# SAS® Tile Charts: Thousands of Business Tips with One Click

Martha Hays, SAS Institute Inc.

## ABSTRACT

The ever-growing complexity, increasing size, and availability of business information make getting to the critical issues a major challenge. A well organized SAS® Tile Chart will grab and focus your attention on those critical issues that require you to take action.

This paper outlines the capabilities and business uses of this new functionality SAS/GRAPH® 9.2 and supported in SAS® Enterprise Guide® 4.2 and SAS® Web Report Studio 4.2. The Tile Chart makes very effective use of the color, size, and data tips associated with multiple (drillable) tiles presented in a hierarchical grid to communicate business intelligence information for volumes of relevant data that is available for analysis.
