New from Ron Cody: A Cookbook Approach for Doing Statistics with SAS®!

Structured specifically around the most commonly used statistical tasks or techniques, *SAS® Statistics by Example* provides an easy-to-follow, how-to approach to statistical analysis not found in other books. Major topics featured are correlation, inferential statistics, descriptive statistics, categorical data analysis, simple linear regression, comparing means, multiple regression, logistic regression, non-parametric tests, and power and sample size. *SAS® Statistics by Example* is perfect for intermediate to advanced statistical programmers who know their statistics and want to use SAS to do their analyses.

List Price: $ 34.95 **ISBN:** 978-1-60764-800-0
