## Take a Whirlwind Tour Around SAS 9.2

Justin Choy, SAS  
Diane Hatcher, SAS

### ABSTRACT

A new bevy of SAS 9.2 capabilities are available in the platform for Business Analytics. Come and join us for a whirlwind tour of what's new across the suite of client applications for Business Intelligence and Data Integration. We'll start the trip with SAS Management Console which highlights updates to the metadata architecture that will surface throughout the rest of the tour. Other featured stops include Information Map Studio, Enterprise Guide, the Add-in for Microsoft Office, Web Report Studio, and BI Dashboard in the Information Delivery Portal. We'll even take a jaunt over to Data Integration Studio to see how user productivity can be taken even higher. Finally, we'll wrap up the tour with some integration with Microsoft Sharepoint. Experience the excitement of the new capabilities and features that integrate intelligence across your organization.
