

# NEW FROM THE WILEY AND SAS® BUSINESS SERIES

“While business analytics sounds like a complex subject, this book provides a clear and non-intimidating overview of the topic. Following its advice will ensure that your organization knows the analytics it needs to succeed, and uses them in the service of key strategies and business processes. You too can go beyond reporting!”

**Thomas H. Davenport**

President’s Distinguished Professor of  
IT and Management, Babson College;  
coauthor, *Analytics at Work: Smarter  
Decisions, Better Results*

***Business Analytics for Managers: Taking Business Intelligence Beyond Reporting***

By Gert Laursen and Jesper Thorlund

Data warehousing. Source data. Business intelligence. You've heard the buzzwords before, but what is your business doing with these priceless mountains of data it generates?

Now you can discover how your company can take information created in the general course of business and put it to work to boost corporate performance. Taking a holistic rather than a technical approach, this innovative resource explores why business analytics (BA) should be important to you, whether you're in sales, marketing, management, finance, HR, production, analysis, or controlling.

List Price: \$ 49.95

ISBN: 978-0-470-89061-5

**Gert Laursen** is head of customer intelligence at Maersk Line, the largest containerized shipping company in the world. Prior to joining Maersk, he was a business intelligence (BI) consultant for several years. A SAS user since 2002, he received his master's degree in business administration from the Aarhus Business School in Denmark and an Executive MBA from Henley Management College. Gert has been a speaker on BI topics at Dansk IT, Oracle, and Miracle, among other organizations.

**Jesper Thorlund** is an independent business intelligence adviser and frequent speaker on business intelligence, business analytics, and microeconomics at business schools and universities. He has also worked for many years as a consultant to financial services and governmental companies. A SAS user since 1996, Jesper specializes in Base SAS, SAS IntraNet server, SAS Financial Management, and the SAS Intelligence Platform. He received his master's in economics from the University of Copenhagen in Denmark.
