

Paper 323-2011

## **sasCommunity.org Future Directions - A Panel Discussion**

Art Carpenter, CA Occidental Consultants  
Michael Raithel, Westat  
Murphy Choy, School of Information System

### **ABSTRACT**

This panel discussion will be led by several power users of the site, with input from the principal architects and experts.

The sasCommunity.org site is sponsored by the SAS® Global Forum Users Group and is based on wiki technology (the same software that drives Wikipedia) and is not at all like a traditional Web site. The panel will discuss how this collaborative networking facility can be leveraged to support your use of SAS® software.

The topics to be addressed include:

- Types of information that are available on sasCommunity.org
- Recent enhancements
- Future directions and future enhancements
- From the audience; share your hopes and aspirations for sasCommunity.org
- What is something special that sasCommunity.org offers you?
- What would you love to see available through sasCommunity.org?
- How can the sasCommunity Advisory Board help you with your sasCommunity experience?

Extensive audience participation is planned. Come prepared with your suggestions and questions. Regardless of whether you are an active user or you've never visited sasCommunity.org, there will be something in the panel discussion for you.

**No paper was submitted for publication.**
