Foreword to the Second Edition	xi
Foreword to the First Edition	xiii
About This Book	xv
Acknowledgments	xxi
Part 1 The Basics	1
Chapter 1 Introduction	3
1.1 What Is Segmentation in the Context of CRM?	3
1.2 Types of Segmentation and Methods	5
1.2.1 Customer Profiling.....	5
1.2.2 Customer Likeness Clustering.....	8
1.2.3 RFM Cell Classification Grouping	8
1.2.4 Purchase Affinity Clustering	9
1.3 Typical Uses of Segmentation in Industry	9
1.4 Segmentation as a CRM Tool.....	11
1.5 References.....	14
Chapter 2 Why Segment? The Motivation for Segment-Based Descriptive Models	15
2.1 Mass Customization Instead of Mass Marketing.....	15
2.2 Specialized Promotions or Communications by Segment Groups	18
2.3 Profiling of Customers and Prospects	19
2.3.1 Example 2.1: The Data Assay Project	21
2.3.2 Example 2.2: Customer Profiling of the BUYTEST Data Set	32
2.3.3 Additional Exercise.....	38
2.4 References.....	38
Chapter 3 Distance: The Basic Measures of Similarity and Association	39
3.1 What Is Similar and What Is Not.....	39
3.2 Distance Metrics As a Measure of Similarity and Association	40
3.3 What Is Clustering? The <i>k</i> -Means Algorithm and Variations.	49
3.3.1 Variations of the <i>k</i> -Means Algorithm.....	50
3.3.2 The Agglomerative Algorithm	51
3.4 References.....	55

Part 2	Segmentation Galore	57
Chapter 4	Segmentation Using a Cell-Based Approach.....	59
4.1	Introduction to Cell-Based Segmentation.....	59
4.2	Segmentation Using Cell Groups—RFM.....	60
4.2.1	Other Cell Types for Segmentation	63
4.3	Example Development of RFM Cells.....	64
4.4	Tree-Based Segmentation Using RFM.....	70
4.5	Using RFM and CRM—Customer Distinction	75
4.6	Additional Exercise.....	76
4.7	References.....	77
4.8	Additional Reading	77
Chapter 5	Segmentation of Several Attributes with Clustering.....	79
5.1	Motivation for Clustering of Customer Attributes: Beginning CRM.....	79
5.2	How Can I Better Understand My Customer Base of Over 100,000?..	80
5.3	Using a Decision Tree to Create Cluster Segments.....	94
5.4	References.....	102
5.5	Additional Reading	102
Chapter 6	Clustering of Many Attributes.....	103
6.1	Closer to Reality of Customer Segmentation.....	103
6.2	Representing Many Attributes in Multi-dimensions.....	104
6.3	How Can I Better Understand My Customers of Many Attributes?..	108
6.4	Data Assay and Profiling	110
6.5	Understanding What the Cluster Segmentation Found	116
6.6	Planning for Customer Attentiveness with Each Segment	119
6.7	Creating Cluster Segments on Very Large Data Sets	119
6.8	Additional Exercise.....	122
6.9	References.....	122
Chapter 7	When and How to Update Cluster Segments	125
7.1	What Is the Shelf Life of a Model, and How Can It Affect Your Results?	125
7.2	How to Detect When Your Clustering Model Should Be Updated	126
7.3	Testing New Observations and Score Results.....	134
7.4	Other Practical Considerations	137
7.5	Additional Reading	138

Chapter 8	Using Segments in Predictive Models	139
8.1	The Basis of Breaking Up the Data Space.....	139
8.2	Predicting a Segment Level.....	141
8.3	Using the Segment Level Predictions for Customer Scoring	152
8.4	Creating Customer Value Segments	153
8.5	References.....	161
8.6	Additional Exercises	161
Part 3	Beyond Traditional Segmentation	163
Chapter 9	Clustering and the Issue of Missing Data	165
9.1	Missing Data and How It Can Affect Clustering.....	165
9.2	Analysis of Missing Data Patterns.....	166
9.3	Effects of Missing Data on Clustering.....	169
9.4	Methods of Missing Data Imputation	175
9.5	Obtaining Confidence Interval Estimates on Imputed Values	186
9.6	Using the SAS Enterprise Miner Imputation Node.....	188
9.7	References.....	188
Chapter 10	Product Affinity and Clustering of Product Affinities.....	191
10.1	Motivation of Estimating Product Affinity by Segment.....	191
10.2	Estimating Product Affinity Using Purchase Quantities.....	194
10.3	Combining Product Affinities by Cluster Segments.....	197
10.4	Pros and Cons of Segment Affinity Scores.....	202
10.5	Issues with Clustering Non-normal Quantities.....	203
10.6	Approximating a Graph-Theoretic Approach Using a Decision Tree.....	210
10.7	Using the Product Affinities for Cross-Sell Programs.....	217
10.8	Additional Exercises	219
10.9	References.....	220
Chapter 11	Computing Segments Using SOM/Kohonen for Clustering	221
11.1	When Ordinary Clustering Does Not Produce Desired Results.....	221
11.2	What Is a Self-Organizing Map?.....	222
11.3	Computing and Applying SOM Network Cluster Segments	224
11.4	Comparing Clustering with SOM Segmentation	231
11.5	Customer Distinction Analysis Example	235
11.6	Additional Exercises	240
11.7	References.....	240

Chapter 12 Segmentation of Textual Data	241
12.1 Background of Textual Data in the Context of CRM	241
12.2 Notes on Text Mining versus Natural Language Processing.....	243
12.3 Simple Text Mining Example.....	245
12.4 Text Document Clustering.....	250
12.5 Using Text Mining in CRM Applications.....	260
12.6 References.....	261
Part 4 Advanced Segmentation Applications	263
Chapter 13 Clustering of Product Associations	265
13.1 What Is Association Analysis and Its Uses in Business?.....	265
13.2 Market Basket Association Analysis	270
13.3 Revisiting Product Affinity Using Clustered Associations	274
13.4 The Business and Technical Side of Clustering Associations.....	282
13.5 References.....	282
Chapter 14 Predicting Attitudinal Segments from Survey Responses	283
14.1 Typical Market Research Surveys.....	283
14.2 Match-back of Survey Responses	284
14.3 Analysis of Survey Responses: An Overview.....	285
14.4 Developing a Predictive Segmentation Model from a Survey Analysis.....	286
14.5 Issues with Scoring a Predictive Segmentation on Customer or Prospect Data.....	294
14.6 Assessing the Confidence of Predicted Segments.....	295
14.7 Business Implications for Using Attitudinal Segmentation	304
14.8 References.....	305
Chapter 15 Combining Attitudinal and Behavioral Segments.....	307
15.1 Survey of Methods of Ensemble Segmentations.....	307
15.2 Two Methods for Combining Attitudinal and Behavioral Segments.....	310
15.3 Presenting the Business Case Simply from a Complex Analysis ..	327
15.4 References.....	330
15.5 Additional Exercise.....	330

Chapter 16 Segmentation of Customer Transactions	331
16.1 Measuring Transactions as a Time Series.	331
16.2 References.....	344
16.3 Additional Reading	344
16.4 Additional Exercise.....	344
 Index	 345
