Tammi Kay George, SAS

ABSTRACT

Join SAS executives from Product Management and Business Intelligence Research & Development for an interactive panel discussion on the current BI and reporting solutions portfolio including SAS Enterprise BI Server, SAS Enterprise Guide, Mobile BI and SAS Visual Analytics. These experts will answer questions such as how to decide which product to use when, offer deployment and implementation best practices and also provide guidance on strategies to add Visual Analytics to your mix of SAS solutions. High level roadmaps will be shared by product management that cover the product portfolio and there will be dedicated time for Q&A to make sure your questions get answered!

No paper was submitted for publication in the *Proceedings*. Check <http://support.sas.com/rnd/papers/> or contact the author.
