

“Mentoring allowed me to deploy a solution much more quickly by targeting the SAS components that matched my business needs. In one day, we took two projects from conception to production. I will definitely invest in mentoring again.”

Denise Curtis  
Director of Sales Operations

## Hire a SAS instructor for personalized on-the-job coaching.

SAS Mentoring Services deliver informal coaching and consultation to enhance what you learned in class and more quickly apply your new skills to your job. Add mentoring to an on-site class or schedule it as a standalone event.

### Benefits of Mentoring Services

- Get even quicker results from your class.
- Practice on your own data.
- Gain insight into your data and code.
- Get answers to your unique questions.
- Become more comfortable with new skills.

### Types of Service

SAS Mentoring Services are structured around your unique needs and are extremely flexible. Whatever your need, we will work with you to develop a mentoring solution that's right for you.

- Add mentoring to your on-site training.
- Schedule a 1-2 day or a multiday session coaching event.
- Lock in a scheduled, extended relationship with one of our instructors for peace of mind on a big project.
- Mentoring services can be delivered by phone, Web conference or in person – the choice is yours.

### Pricing

Mentoring service fees vary depending on the level of instruction needed. Travel costs for SAS staff are additional.

### Basic Pricing Structure

- Programming content \$1,800/day; 4.5 EPTO/day; 7.0 APTO/day
- JMP<sup>®</sup>/Statistics/Analytics content \$2,400/day; 6.0 EPTO/day; 9.3 APTO/day

Mentoring is strictly designed to be an informal learning event. It is not designed to take the place of a SAS class, and formal, printed training material will not be provided. To book your mentoring event and get a quote, contact your SAS Education account representative at **800-333-7660** or [training@sas.com](mailto:training@sas.com)
