Contents

Preface	xi
Acknowledgments	xvii
CHAPTER 1	
Introduction	1
Banks and Risk Management	1
Evolution of Bank Capital Regulation	4
Creating Value from Risk Management	9
Financial Risk Systems	10
Risk Analytics	11
Risk Infrastructure	13
Risk Technology	15
Model Risk Management	17
PART ONE	
Market Risk	
CHAPTER 2	
Market Risk with the Normal Distribution	23
Linear Portfolios	24
Basic Model	24
Risk Measures	28
Risk Contributions	31
Estimating the Covariance Matrix of Risk Factors	39
Distribution of Risk Measures	40
Probabilistic Stress Testing	41
Quadratic Portfolios	43
Quadratic Portfolio Representation	44
Quadratic Portfolio Distribution	50
Calculation of Risk Measures for the Quadratic Portfolio	51
Simulation-Based Valuation	53
Example of Barrier Stock Options and Position Nonlinearity	54
Simulation from the Multivariate Normal Distribution	56
Risk Factor Dimension Reduction	60
Incorporating Model Estimation Error in the Simulation Scheme	65
Variance Reduction by Importance Sampling	66
Reducing Pricing Time	69

CHAPTER 3**Advanced Market Risk Analysis**

	75
Risk Measures, Risk Contributions, and Risk Information	75
VaR Interval Estimation	76
Coherent Measures of Risk	79
Simulation-Based Risk Contributions	80
Risk Information Measures	88
Risk Distortion Measures	93
Modeling the Stylized Facts of Financial Time Series	97
Univariate Time Series	97
Multivariate Time Series	110
Model Validation and Backtesting	122
A Multivariate Model of Risk Factor Returns	127
Time Scaling VaR and VaR with Trading	134
Time Aggregation of VaR with Constant Portfolios	134
Time Aggregation of VaR with Trading	135
Market Liquidity Risk	136
Closeout Time with No Liquidity Cost	137
A Note on General Market Illiquidity Models	140
Scenario Analysis and Stress Testing	142
Portfolio Sensitivity Analysis	143
Systematic Portfolio Stress Tests	143
Hypothetical Scenario from Reverse Stress Testing	147
Integration of Stress and Model Analysis	154
Portfolio Optimization	155
Portfolio Mean Risk Optimization	156
Cash Flow Replication	161
Developments in the Market Risk Internal Models Capital Regulation	165

PART TWO**Credit Risk****CHAPTER 4****Portfolio Credit Risk**

	171
Issuer Credit Risk in Wholesale Exposures and Trading Book	174
Market Pricing of Corporate Bonds	174
Merton's Structural Model for Corporate Bond Pricing	178
The Multivariate Merton Model	185
Applied Portfolio Migration and Default Risk Models	187
Economic Capital for a Portfolio of Traded Bonds	230
Credit Models for the Banking Book	235
The Binomial Loss Model	236
Credit Transition Score Models	242
Simulation of State Transitions and Markov Iteration	254
Mortgage Portfolio Risk Analysis: An Illustration	258

Point in Time and Through the Cycle Models—with Applications to Regulatory Stress Testing	277
An Economic Capital Model for Loan Portfolios	285
The Poisson Mixture Model and CreditRisk ⁺	289
Firmwide Portfolio Credit Risk and Credit Risk Dependence	296
Joint Codependency with Different Models	297
Indirect and Direct Codependency in Credit Risk Models	298
Credit Risk Stress Testing	299
Stress Testing with Multifactor Model	301
Stress Testing with Macroeconomic Credit Score Model	303
Features of New Generation Portfolio Credit Risk Models	309
Multi-Horizon Models for Banking Book	309
Modeling the Recovery Process for Banking Book Portfolios	310
Earnings and Loss Rather than Just Loss	311
Loan-Level Models	314
Granularity of Credit Factors	314
Hedging Credit Risk	315
Single-Name Credit Default Swaps	315
Credit Default Swaps on Portfolio Indices	320
Basket Credit Default Swaps	321
Regulatory Capital for Credit Risk	324
Regulatory Risk Components	326
Risk Mitigation and Regulatory Capital	327
Appendix	328
CHAPTER 5	
Counterparty Credit Risk	333
Counterparty Pricing and Exposure	335
Market Standard Pricing Metrics	335
Assessment of Counterparty Default Probability	343
Exposure Simulation Framework for CVA	346
Market Correlations, Wrong-Way Risk, and Counterparty Pricing	360
Collateralized Exposures	364
CVA Risks	382
Portfolios of Derivatives	384
Netting	384
Marginal and Incremental Portfolio Trades	386
Recent Counterparty Credit Risk Developments	392
OIS Discounting for Derivatives	392
Advanced CVA Calculations and CVA Greeks	393
Funding Value Adjustments	394
Counterparty Credit Risk Regulation	395
Basel Counterparty Default Risk Charges	395
Enhanced Requirements on Counterparty Default Risk Charges	396
New Basel III Capital Requirements for Counterparty Credit Risk	397
Mitigating Regulatory Costs	399

PART THREE**Asset and Liability Management****CHAPTER 6**

Liquidity Risk Management with Cash Flow Models	403
Measurement of Liquidity Risk	407
Liquidity Exposure with General Liquidity Hedging Capacity	408
Liquidity Exposure with Cash Hedging Capacity	411
Components of the Liquidity Measure	412
Liquidity Exposure	414
Balance Sheet Cash Flows and Facilities	417
Off-Balance-Sheet Derivative Flows	427
Combining the Risk and Finance View	428
Hedging the Liquidity Exposure	428
Ranking-Based Liquidity Hedging Strategy	432
Optimal Liquidity Hedging Strategy	433
Structural Liquidity Planning	441
Mitigating Balance Sheet Vulnerability with Contractual Cash Flows	442
Choosing the Optimal Liquidity Hedging Portfolio	445
Components of the Liquidity Hedging Program	449
Cash Liquidity Risk and Liquidity Risk Measures	450
Cash Liquidity at Risk	450
Portfolio Cash Liquidity Exposure	451
Allocating Cash Liquidity Risk	453
Regulation for Liquidity Risk	455
Liquidity Coverage Ratio	455
Net Stable Funding Ratio	458
Regulatory Liquidity Monitoring Tools	459

CHAPTER 7

Funds Transfer Pricing and Profitability of Cash Flows	463
Basic Funds Transfer Pricing Concept	465
Example of FTP for a Mortgage and a Loan	466
Risk-Based Funds Transfer Pricing	468
Credit Risk and Capital	468
Embedded Optionality	470
Liquidity Risk	477
Funds Transfer Rate and Risk Adjusted Returns	481
Example of Mortgage Risk Adjusted Returns	481
Profitability Measures and Decompositions	482
Balance Sheet Breakdown with Funds Transfer Instruments	482
Application to Net Interest Income and Economic Value View	483
Banking Book Fair Value with Funds Transfer Rates	486
Example of Fair Values with FTP	486
A Note on the Scope of Funds Transfer Pricing	486
Regulation and Profitability Analysis	487

PART FOUR**Firmwide Risk****CHAPTER 8**

Firmwide Risk Aggregation	493
Correlated Aggregation and Firmwide Risk Levels	494
Linear Risk Aggregation	495
Copula Aggregation	497
Example of Copula Aggregation	497
Mixed Copula Aggregation	498
Example of Mixed Copula Aggregation	499
Capital Allocation in Risk Aggregation	501
Example of Mixed Copula Capital Allocation	502
Measuring Concentration and Diversification	503
Risk Aggregation and Regulation	503

CHAPTER 9

Firmwide Scenario Analysis and Stress Testing	507
Firmwide Scenario Model Approaches	509
Silo Approach	509
Firmwide Risk Model Approach	510
Multiple Model Approaches	512
Firmwide Risk Capital Measures	512
Risk Measures and Stress Scenarios	512
A Risk Reserve Approach—A Practical Illustration	514
Regulatory Stress Scenario Approach	516
Bank-Specific Approach: A Total Balance Sheet View	517
Bank-Specific Approach: More on Scenarios and Models	520
Systemic View: Financial System Analysis and Financial Contagion	523
The Future of Firmwide Stress Testing	524
