Making the Most of Your SAS® Investment in the Era of Big Data

Tonya Balan, SAS
Justin Choy, SAS

ABSTRACT

If you follow the headlines, it doesn't take long to recognize that big data is a big deal. And if the amount of data that you're faced with exceeds your organization's capacity for accurate and timely decision making, then it's a big deal for you, too! By taking advantage of massively parallel compute environments and in-memory processing, SAS® can help you expand the boundaries of what's possible and transform the way you do business. This paper helps you understand how to leverage SAS High-Performance Analytics to explore, visualize and analyze large volumes of data.
