

From *Building Better Models with JMP® Pro*.  
 Full book available for purchase [here](#).

# Contents

<b>Acknowledgments .....</b>	<b>ix</b>
<b>About This Book .....</b>	<b>xi</b>
<b>About These Authors .....</b>	<b>xiii</b>
<b>Part 1 Introduction .....</b>	<b>1</b>
<b>Chapter 1 Introduction .....</b>	<b>3</b>
Overview .....	3
Analytics Is Hot! .....	4
What You Will Learn.....	6
Analytics and Data Mining .....	7
How the Book Is Organized .....	7
Let's Get Started .....	8
References.....	9
<b>Chapter 2 An Overview of the Business Analytics Process.....</b>	<b>11</b>
Introduction .....	11
Commonly Used Process Models .....	12
The Business Analytics Process .....	13
Define the Problem.....	13
Prepare for Modeling .....	14
Modeling.....	15
Deploy Model .....	15
Monitor Performance.....	16
Conclusion.....	17
References.....	17

<b>Part 2 Model Building .....</b>	<b>19</b>
<b>Chapter 3 Working with Data.....</b>	<b>21</b>
Introduction .....	21
JMP Basics .....	22
Opening JMP and Getting Started.....	22
JMP Data Tables.....	23
Examining and Understanding Your Data.....	25
Preparing Data for Modeling.....	41
Summary and Getting Help in JMP.....	51
Exercises.....	51
References.....	53
<b>Part 3 Model Selection and Advanced Methods .....</b>	<b>55</b>
<b>Chapter 4 Multiple Linear Regression .....</b>	<b>57</b>
In the News .....	57
Representative Business Problems .....	58
Preview of End Result.....	58
Looking Inside the Black Box: How the Algorithm Works.....	59
Example 1: Housing Prices .....	62
Applying the Business Analytics Process.....	62
Summary .....	79
Example 2: Bank Revenues.....	80
Applying the Business Analytics Process.....	81
Summary .....	96
Exercises.....	97
References.....	99
<b>Chapter 5 Logistic Regression.....</b>	<b>101</b>
In the News .....	101
Representative Business Problems .....	102
Preview of the End Result.....	102
Looking Inside the Black Box: How the Algorithm Works.....	103
Example 1: Lost Sales Opportunities .....	105
Applying the Business Analytics Process.....	105

Example 2: Titanic Passengers.....	115
Applying the Business Analytics Process.....	115
Summary.....	124
Key Take-Aways and Additional Considerations .....	124
Exercises.....	125
References.....	129
<b>Chapter 6 Decision Trees .....</b>	<b>131</b>
In the News .....	132
Representative Business Problems .....	132
Preview of the End Result.....	133
Looking Inside the Black Box: How the Algorithm Works.....	134
Classification Tree for Status.....	135
Statistical Details Behind Classification Trees.....	137
Other General Modeling Considerations.....	144
Exploratory Modeling versus Predictive Modeling .....	144
Model Cross-Validation .....	145
Dealing with Missing Values.....	149
Decision Tree Modeling with Ordinal Predictors .....	149
Example 1: Credit Card Marketing .....	150
The Study.....	150
Applying the Business Analytics Process.....	151
Case Summary.....	166
Example 2: Printing Press Yield.....	166
The Study.....	167
Applying the Business Analytics Process.....	167
Case Summary.....	180
Summary.....	181
Exercises.....	181
References.....	183
<b>Chapter 7 Neural Networks .....</b>	<b>185</b>
In the News .....	186
Representative Business Problems .....	187
Measuring Success .....	187
Preview of the End Result.....	188

Looking Inside the Black Box: How the Algorithm Works.....	188
Neural Networks with Categorical Responses .....	195
Example 1: Churn.....	196
Applying the Business Analytics Process.....	196
Modeling.....	199
The Neural Model and Results.....	201
Case Summary.....	207
Example 2: Credit Risk .....	208
Applying the Business Analytics Process.....	209
Case Summary.....	217
Summary and Key Take-Aways.....	217
Exercises.....	218
References.....	220
<b>Part 4 Model Selection and Advanced Methods .....</b>	<b>221</b>
<b>Chapter 8 Using Cross-Validation .....</b>	<b>223</b>
Overview .....	224
Why Cross-Validation? .....	224
Partitioning Data for Cross-Validation.....	228
Using a Random Validation Portion.....	228
Specifying the Validation Roles for Each Row .....	229
K-fold Cross-Validation .....	230
Using Cross-Validation for Model Fitting in JMP Pro.....	231
Example.....	232
Creating Training, Validation, and Test Subsets.....	233
Examining the Validation Subsets .....	235
Using Cross-Validation to Build a Linear Regression Model.....	239
Choosing the Regression Model Terms with Stepwise Regression.....	240
Making Predictions.....	244
Using Cross-Validation to Build a Decision Tree Model .....	244
Fitting a Neural Network Model Using Cross-Validation .....	246
Model Comparison .....	249
Key Take-Aways.....	251
Exercises.....	251
References.....	253

<b>Chapter 9 Advanced Methods</b> .....	<b>255</b>
Overview .....	256
Concepts in Advanced Modeling .....	256
Bagging.....	256
Boosting .....	257
Regularization.....	258
Advanced Partition Methods .....	259
Bootstrap Forest.....	260
Boosted Tree.....	264
Boosted Neural Network Models .....	268
Generalized Regression Models.....	273
Maximum Likelihood Regression .....	276
Ridge Regression .....	277
Lasso Regression .....	279
Elastic Net .....	281
Key Take-Aways.....	285
Exercises.....	285
References.....	287
<b>Chapter 10 Capstone and New Case Studies</b> .....	<b>289</b>
Introduction .....	290
Case Study 1: Cell Classification.....	290
Stage 1: Define the Problem.....	290
Stage 2: Prepare for Modeling .....	291
Stage 3: Modeling.....	297
Case Study 2: Blue Book for Bulldozers (Kaggle Contest).....	308
Getting to Know the Data .....	308
Data Preparation .....	310
Modeling.....	311
Model Comparison .....	312
Next Steps .....	313
Case Study 3: Default Credit Card, Presenting Results to Management .....	314
Developing a Management Report.....	314
Case Study 4: Carvana (Kaggle Contest) .....	317
Exercises.....	318
References.....	321

<b>Appendix .....</b>	<b>323</b>
<b>Index .....</b>	<b>327</b>
