List of Programs ix

Preface xiii

Acknowledgments xv

Chapter 1 Environment and Guiding Principles 1

The Statistical Programmer's Working Environment 2

Pharmaceutical Industry Vocabulary 2

Statistical Programmer Work Description 2

The Drug/Device Development Process 3

Industry Regulations and Standards 4

Your Clinical Trial Colleagues 8

Guiding Principles for the Statistical Programmer 10

Understand the Clinical Study 11

Program a Task Once and Reuse Your Code Everywhere 12

Clinical Trial Data Are Dirty 13

Use SAS Macros Judiciously 16

A Good Programmer Is a Good Student 18

Strive to Make Your Programming Readable 18

Chapter 2 Preparing and Classifying Clinical Trial Data 19

Preparing Clinical Trial Data 20

"Clean" the Data If They Are Needed for Analysis 20

Categorize Data If Necessary 21

Avoid Hardcoding Data 24

| | |
|---|-----------|
| Classifying Clinical Trial Data | 26 |
| Demographics and Trial-Specific Baseline Data | 27 |
| Concomitant or Prior Medication Data | 27 |
| Medical History Data | 29 |
| Investigational Therapy Drug Log | 30 |
| Laboratory Data | 31 |
| Adverse Event Data | 32 |
| Endpoint/Event Assessment Data | 35 |
| Clinical Endpoint Committee (CEC) Data | 36 |
| Study Termination Data | 37 |
| Treatment Randomization Data | 38 |
| Quality-of-Life Data | 40 |

Chapter 3 Importing Data 41

| | |
|--|-----------|
| Importing Relational Databases and Clinical Data Management Systems | 42 |
| SAS/ACCESS SQL Pass-Through Facility | 42 |
| SAS/ACCESS LIBNAME Statement | 43 |
| Importing ASCII Text | 44 |
| PROC IMPORT and the Import Wizard | 44 |
| SAS DATA Step | 52 |
| SAS Enterprise Guide | 53 |
| Importing Microsoft Office Files | 56 |
| LIBNAME Statement | 58 |
| Import Wizard and PROC IMPORT | 59 |
| SAS/ACCESS SQL Pass-Through Facility | 64 |
| SAS Enterprise Guide | 65 |
| Importing XML | 68 |
| XML LIBNAME Engine | 69 |
| SAS XML Mapper | 72 |
| PROC CDISC | 74 |
| Importing Files in Other Proprietary Data Formats | 79 |

Chapter 4 Transforming Data and Creating Analysis Data Sets 83

Key Concepts for Creating Analysis Data Sets 84

Defining Variables Once 84

Defining Study Populations 85

Defining Baseline Observations 85

Last Observation Carried Forward (LOCF) 86

Defining Study Day 89

Windowing Data 91

Transposing Data 94

Categorical Data and Why Zero and Missing Results Differ Greatly 102

Performing Many-to-Many Comparisons/Joins 106

Using Medical Dictionaries 108

Other Tricks and Traps in Data Manipulation 112

Common Analysis Data Sets 118

Critical Variables Data Set 118

Change-from-Baseline Data Set 118

Time-to-Event Data Set 121

Chapter 5 Creating Tables and Listings 125

Creating Tables 126

General Approach to Creating Tables 126

A Typical Clinical Trial Table 127

Using PROC TABULATE to Create Clinical Trial Tables 128

Using PROC REPORT to Create Clinical Trial Tables 132

Creating Continuous/Categorical Summary Tables 137

Creating Adverse Event Summaries 146

Creating Concomitant or Prior Medication Tables 162

Creating a Laboratory Shift Table 169

Creating Kaplan-Meier Survival Estimate Tables 176

Creating Listings 184

| | |
|---|------------|
| Output Appearance Options and Issues | 191 |
| Creating ASCII Text Output | 191 |
| Creating Rich Text Format (RTF) Output | 192 |
| Creating Portable Document Format (PDF) Files | 194 |
| “Page X of N” Pagination Solutions | 196 |
| Footnote Indicating SAS Program and Date | 197 |
| SAS Macro-Based Reporting Systems | 198 |

Chapter 6 Creating Clinical Trial Graphs 199

| | |
|---|------------|
| Common Clinical Trial Graphs | 200 |
| Scatter Plot | 200 |
| Line Plot | 201 |
| Bar Chart | 202 |
| Box Plot | 203 |
| Odds Ratio Plot | 203 |
| Kaplan-Meier Survival Estimates Plot | 204 |
| SAS Tools for Creating Clinical Trial Graphs | 205 |
| Common Clinical Trial SAS/GRAPH Procedures | 205 |
| Using the Annotate Facility for Graph Augmentation | 206 |
| Sample Graphs | 207 |
| Creating a Scatter Plot | 207 |
| Creating a Line Plot | 210 |
| Creating a Bar Chart | 214 |
| Creating a Box Plot | 218 |
| Creating an Odds Ratio Plot | 228 |
| Creating a Kaplan-Meier Survival Estimates Plot | 233 |
| Output Options | 240 |
| Selecting Graphics Drivers | 240 |
| Using ODS Destinations for SAS/GRAPH | 241 |

Using SAS/GRAPH Assistants 244

Graph-N-Go 245

SAS Enterprise Guide 245

ODS Graphics 245

When You Should Use SAS/GRAPH 246

Chapter 7 Performing Common Analyses and Obtaining Statistics 247

Obtaining Descriptive Statistics 248

Using PROC FREQ to Export Descriptive Statistics 248

Using PROC UNIVARIATE to Export Descriptive Statistics 249

Obtaining Inferential Statistics from Categorical Data Analysis 251

Performing a 2x2 Test for Association 251

Performing an NxP Test for Association 252

Performing a Stratified NxP Test for Association 253

Performing Logistic Regression 254

Obtaining Inferential Statistics from Continuous Data Analysis 255

Performing a One-Sample Test of the Mean 255

Performing a Two-Sample Test of the Means 257

Performing an N-Sample Test of the Means 258

Obtaining Time-to-Event Analysis Statistics 259

Obtaining Correlation Coefficients 260

General Approach to Obtaining Statistics 260

Chapter 8 Exporting Data 263

Exporting Data to the FDA 264

Using the SAS XPORT Transport Format 264

Creating XML Files 266

Exporting Data Not Destined for the FDA 276

Exporting Data with PROC CPORT 276

Exporting ASCII Text 276

Exporting Data to Microsoft Office Files 283
Exporting Other Proprietary Data Formats 287
Encryption and File Transport Options 288

Chapter 9 The Future of SAS Programming in Clinical Trials 289

Changes in the Business Environment 290
Changes in Technology 290
Changes in Regulations 291
Changes in Standards 291
Use of SAS Software in the Clinical Trial Industry 292

Chapter 10 Further Resources 293

Regulatory Resources 294
SAS Programming Validation 294
FDA Resources 295
Standards and Industry Organizations 296
SAS Help 296
SAS-L 296
SAS Technical Support 297
SAS Users Groups 297
SAS Manuals and Online Documentation 297
SAS Press 298
Community Pages at SAS 298
Third-Party SAS Web Pages 298
Useful Technical Skills 299
Scripting 299
Version Control Software 299
VBScript/JavaScript for Applications 299
Systems Development Life Cycle 299
Modeling Tools 300
Markup Languages 300

File Transport and Data Encryption Technologies **300**

Other Applications Development Languages **300**

Qualifying for and Obtaining a Job 301

Glossary 303

Index 321
