

License Information

Expires 31 December 2016

Xythos WebFile Server 4.2

This version of Xythos WebFile Server, a full-featured WebDAV server, is provided as part of an OEM agreement between SAS Institute Inc. and Xythos Software, Inc. Xythos WFS is a licensed application and this document provides a valid installation license for this product.

Note: *If you are looking for a license key for Xythos WebFile Server 4.0, contact SAS Technical Support.*

The license is required to be valid at installation time. The license does not have to be valid after the software is installed. This document provides an initial license, valid until the expiration date in the upper right corner. If you need to install the software after this period expires, please contact SAS Technical Support as described below for a new license or go to <http://support.sas.com/documentation/installcenter/xythoswebdav/1.0/license.pdf> for the latest version of this document and license key.

License

OEM-SAS INSTITUTE-1D2ADB37B384B8644F7C35684C3C49F3-100-2016/12/31

The Xythos WebFile Server is available on the CD labeled **Xythos WebFile Server** and may be installed through the SAS Software Navigator at the appropriate time. The installation process will prompt for the valid installation license.

We encourage you to install your new SAS software immediately. As part of the OEM license between SAS and Xythos, all licensing, installation, and technical questions should be addressed to SAS rather than Xythos. If you need assistance with the software, we ask that only the SAS Installation Representative or the SAS Support Consultant call our Technical Support Division. Sites in the U.S. and Canada may call (919) 677-8008, Monday through Friday. Other sites should contact their SAS Installation Representative or SAS Support Consultant for the nearest SAS office.

Before you call, you may want to explore the SAS Technical Support website, <http://support.sas.com/techsup/intro.html>, which provides a mechanism for reporting problems. SAS also maintains several other electronic services for tracking problems and questions for Technical Support. These electronic services are available 24 hours a day.
