Preface	vii
Acknowledgments	ix
Chapter 1 Introduction	1
1.1 About Receiver Operating Characteristic Curves	1
1.2 Summary of Chapters	3
Chapter 2 Single Binary Predictor	5
2.1 Introduction	5
2.2 Frost Forecast Example.....	5
2.3 Misclassification Rate.....	6
2.4 Sensitivity and Specificity	7
2.5 Computations Using PROC FREQ	8
Chapter 3 Single Continuous Predictor.....	15
3.1 Dichotomizing a Continuous Predictor	15
3.2 The ROC Curve.....	18
3.3 Empirical ROC Curve and the Conditional Distributions of the Marker.....	20
3.4 Area under the ROC Curve.....	21
3.5 Selecting an Optimal Threshold.....	25
3.6 The Binormal ROC Curve	26
3.7 Transformations to Binormality.....	30
3.8 Direct Estimation of the Binormal ROC Curve.....	32
3.9 Bootstrap Confidence Intervals for the Area under the Curve.....	33
Chapter 4 Comparison and Covariate Adjustment of ROC Curves	37
4.1 Introduction	37
4.2 An Example from Prostate Cancer Prognosis	38
4.3 Paired versus Unpaired Comparisons	38
4.4 Comparing the Areas under the Empirical ROC Curves....	39
4.5 Comparing the Binormal ROC Curves	42
4.6 Discrepancy between Binormal and Empirical ROC Curves	46

4.7	Bootstrap Confidence Intervals for the Difference in the Area under the Empirical ROC Curve	48
4.8	Covariate Adjustment for ROC Curves	48
4.9	Regression Model for the Binormal ROC Curve.....	49
Chapter 5	Ordinal Predictors	53
5.1	Introduction	53
5.2	Credit Rating Example	54
5.3	Empirical ROC Curve for Ordinal Predictors	54
5.4	Area under the Empirical ROC Curve.....	56
5.5	Latent Variable Model	57
5.6	Comparing ROC Curves for Ordinal Markers	63
Chapter 6	Lehmann Family of ROC Curves	67
6.1	Introduction	67
6.2	Lehmann Family of Distributions.....	67
6.3	Magnetic Resonance Example.....	70
6.4	Adjusting for Covariates.....	73
6.5	Using Estimating Equations to Handle Clustered Data	75
6.6	Comparing Markers Using the Lehmann Family of ROC Curves	79
6.7	Advantages and Disadvantages of the Lehmann Family of ROC Curves	80
Chapter 7	ROC Curves with Censored Data	81
7.1	Introduction	81
7.2	Lung Cancer Example.....	81
7.3	ROC Curves with Censored Data.....	82
7.4	Concordance Probability with Censored Data.....	88
7.5	Concordance Probability and the Cox Model	91
Chapter 8	Using the ROC Curve to Evaluate Multivariable Prediction Models.....	95
8.1	Introduction	95
8.2	Liver Surgery Example	96
8.3	Resubstitution Estimate of the ROC Curve.....	97
8.4	Split-Sample Estimates of the ROC Curve.....	99
8.5	Cross-Validation Estimates of the ROC Curve	102
8.6	Bootstrap-Validated Estimates of the ROC Curve.....	106

Chapter 9	ROC Curves in SAS Enterprise Miner	109
9.1	Introduction	109
9.2	Home Equity Loan Example	110
9.3	ROC Curves from SAS Enterprise Miner for a Single Model	111
9.4	ROC Curves from SAS Enterprise Miner for Competing Models	113
9.5	ROC Curves Using PROC GPLOT with Exported Data from SAS Enterprise Miner	116
Appendix	An Introduction to PROC NL MIXED .	119
A.1	Fitting a Simple Linear Model: PROC GLM vs PROC NL MIXED	119
A.2	PROC NL MIXED and the Binormal Model.....	124
