

Paper 164-2009

Keynote Presentation, Digital Medicine: The Future of Information Technology in Healthcare

Jeff Goldsmith, Health Futures Inc.

ABSTRACT

How will modern information technology alter the role of the major actors in healthcare: consumers, health plans, hospitals, physicians, and pharmaceutical firms? How will modern IT transform health services and improve quality, productivity, and health-worker morale at the same time? Why has IT adoption been so slow and painful in healthcare?

No paper was submitted for publication.
