# Exploring JMP® 8 Integration with SAS® 9.2: A Rich Set of Development Tools for the Analytic/Dynamic Report Application Developer

Jon Weisz, SAS Institute Inc.

## ABSTRACT

Come see how JMP® 8 offers a rich client environment to develop applications that exploit the dynamic graphical environment of JMP. The JMP Scripting Language (JSL) can be used to create user dialogs, submit SAS code, create native JMP reports from SAS output, surface ODS output, and integrate SAS output into native JMP output/reports.

No paper was submitted for publication in the *Proceedings*. Check <http://support.sas.com/rnd/papers/> or contact the author.
