

README

SAS/GRAPH® and Base SAS® 9.4: Mapping Reference Mapping Examples

Overview

This ZIP file contains SAS code samples that enable you to create maps as seen in *SAS/GRAPH® and Base SAS® 9.4: Mapping Reference*. The samples are arranged by procedure. A subfolder is provided for each procedure in which the samples for that procedure are stored. Where applicable, within each procedure folder, the sample programs are arranged by the mapping data they use: GfK mapping data or traditional mapping data. All the sample programs in the procedure subfolders are applicable to SAS 9.4M8 and later releases. ZIP files are also provided for releases SAS 9.4M5 through SAS 9.4M7, inclusive. The sample programs in these ZIP files replace the sample programs in the procedure subfolders for the applicable SAS release.

For sample programs for SAS 9.4M4 and prior releases, refer to the sample programs in the SAS windowing environment SAS Help and Documentation under Learning to Use SAS.

Prerequisite

A SAS® SAS/GRAPH® license is required to run some of the samples.

Unpacking the SAS/GRAPH® and Base SAS® 9.4 Mapping Examples

1. Extract file SASGraphMappingSamples.zip to a location on your file system.
2. If you are using SAS 9.4M8 or a later release, use the sample program files in the procedure subfolders. If you are using SAS 9.4M7, SAS Viya 3.5, SAS 9.4M6, or SAS 9.4M5, extract the sample program files in the applicable ZIP file and use those program files instead.
