About This Book.....	vii
Acknowledgments.....	xi
Chapter 1 Getting Started with JSL	1
Introduction	1
The Power of JMP and JSL.....	2
The Basics	4
The Script Window	9
The Log Window.....	13
Let JMP Write Your Script.....	17
Objects and Messages.....	21
Punctuation and Spacing	25
Rules for Naming Variables	27
Operators.....	29
Lists: A Bridge to Next Tier Scripting.....	32
Chapter 2 Reading and Saving Data	39
Introduction	39
Read Data into Data Tables	40
Set Column Formats.....	44
Create Data Tables.....	47
Close and Save Data Tables	50
Retrieve Data from a Database	53
Read Multiple Files in a Directory	56
Parse Messy Text Files	61
Parse XML Files.....	65

Chapter 3 Modifying and Combining Data Tables..... 69

Introduction..... 69
Manipulate Rows 70
Row States..... 72
Modify Column Information 76
Create and Delete Columns 79
Modify and Subset Portions of Tables 82
Restructure Tables 89
Join Tables..... 91
Reference and Apply Column Properties..... 95
Data Table Variables and Properties..... 99

Chapter 4 Essentials: Variables, Formats, and Expressions 103

Introduction..... 103
Create Variables..... 104
Scope Variables..... 107
Check for Values and Data Types 110
Use Formulas..... 113
Script Timing and Execution 117
Conditional Functions..... 120
Iterate..... 123
JMP Dates 127
Expressions 129

Chapter 5 Lists, Matrices, and Associative Arrays..... 135

Introduction 135
 Lists and Their Applications..... 136
 Information from Lists 138
 Manipulate Lists 141
 Matrix Structure in JSL..... 144
 Manipulate Matrices and Use Operations 147
 Matrix Examples..... 149
 Associative Arrays..... 152
 Associative Array Applications 155

Chapter 6 Reports and Saving Results 159

Introduction 159
 Create an Analysis..... 160
 The Report Layer..... 167
 Display Box Scripting 171
 Navigate a Report..... 175
 Extract Information from a Report 186
 Create Custom Reports..... 189
 Save Results..... 194

Chapter 7 Communicating with Users 197

Introduction 197
 Introduction to Dialog Boxes 198
 Messages and Dialog Boxes..... 202
 Column Dialog Boxes..... 205
 Dialog Boxes Using the New Window Function 209
 Retrieve User Input..... 212
 Interactive Displays 217
 Design a Dialog Box..... 220
 Deploy User Input..... 226

Chapter 8 Custom Displays.....	231
Introduction.....	231
Build a Custom Multivariable Display	232
Add Scripts to Graphs	240
More Graph Customizations.....	243
Interactive Graphs	246
Chapter 9 Writing Flexible Code	251
Introduction.....	251
Code for the Task	252
Capture Errors	255
Use Namespaces.....	257
Deploy JMP Scripts	260
JSL Functions	263
Parse Strings and Expressions	265
Pattern Matching and Regular Expressions.....	268
Use Expressions and Text as Macros.....	270
Functions: Pass By Reference Versus Value	273
Call SAS and R from JSL.....	276
Call Other Programs from JSL.....	279
Chapter 10 Helpful Tips	283
Introduction.....	283
Lay Out Your Code	283
Learn from Your Mistakes	286
Debug Your Scripts	291
Performance	294
Index.....	299
