Foreword xi

Preface xv

Acknowledgments xix

About the Author xx

Chapter 1 Demystifying Forecasting: Myths versus Reality 1

Data Collection, Storage, and Processing Reality 5

Art-of-Forecasting Myth 8

End-Cap Display Dilemma 10

Reality of Judgmental Overrides 11

Oven Cleaner Connection 13

More Is Not Necessarily Better 16

Reality of Unconstrained Forecasts, Constrained
Forecasts, and Plans 17

Northeast Regional Sales Composite Forecast 21

Hold-and-Roll Myth 22

The Plan that Was Not Good Enough 23

Package to Order versus Make to Order 25

“Do You Want Fries with That?” 26

Summary 28

Notes 28

Chapter 2 What Is Demand-Driven Forecasting? 31

Transitioning from Traditional Demand Forecasting 33

What’s Wrong with The Demand-Generation Picture? 34

Fundamental Flaw with Traditional Demand Generation 37

Relying Solely on a Supply-Driven Strategy

Is Not the Solution 39

What Is Demand-Driven Forecasting? 40

What Is Demand Sensing and Shaping? 41

Changing the Demand Management Process Is Essential 57

Communication Is Key	65
Measuring Demand Management Success	67
Benefits of a Demand-Driven Forecasting Process	68
Key Steps to Improve the Demand Management Process	70
Why Haven't Companies Embraced the Concept of Demand-Driven?	71
Summary	74
Notes	75
Chapter 3 Overview of Forecasting Methods	77
Underlying Methodology	79
Different Categories of Methods	83
How Predictable Is the Future?	88
Some Causes of Forecast Error	91
Segmenting Your Products to Choose the Appropriate Forecasting Method	94
Summary	101
Note	101
Chapter 4 Measuring Forecast Performance	103
"We Overachieved Our Forecast, So Let's Party!"	105
Purposes for Measuring Forecasting Performance	106
Standard Statistical Error Terms	107
Specific Measures of Forecast Error	111
Out-of-Sample Measurement	115
Forecast Value Added	118
Summary	122
Notes	123
Chapter 5 Quantitative Forecasting Methods Using Time Series Data	125
Understanding the Model-Fitting Process	127
Introduction to Quantitative Time Series Methods	130
Quantitative Time Series Methods	135
Moving Averaging	136
Exponential Smoothing	142
Single Exponential Smoothing	143
Holt's Two-Parameter Method	147
Holt's-Winters' Method	149
Winters' Additive Seasonality	151
Summary	156
Notes	158

Chapter 6 Regression Analysis 159

- Regression Methods 160
- Simple Regression 160
- Correlation Coefficient 163
- Coefficient of Determination 165
- Multiple Regression 166
- Data Visualization Using Scatter Plots and Line Graphs 170
- Correlation Matrix 173
- Multicollinearity 175
- Analysis of Variance 178
- F*-test 178
- Adjusted R^2 180
- Parameter Coefficients 181
- t*-test 184
- P-values 185
- Variance Inflation Factor 186
- Durbin-Watson Statistic 187
- Intervention Variables (or Dummy Variables) 191
- Regression Model Results 197
- Key Activities in Building a Multiple Regression Model 199
- Cautions about Regression Models 201
- Summary 201
- Notes 202

Chapter 7 ARIMA Models 203

- Phase 1: Identifying the Tentative Model 204
- Phase 2: Estimating and Diagnosing the Model Parameter Coefficients 213
- Phase 3: Creating a Forecast 216
- Seasonal ARIMA Models 216
- Box-Jenkins Overview 225
- Extending ARIMA Models to Include Explanatory Variables 226
- Transfer Functions 229
- Numerators and Denominators 229
- Rational Transfer Functions 230
- ARIMA Model Results 234
- Summary 235
- Notes 237

Chapter 8 Weighted Combined Forecasting Methods 239

- What Is Weighted Combined Forecasting? 242
- Developing a Variance Weighted Combined Forecast 245

Guidelines for the Use of Weighted Combined Forecasts	248
Summary	250
Notes	251
Chapter 9 Sensing, Shaping, and Linking Demand to Supply: A Case Study Using MTCA	253
Linking Demand to Supply Using Multi-Tiered Causal Analysis	256
Case Study: The Carbonated Soft Drink Story	259
Summary	276
Appendix 9A Consumer Packaged Goods Terminology	277
Appendix 9B Adstock Transformations for Advertising GRP/TRPs	279
Notes	282
Chapter 10 New Product Forecasting: Using Structured Judgment	283
Differences between Evolutionary and Revolutionary New Products	284
General Feeling about New Product Forecasting	286
New Product Forecasting Overview	288
What Is a Candidate Product?	292
New Product Forecasting Process	293
Structured Judgment Analysis	294
Structured Process Steps	296
Statistical Filter Step	303
Model Step	305
Forecast Step	308
Summary	313
Notes	316
Chapter 11 Strategic Value Assessment: Assessing the Readiness of Your Demand Forecasting Process	317
Strategic Value Assessment Framework	319
Strategic Value Assessment Process	321
SVA Case Study: XYZ Company	323
Summary	351
Suggested Reading	352
Notes	352

Index 355
