In this pragmatic, example-driven book, Neil Constable demonstrates how you can use SAS® code to enhance the capabilities of SAS® Enterprise Guide®. Designed to help you gain extra value from the products you already have, ***SAS® Programming for Enterprise Guide® Users, Second Edition*** contains tips and techniques that show you a variety of features that cannot be accessed directly through the task interfaces. In all cases, techniques are shown with examples that you can try and test, plus additional exercises are included to give you more practice. The end result is more efficient and resilient use of SAS Enterprise Guide in a wider variety of business areas. No programming experience is necessary.

ISBN: 978-1-60764-528-3

Neil Constable is a Principal Education Consultant at SAS Institute in the United Kingdom. He applies his extensive knowledge of Base SAS, SAS Enterprise Guide, and the SAS business intelligence tools as an instructor for the programming curriculum and the business intelligence curriculum. A frequent presenter, Neil is an Associate Member of the Institute of IT Trainers.
