# Publish SAS® Formats in Your Teradata Server; Impress Your Friends

Jeffrey Bailey, SAS Institute Inc.  
Pat Bostic, SAS Institute Inc.

## ABSTRACT

Using SAS® formats is a great way to simplify your coding and data management needs. Traditionally this has meant extracting the data from your warehouse and processing it locally. This can be very inefficient. Fortunately, the SAS® In-Database Processing initiative through the SAS and Teradata partnership has introduced the SAS Formats Library for Teradata. Now SAS formats can be published inside the database, allowing Teradata to do all the work.

This presentation will cover the entire deployment process for SAS formats and custom formats. We will highlight the impact of using these formats in your SAS BI environment.
