promotion Optimization Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Promotion Optimization Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Real-Time Decision Manager Software

SAS Real-Time Decision Manager Server

The following products are included in SAS Real-Time Decision Manager Server. Unless explicitly licensed, use of this software is limited to SAS Real-Time Decision Manager Server.

- SAS Real-Time Decision Manager Server Components software
- Base SAS software
- SAS/ACCESS engine of choice
- SAS Customer Intelligence Processes software
- SAS Integration Technologies software
- SAS/STAT software

Disk Space Required:

The disk space required for the SAS Real-Time Decision Manager Server package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Real-Time Decision Manager Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Real-Time Decision Manager Metadata Server

The following products are included in SAS Real-Time Decision Manager Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Real-Time Decision Manager Metadata Server.

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software
Disk Space Required:
The disk space required for the SAS Real-Time Decision Manager Metadata Server package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Real-Time Decision Manager Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Regular Price Optimization

SAS Regular Price Optimization Server

Products Included in SAS Regular Price Optimization Server:
- Base SAS software
- SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Enterprise Miner Server
- SAS/ETS software
- SAS/GRAPH software
- SAS High-Performance Forecasting software
- SAS/IML software
- SAS Integration Technologies software
- SAS InTrNet software
- SAS Merchandise Intelligence Server software
- SAS/OR software
- SAS Regular Price Optimization Server software
- SAS/SHARE software
- SAS/STAT software

Disk Space Required for SAS Regular Price Optimization Server:
The disk space required for SAS Regular Price Optimization Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Regular Price Optimization Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Regular Price Optimization Metadata Server

Products Included in SAS Regular Price Optimization Metadata Server:
- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

Disk Space Required for SAS Regular Price Optimization Metadata Server:
The disk space required for SAS Regular Price Optimization Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Regular Price Optimization Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Retail Intelligence Architecture Software

SAS Retail Intelligence Architecture Data Integration Server

The following products are included in SAS Retail Intelligence Architecture Data Integration Server. Unless explicitly licensed, use of this software is limited to SAS Retail Intelligence Architecture Data Integration Server.

- Base SAS software
- SAS/ACCESS engine of choice
- a second SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Integration Technologies software

Disk Space Required for SAS Retail Intelligence Architecture Data Integration Server:

The disk space required for SAS Retail Intelligence Architecture Data Integration Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Retail Intelligence Architecture Data Integration Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Retail Intelligence Architecture EBI Server

The following products are included in SAS Retail Intelligence Architecture EBI Server. Unless explicitly licensed, use of this software is limited to SAS Retail Intelligence Architecture EBI Server.

- Base SAS software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/STAT software

Disk Space Required for SAS Retail Intelligence Architecture EBI Server:

The disk space required for SAS Retail Intelligence Architecture EBI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Retail Intelligence Architecture EBI Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Retail Intelligence Architecture Metadata Server

The following products are included in SAS Retail Intelligence Architecture Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Retail Intelligence Architecture Metadata Server.

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
Disk Space Required for SAS Metadata Server:
SAS Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Retail Intelligence Architecture OLAP Server
The following products are included in SAS Retail Intelligence Architecture OLAP Server. Unless explicitly licensed, use of this software is limited to SAS Retail Intelligence Architecture OLAP Server.

- Base SAS software
- SAS Integration Technologies
- SAS OLAP Server

Disk Space Required for SAS Retail Intelligence Architecture OLAP Server:
The disk space required for SAS Retail Intelligence Architecture OLAP Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Retail Intelligence Architecture OLAP Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Risk Dimensions

SAS Risk Dimensions Analyst Edition
The following products are included in SAS Risk Dimensions Analyst Edition. Unless explicitly licensed, use of this software is limited to SAS Risk Dimensions Analyst Edition.

- SAS Risk Dimensions Analyst Edition
- Base SAS Software
- Risk Dimensions installation code
- SAS/ACCESS to ODBC software
- SAS/ACCESS to PC File Formats software
- SAS/AF software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/IML software
- SAS/INSIGHT software
- SAS/OR software
- SAS/STAT software

Disk Space Required for SAS Risk Dimensions Analyst Edition:
SAS Risk Dimensions Analyst Edition is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
**Note:** If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Risk Dimensions Analyst Edition should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Risk Dimensions Enterprise Server**

The following products are included in SAS Risk Dimensions Enterprise Server. Unless explicitly licensed, use of this software is limited to SAS Risk Dimensions Enterprise Server.

- Base SAS Software
- SAS/ACCESS Engine of choice
- a second SAS/ACCESS Engine of choice
- Risk Dimensions installation code
- SAS/ACCESS to ODBC software
- SAS/ACCESS to PC File Formats software
- SAS/AF software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/IML software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS/IntrNet software
- SAS OLAP Server software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software

**Disk Space Required for SAS Risk Dimensions Enterprise Server:**

SAS Risk Dimensions Enterprise Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Risk Dimensions Enterprise Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Risk Dimensions SAS Client

The following products are included in SAS Risk Dimensions SAS Client. Unless explicitly licensed, use of this software is limited to SAS Risk Dimensions SAS Client.

- Base SAS Software
- SAS/ACCESS Engine of choice
- a second SAS/ACCESS Engine of choice
- Risk Dimensions installation code
- SAS/ACCESS to ODBC software
- SAS/ACCESS to PC File Formats software
- SAS/AF software
- SAS/CONNECT software
- SAS/EIS software
- SAS/ETS software
- SAS/FSP software
- SAS/GRAPH software
- SAS/IML software
- SAS/INSIGHT software
- SAS Integration Technologies software
- SAS/IntrNet software
- SAS OLAP Server software
- SAS/OR software
- SAS/SHARE software
- SAS/STAT software
- SAS/SHARE software

Disk Space Required for SAS Risk Dimensions SAS Client:

SAS Risk Dimensions SAS Client is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Risk Dimensions SAS Client should be decreased by the disk space of any of the above products that have been previously installed.

SAS Risk Dimensions Server Metadata Server

Products Required for SAS Risk Dimensions Server Metadata Server:

- SAS Metadata Server software
- Base SAS software

Disk Space Required for SAS Risk Dimensions Server Metadata Server:

SAS Risk Dimensions Server Metadata Server is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Risk Dimensions Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.
**SAS/SECURE Software**

**Products Required:**
- Base SAS software
- one or more of the following software products:
  - SAS/CONNECT
  - SAS Integration Technologies
  - SAS/SHARE

SAS/SECURE software supports CryptoAPI from Microsoft in order to access the cryptographic services that are provided with Windows. CryptoAPI is an application programming interface that is installed as part of the Windows operating system installation. Therefore, no additional installation is required to use SAS/SECURE on Windows.

**SAS/SHARE Software**

**Product Required:** Base SAS software

SAS/SHARE software uses the TCP/IP access method and supports Microsoft’s TCP/IP System Driver, which is provided with Windows.

*Note:* The APPC access method is no longer supported for Windows.

**SAS Size Profiling**

**SAS Size Profiling Server**

**Products Included in SAS Size Profiling Server:**
- Base SAS software
- SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Enterprise Miner Server
- SAS/ETS software
- SAS/GRAPH software
- SAS High-Performance Forecasting software
- SAS/IML software
- SAS Integration Technologies software
- SAS IntrNet software
- SAS Merchandise Intelligence Server software
- SAS/OR software
- SAS/SHARE software
- SAS Size Profiling Server software
- SAS/STAT software

**Disk Space Required for SAS Size Profiling Server:**

The disk space required for SAS Size Profiling Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Size Profiling Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Size Profiling Metadata Server

Products Included in SAS Size Profiling Metadata Server:
- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

Disk Space Required for SAS Size Profiling Metadata Server:
The disk space required for SAS Size Profiling Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Size Profiling Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Sourcing Data Quality Software

SAS Sourcing Data Quality Server
The following products are included in SAS Sourcing Data Quality Server. Unless explicitly licensed, use of this software is limited to SAS Sourcing Data Quality Server.
- SAS Sourcing Data Quality Software
- Base SAS software
- Quality Knowledge Base locale of choice
- SAS/ACCESS engine of choice
- A second SAS/ACCESS engine of choice
- SAS/ACCESS Interface to PC Files
- SAS/CONNECT
- SAS Data Quality Server
- SAS/ETS
- SAS/GRAPH software
- SAS Integration Technologies
- SAS/QC
- SAS/SHARE
- SAS/STAT

Disk Space Required for SAS Sourcing Data Quality Server:
SAS Sourcing Data Quality Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Sourcing Data Quality Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Sourcing Data Quality Server Metadata Server

The following products are included in SAS Sourcing Data Quality Server Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Sourcing Data Quality Server Metadata Server.

- Base SAS software
- SAS Metadata Server

Disk Space Required for SAS Sourcing Data Quality Server Metadata Server:

SAS Sourcing Data Quality Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Sourcing Data Quality Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Sourcing Strategy Software

Products Required:

- Base SAS software
- SAS Spend Analysis software

Disk Space Required for SAS Sourcing Strategy Server:

SAS Sourcing Strategy Server is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Sourcing Strategy Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS/SPECTRAVIEW Software

Product Required: Base SAS software

SAS/SPECTRAVIEW software, an interactive data visualization and modeling tool, allows a user to create, analyze, and modify geometric images representing multidimensional data. It is possible to visually explore both surface and interior views of the data to identify and analyze trends and relationships represented by the data.

Hardware:

- Minimum screen resolution - 800x600
- Minimum of 256 colors

SAS Space Optimizer Software

The following products are included in SAS Space Optimizer SAS Server. Unless explicitly licensed, use of this software is limited to SAS Space Optimizer SAS Server.

- Base SAS software
- SAS/GRAPH software
- SAS/OR software

Disk Space Required for SAS Space Optimizer SAS Server:

SAS Space Optimizer SAS Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Space Optimizer SAS Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Space Planning Software**

The following products are included in SAS Space Planning SAS Server. Unless explicitly licensed, use of this software is limited to SAS Space Planning SAS Server.

- Base SAS software
- SAS/GRAPH software

**Disk Space Required for SAS Space Planning SAS Server:**

SAS Space Planning SAS Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Space Planning SAS Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Spend Analysis Software**

**SAS Spend Analysis Server**

The following products are included in SAS Spend Analysis Server. Unless explicitly licensed, use of this software is limited to SAS Spend Analysis Server.

- SAS Spend Analysis Server
- Base SAS Software
- SAS/ACCESS Engine of choice
- SAS/ACCESS Interface to MySQL
- SAS/ACCESS Interface to PC Files software
- SAS/AF software
- SAS/CONNECT software
- SAS/ETS software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/IntrNet software
- SAS OLAP Server software
- SAS/OR software
- SAS/QC software
- SAS/SHARE software
- SAS/STAT software
- SAS Spend Analysis Server software

**Disk Space Required for SAS Spend Analysis Server:**

SAS Spend Analysis Server is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Spend Analysis Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Spend Analysis Server Metadata Server

**Products Required for SAS Spend Analysis Server Metadata Server:** Base SAS software is required, which includes SAS Server Metadata Server software.

**Disk Space Required for SAS Spend Analysis Server Metadata Server:**
SAS Spend Analysis Server Metadata Server is the combined total space requirements for the SAS software products listed above. Please see the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation already installed, then the amount of disk space required to install SAS Spend Analysis Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS StoreCAD Plus Software

SAS StoreCAD Plus software requires SAS Space Planning.

SAS StoreCAD Plus software is included in SAS StoreCAD Plus. Unless explicitly licensed, use of this software is limited to SAS StoreCAD Plus.

**Disk Space Required for SAS StoreCAD Plus:**
SAS StoreCAD Plus is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS StoreCAD Plus should be decreased by the disk space of any of the above products that have been previously installed.

SAS Strategic Performance Management Software

**SAS Strategic Performance Management Server**

The following products are included in SAS Strategic Performance Management Server. Unless explicitly licensed, use of this software is limited to SAS Strategic Performance Management Server.

- SAS Strategic Performance Management
- Base SAS Software
- SAS/ACCESS Engine of choice
- SAS/ACCESS Interface to MySQL
- SAS/ACCESS Interface to PC Files
- SAS/CONNECT
- SAS/GRAPH
- SAS Integration Technologies
- SAS/SHARE

**Disk Space Required for SAS Strategic Performance Management Server:**
SAS Strategic Performance Management Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

*Note:* If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Strategic Performance Management Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Strategic Performance Management Metadata Server

The following products are included in SAS Strategic Performance Management Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Strategic Performance Management Metadata Server.

- Base SAS software
- SAS/CONNECT
- SAS Metadata Server

Disk Space Required for SAS Strategic Performance Management Metadata Server:

SAS Strategic Performance Management Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Strategic Performance Management Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Telecommunications Intelligence Architecture Software

SAS Telecommunications Intelligence Architecture Data Integration Server

The following products are included in SAS Telecommunications Intelligence Architecture Data Integration Server. Unless explicitly licensed, use of this software is limited to SAS Telecommunications Intelligence Architecture Data Integration Server.

- Base SAS software
- SAS/ACCESS engine of choice
- a second SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS Integration Technologies software

Disk Space Required for SAS Telecommunications Intelligence Architecture Data Integration Server:

The disk space required for SAS Telecommunications Intelligence Architecture Data Integration Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Telecommunications Intelligence Architecture Data Integration Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Telecommunications Intelligence Architecture EBI Server

The following products are included in SAS Telecommunications Intelligence Architecture EBI Server. Unless explicitly licensed, use of this software is limited to SAS Telecommunications Intelligence Architecture EBI Server.

- Base SAS software
- SAS Integration Technologies software
- SAS OLAP Server software
- SAS/STAT software
Disk Space Required for SAS Telecommunications Intelligence Architecture EBI Server:
The disk space required for SAS Telecommunications Intelligence Architecture EBI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Telecommunications Intelligence Architecture EBI Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Telecommunications Intelligence Architecture Metadata Server
The following products are included in SAS Telecommunications Intelligence Architecture Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Telecommunications Intelligence Architecture Metadata Server.
- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software

Disk Space Required for SAS Metadata Server:
SAS Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Telecommunications Intelligence Architecture OLAP Server
The following products are included in SAS Telecommunications Intelligence Architecture OLAP Server. Unless explicitly licensed, use of this software is limited to SAS Telecommunications Intelligence Architecture OLAP Server.
- Base SAS software
- SAS Integration Technologies
- SAS OLAP Server

Disk Space Required for SAS Telecommunications Intelligence Architecture OLAP Server:
The disk space required for SAS Telecommunications Intelligence Architecture OLAP Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Telecommunications Intelligence Architecture OLAP Server should be decreased by the disk space of any of the above products that have been previously installed.
**SAS Text Miner**

SAS Enterprise Miner is a prerequisite for SAS Text Miner Server and SAS Text Miner SAS Client.

**SAS Text Miner Server**

The following products are included in SAS Text Miner Server. Unless explicitly licensed, use of this software is limited to SAS Text Miner Server.

- SAS Text Miner for English software
- SAS Text Miner language of choice (if requested)

**Disk Space Required for SAS Text Miner Server:**

The disk space required for the SAS Text Miner Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install the SAS Text Miner Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Text Miner SAS Client**

The following products are included in SAS Text Miner SAS Client software. Unless explicitly licensed, use of this software is limited to SAS Text Miner SAS Client.

- SAS Text Miner for English software
- SAS Text Miner language of choice (if requested)

**Disk Space Required for SAS Text Miner Client:**

The disk space required for the SAS Text Miner SAS Client is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install the SAS Text Miner SAS Client should be decreased by the disk space of any of the above products that have been previously installed.

**SAS/TOOLKIT Software**

**Products Required:**

- Base SAS software
- A compiler

The only language with a Production status for SAS/TOOLKIT software is C. Other languages have a Beta status.
**SAS Value Chain Analytics Software**

**SAS Value Chain Analytics Enterprise Server**

The following products are included in SAS Value Chain Analytics Enterprise Server. Unless explicitly licensed, use of this software is limited to SAS Value Chain Analytics Enterprise Server.

- SAS Value Chain Analytics Enterprise Server
- Base SAS software
- SAS/ACCESS engine of choice
- SAS/CONNECT
- SAS/GRAPH
- SAS Integration Technologies

**Disk Space Required for SAS Value Chain Analytics Enterprise Server:**

SAS Value Chain Analytics Enterprise Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Value Chain Analytics Enterprise Server should be decreased by the disk space of any of the above products that have been previously installed.

**SAS Value Chain Analytics Business Server**

The following products are included in SAS Value Chain Analytics Business Server. Unless explicitly licensed, use of this software is limited to SAS Value Chain Analytics Business Server.

- SAS Value Chain Analytics Business Server
- Base SAS software
- SAS/CONNECT
- SAS/GRAPH
- SAS Integration Technologies

**Disk Space Required for SAS Value Chain Analytics Business Server:**

SAS Value Chain Analytics Business Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**Note:** If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Value Chain Analytics Business Server should be decreased by the disk space of any of the above products that have been previously installed.
SAS Value Chain Analytics ETL and BI Server
The following products are included in SAS Value Chain Analytics ETL and BI Server. Unless explicitly licensed, use of this software is limited to SAS Value Chain Analytics ETL and BI Server.

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/ACCESS Interface to PC Files
- SAS/AF
- SAS/CONNECT
- SAS/GRAPH
- SAS Integration Technologies
- SAS OLAP Server

Disk Space Required for SAS Value Chain Analytics ETL and BI Server:
SAS Value Chain Analytics ETL and BI Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Value Chain Analytics ETL and BI Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Value Chain Analytics Server Metadata Server
The following products are included in SAS Value Chain Analytics Server Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Value Chain Analytics Server Metadata Server.

- Base SAS software
- SAS Metadata Server

Disk Space Required for SAS Value Chain Analytics Server Metadata Server:
SAS Value Chain Analytics Server Metadata Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Value Chain Analytics Server Metadata Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Visual Data Discovery Software

SAS Visual Data Discovery Server
The following products are included in SAS Visual Data Discovery Server. Unless explicitly licensed, use of this software is limited to SAS Visual Data Discovery Server.

- Base SAS software
- SAS/ACCESS engine of choice
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/STAT software
Disk Space Required for SAS IT Visual Data Discovery Server:
The disk space required for the SAS Visual Data Discovery Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 installed already, then the amount of disk space required to install SAS Visual Data Discovery Server should be decreased by the disk space of any of the above products that have been previously installed.

SAS Visual Data Discovery Metadata Server
Base SAS software is included in SAS Visual Data Discovery Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Visual Data Discovery Metadata Server.

SAS Visual Data Discovery for Desktop Software
The following products are included in SAS Visual Data Discovery for Desktop. Unless explicitly licensed, use of this software is limited to SAS Visual Data Discovery Server for Desktop.

- Base SAS software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/STAT software

Disk Space Required for SAS IT Visual Data Discovery for Desktop:
The disk space required for the SAS Visual Data Discovery Server for Desktop is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 installed already, then the amount of disk space required to install SAS Visual Data Discovery Server for Desktop should be decreased by the disk space of any of the above products that have been previously installed.

SAS/Warehouse Administrator Software
Products Required for Build Mode:
- Base SAS software
- SAS/AF software (required only for API usage)

Products Required for Run Mode:
- Base SAS software
- Other products depending on application (for example, SAS/ACCESS software for access to DBMS tables, SAS/CONNECT software for access to remote data, or SAS/AF software to access warehouse via method calls)

Memory: 64 MB recommended
CPU: 200 MHz Pentium Processor or higher recommended
Monitors Supported:
- VGA
- SVGA
- XGA
Printers:

- For printing graphics-based objects, a color or gray scale printer is required.
- Certain non-graphic objects may require SAS/GRAPH software to print depending on the object.

**SAS Warranty Analysis Software**

**SAS Warranty Analysis Server**

The following products are included in SAS Warranty Analysis Server. Unless explicitly licensed, use of this software is limited to SAS Warranty Analysis Server.

- SAS Warranty Analysis Server software
- Base SAS software
- SAS/ACCESS engine of choice
- SAS/ACCESS engine of choice
- SAS/ACCESS engine of choice
- SAS/CONNECT software
- SAS/GRAPH software
- SAS Integration Technologies software
- SAS/QC software
- SAS/SHARE software
- SAS/STAT software

**Disk Space Required:**

The disk space required for the SAS Warranty Analysis Server package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

**SAS Warranty Analysis Metadata Server**

The following products are included in SAS Warranty Analysis Metadata Server. Unless explicitly licensed, use of this software is limited to SAS Warranty Analysis Server.

- Base SAS software
- SAS/CONNECT software
- SAS Integration Technologies software
- SAS Metadata Server software

**Disk Space Required:**

The disk space required for the SAS Warranty Analysis Metadata Server package is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.
SAS Web Analytics Software

The following products are included in SAS Web Analytics Server software. Unless explicitly licensed, use of this software is limited to SAS Web Analytics Server.

- SAS Web Analytics Server
- Base SAS software
- SAS/AF
- SAS/CONNECT
- SAS/ETS
- SAS/FSP
- SAS/GRAPH
- SAS High-Performance Forecasting
- SAS Integration Technologies
- SAS OLAP Server
- SAS/STAT
- SAS Enterprise Miner Server
- SAS e-Data ETL
- SAS Web Analytics

Disk Space Required for SAS Web Analytics Server:

SAS Web Analytics Server is the combined total space requirements for the SAS software products listed above. See the Space Requirements table on page 9 for more information.

Note: If you have SAS 9.1.3 Foundation installed already, then the amount of disk space required to install SAS Web Analytics Server should be decreased by the disk space of any of the above products that have been previously installed.
Graphics Hardware and Software Compatibility

Printers

SAS/GRAPH software supports any graphics printer that has a Microsoft Windows device driver available. This support is provided via the WINPRTM (for monochrome printers), WINPRTG (for printers that support gray-scale shading), and WINPRTC (for color printers) device drivers.

As an alternative to the WINPRTx series of drivers, SAS/GRAPH native device drivers are available for all Hewlett-Packard printers (and compatibles), and printers that support PostScript, HP-GL, HP PCL, and other printer languages.

Here is a partial list of printers that SAS/GRAPH software supports with native device drivers:

- CalComp ColorMaster, ColorMaster Plus, PlotMaster
- Canon Bubble Jet, Laser Shot
- Digital printers which support either SIXEL, HP PCL, Tektronix, or PostScript emulation modes
- Epson FX and LQ series printers (and all printers running in Epson emulation mode)
- Hewlett-Packard LaserJet, DeskJet, PaintJet, and DesignJet printers (and compatibles)
- IBM Graphics, Proprinter, and ColorJet printers
- PostScript printers (including color and gray-scale PostScript printers)
- QMS Colorgrafix with CGM interpreter
- QMS 800, 1200, 1500, 2200, and 2400 using QUIC or Tektronix emulation modes
- Talaris 800, 802, 1200, 1500, and 2400 using QUIC or Tektronix emulation modes
- Talaris printers using the EXCL language
- Tektronix Phaser printers (all models)
- Tektronix 4693 printers with Tektronix 4510 rasterizer
- Xerox 2700 and 4045 printers with a GRAPHX cartridge
- Xerox 3700 (with imaging board and at least 1M of memory)
- Xerox 4030 (contact Technical Support), 4213, 4235, and 4700
- Xerox 4700 printer
- Xerox 5775 color copier with an EFI Fiery attachment

Native drivers may also be available for additional printers not listed above and that do not support PostScript, HP-GL, or HP PCL. Contact SAS Technical Support for additional information on these drivers.

Plotters

SAS/GRAPH software supports any plotter that has a Microsoft Windows plotter driver available. This support is provided via the WINPLOT device driver.

As an alternative to the WINPLOT device driver, SAS/GRAPH software also provides native device drivers for all HP plotters supporting HP-GL or HP-GL/2, and plotters from other manufacturers that support the HP-GL or HP-GL/2 language. SAS/GRAPH software also supports Houston Instruments plotters using the DMPL language and ZETA plotters that support the GML language.
Film Recorders

SAS/GRAPH supports any film recorder that has a Microsoft Windows driver available. This support is provided via the WINPRTC device driver. As an alternative to the WINPRTC device driver, SAS/GRAPH software also provides native device drivers that support the following film recorders:

- Genigraphics Masterpiece Camera System with SCODL interface
- Lasergraphics MPS 2000 film recorder with a Lasergraphics UI-100 or RASCOL rasterizer
- Matrix QCR and PCR cameras with Matrix QVP, MVP, or Lasergraphics rasterizers
- Polaroid Palette CI-3000 and CI-5000
- Presentation Technologies Montage film recorder

Support may be available for other film recorders not listed here. Contact SAS Technical Support for details.

Interfaces to Other Graphics Software

Included with SAS/GRAPH software is a series of drivers that can produce Computer Graphics Metafiles (CGM) in binary, character, and clear-text formats. These drivers can be used to transfer SAS/GRAPH output to other products that support CGM input, such as Word for Windows, WordPerfect for Windows, Harvard Graphics, and Lotus Freelance, or to devices that can process CGM input.

SAS/GRAPH software can also generate encapsulated PostScript vector files, which can be exported to word processing packages such as Microsoft Word, WordPerfect, and several others.

SAS/GRAPH software can also generate Windows metafiles that can be exported to numerous packages including Microsoft Office, Lotus Smart Suite, and Perfect Office. Contact SAS Technical Support for details.

Many other graphics and word processing applications can process files in Hewlett-Packard (HP-GL) format. The HPGL driver can be used to produce files that can be transferred to most applications that can process HP-GL files. In addition, there are drivers for PDF, PBM, PPM, GIF, JPEG, EMF, WMF, PNG, TIFF, EPSI, and PaintBrush image formats. To view a complete list of all SAS/GRAPH device drivers, submit the following SAS program:

```sas
proc gdevice c=sashelp.devices nofs;
   list _all_;
run; quit;
```

SAS/GRAPH software can also export graphics in the following formats:

- BMP - Microsoft Windows Bitmap
- DIB - Device Independent Bitmap
- EMF - Microsoft NT Enhanced Metafile
- EPSI - Encapsulated PostScript Interchange
- GIF - Graphics Interchange Format
- JPG – JPEG Files
- PBM - Portable Bitmap
- PNG - Portable Network Graphics
- PS - PostScript Bitmap
- TIF - Tagged Image File Format
- WMF - Microsoft Windows Metafile Format
In addition, SAS/GRAPH software can import graphics in the following formats:

- BMP - Microsoft Windows Bitmap
- DIB - Device Independent Bitmap
- EMF - Microsoft NT Enhanced Metafile
- EPSI - Encapsulated PostScript Interchange
- GIF - Graphics Interchange Format
- JPG – JPEG Files
- PBM - Portable Bitmap
- PCD - PHOTO CD
- PCX - PC PaintBrush
- PNG - Portable Network Graphics
- TGA - TARGA Format
- TIF - Tagged Image File Format
- WMF - Microsoft Windows Metafile Format
- XBM - X Window Bitmaps
- XWD - X Window Dump

**Viewing HTML Pages Created with the ActiveX and Java Device Drivers**

The ActiveX and Java device drivers allow you to create HTML pages from within SAS 9.1.3 Foundation.

Refer to the “SAS/GRAPH Software” section on page 56 for a list of browsers with which you can view HTML pages on this operating environment.

To view the Java applets, the Java plug-in must be installed on each client machine. On Windows systems, the user can install the plug-in when prompted if it is not already installed. On other systems, the plug-in can be installed from one of the **Third Party Software Components** CDs. Follow the instructions included with the Java and web browser installation for your system to enable the Java plug-in.
SAS is the world leader in providing software and services that enable customers to transform data from all areas of their business into intelligence. SAS solutions help organizations make better, more informed decisions and maximize customer, supplier, and organizational relationships. For more than 30 years, SAS has been giving customers around the world The Power to Know®. Visit us at www.sas.com.
