

SAS® OnDemand for Academics: SAS Studio

Registration Instructions

Overview

To register for SAS OnDemand for Academics, you must complete the following:

- Choose a home region
- Create a SAS Profile
- Verify the SAS Profile
- Register for SAS OnDemand for Academics with SAS Profile credentials

Once you have completed SAS OnDemand for Academics registration, you can access SAS Studio.

Register for SAS OnDemand for Academics

When you go to sign in to SAS OnDemand for Academics, you are presented with a screen with options. It is important that you understand these options as they affect how you interact with SAS OnDemand for Academics.

1. Go to <https://welcome.oda.sas.com>.

The Welcome to SAS® OnDemand for Academics page is displayed.

The SAS OnDemand for Academics welcome page has its own Help section to aid you. You can open multiple help sections at the same time.

The screenshot shows a web browser window with the URL welcome.oda.sas.com. The page features the SAS logo and the tagline "THE POWER TO KNOW." Below this, a blue banner reads "Welcome to SAS® OnDemand for Academics". A yellow banner below it states: "Guest access to non-home regions is available to select users until Summer 2020. See the help entry below for more details." The main heading is "Select your home region and click the desired action below to get started." Below this is a white drop-down menu. Two orange buttons are displayed: "SIGN IN" with a login icon and "REGISTER OR CHECK ACCOUNT" with a person icon. A "Help" section follows, containing eight blue buttons with the following text: "What are regions?", "How do I check whether I already have a registration and home region?", "How do I select my home region when registering?", "Which region is the best home for me?", "Can I use a region other than my home region?", "What is guest access?", "Can I skip this page by just bookmarking the regional pages?", and "Where can I find additional help?". At the bottom, a footer contains links for "Contact Us", "Server Status", "Terms of Use & Legal Information", "Privacy Statement", and "www.sas.com", along with the copyright notice "Copyright © 2019 SAS Institute Inc. All Rights Reserved."

2. You must first select your home region from the drop-down menu.

- The Help section named **Which region is the best home for me?** contains embedded tools to aid you in determining the best region for you.

Which region is the best home for me?

How the regions compare will depend on your individual goals, and may be determined partly by outside considerations like which classes you plan to take. However, in most cases, the site performance from your typical usage location will indicate the best choice. Below, you can perform a simple test to estimate that performance. If you are currently not at your typical usage location and are unsure which region to choose, we recommend waiting to register if possible until you can perform this test. If you intend to use multiple locations with different networks, such as both a home and a lab environment, then you may also wish to test each location separately to ensure the results are consistent. Finally, as performance will largely depend on the network performance between the locations, you should also consider testing multiple times and at different times of the day. Networks can experience brief periods of poor performance, which might produce misleading results from the test.

If you do not wish to test performance, we can alternatively suggest a region based on your expected usage location. This suggestion is similarly based on the expected performance between the regions and your reported location, but will of course be less reliable since no direct testing is involved. To request this suggestion, simply identify the country where the usage will occur below. If you are currently at your typical location, you can just submit the form with the default selection and your location will be detected automatically.

Regardless of how you decide on your home location, try to avoid registering until you are confident of your choice. Accounts and content cannot be moved between regions after registering, so it is important to make the right choice for you.

Compare Performance

Region	Performance

Please activate your SAS Profile

Today at 9:16 AM

Dear ODA User,

Thank you for creating a SAS Profile. Please verify your email address and activate your profile by clicking on the following link:

[Activate your SAS Profile.](#)

Once you've activated your profile, you can access free training, SAS communities, technical support and more. If you have any questions or have not requested a SAS Profile, please email SASProfileHelp@sas.com.

SAS and all other SAS Institute Inc. product or service names are registered trademarks or trademarks of SAS Institute Inc. in the USA and other countries. ® indicates USA registration. © SAS Institute Inc. All rights reserved.

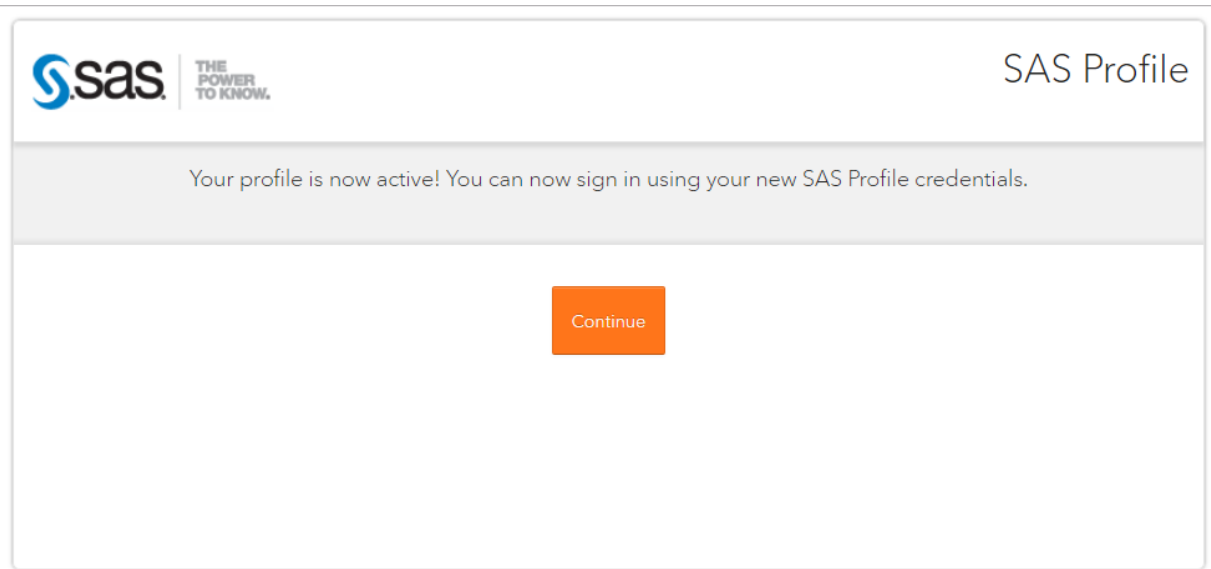

When you click the **Activate your SAS Profile** link, you are taken to a screen so that you can set your SAS Profile password.

The screenshot shows the SAS Profile setup page. At the top left is the SAS logo with the tagline 'THE POWER TO KNOW.'. At the top right is the text 'SAS Profile'. Below this is a grey header bar with the text 'Step 2 of 2: Please set your new password.'. The main content area has two input fields: 'Password (show)' and 'Confirm password'. Both fields are empty. Below the fields is a grey button labeled 'Set password'. At the bottom of the page are links for 'Privacy Statement | Terms of Use and Legal Information' and a copyright notice: 'Copyright © SAS Institute Inc. All rights reserved.'

9. When the password entries match, you can click **Set password**.

This screenshot shows the same SAS Profile setup page, but now the password fields are filled with dots and each has a green checkmark to its right. A blue callout box is positioned between the two fields, containing the text 'Your password must contain at least:' followed by five items, each with a green checkmark: '8 characters', '1 lowercase letter', '1 uppercase letter', '1 symbol', and '1 number'. Below this box is the text 'Do not use #, \, --, first name, last name, or part of your email address.' The 'Set password' button is now orange and is circled with a red oval. The rest of the page layout, including the SAS logo, header, and footer, remains the same.

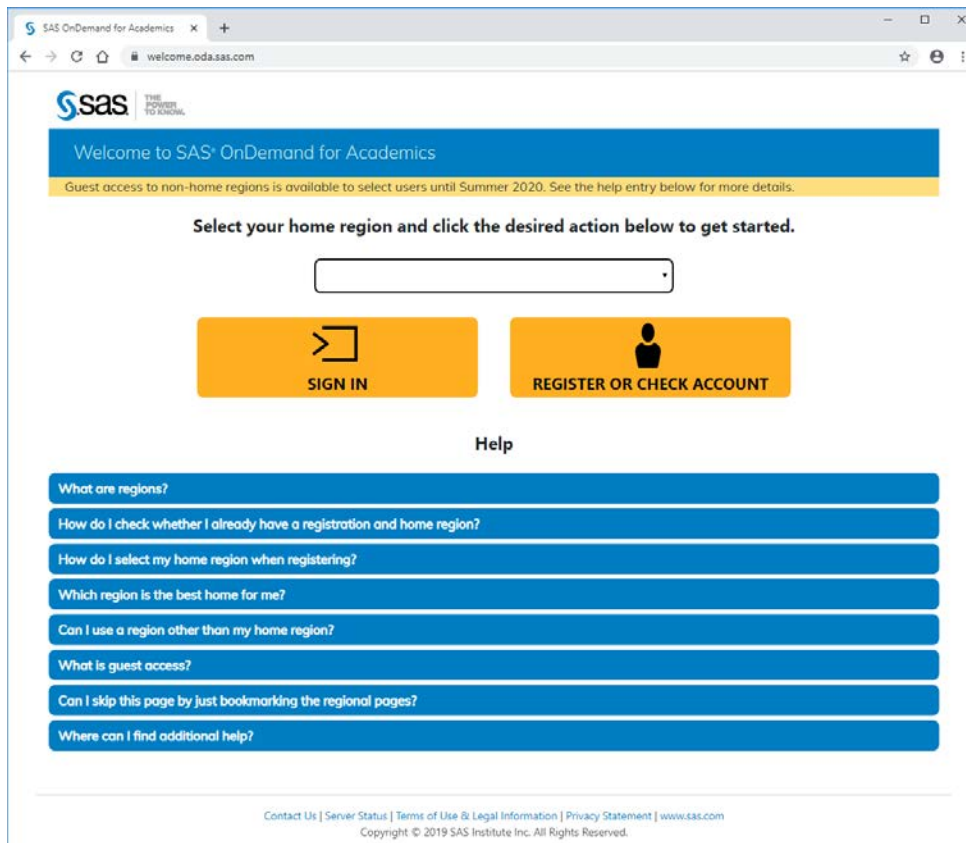

10. Your SAS Profile is now active. Click **Continue**.

Sample Instructor Dashboard

In the following figure, the **Applications** tab is selected.

The screenshot displays the SAS OnDemand for Academics Control Center - United States dashboard. The top navigation bar includes the SAS logo and the text "THE POWER TO KNOW." On the right, it says "SAS OnDemand for Academics" and "Control Center - United States". Below the navigation bar, the dashboard is divided into several sections. The "Current Events" section lists two events: "Resolving Login and Registration Issues" and "User registration impacted". The "Planned Events" section lists "System Maintenance Scheduled on Tuesday, September 10, 2019, 8:30-10:00am EDT". A red arrow points to the "Applications" tab, which is selected. The "Applications" section lists several SAS applications: SAS Studio, SAS Enterprise Guide, JMP access to SAS Servers, SAS Enterprise Miner, and SAS Forecast Studio. The "Reference" section on the right lists links to the Support Site, Step-by-Step Registration Guides, User's Guide, Commonly Asked Questions, and Status Page. The "Quotas" section shows the Home Directory (78.8MB/5120MB) and Course Directory (0.0MB/3072MB) usage. The "Notices" section lists two notices: "SAS OnDemand for Academics Maintenance Upgrade to SAS 8.4M6 Completed for All Regions" and "SAS Users Channel".
