

Implementing CDISC Using SAS®.
Full book available for purchase [here](#).

Contents

About the Book	ix
About the Authors	xv
Chapter 1: Implementation Strategies	1
The Case for Standards.....	1
Which Models to Use and Where	4
Starting with the Clinical Data Acquisition Standards Harmonization (CDASH) Standard.....	4
Implementation Plans and the Need for Governance	5
SDTM Considerations.....	6
ADaM Considerations.....	7
Chapter Summary	8
Chapter 2: SDTM Metadata and Define.xml for Base SAS Implementation	9
SDTM Metadata	10
Table of Contents Metadata.....	11
Variable-Level Metadata.....	12
Codelist Metadata	15
Value-Level Metadata	17
Where Clause Metadata	21
Computational Method Metadata.....	22
Comments Metadata.....	24
External Links	24
Building Define.xml	26
Define File Header Metadata.....	26
Chapter 3: Implementing the CDISC SDTM with Base SAS.....	29
Base SAS Macros and Tools for SDTM Conversions.....	29
Creating an SDTM Codelist SAS Format Catalog.....	30
Creating an Empty SDTM Domain Dataset	32
Creating an SDTM --DTC Date Variable.....	35
Creating an SDTM Study Day Variable.....	36

Sorting the Final SDTM Domain Dataset	37
Building SDTM Datasets	39
Building the Special-Purpose DM and SUPPDM Domains	39
Building the LB Findings Domain.....	42
Building a Custom XP Findings Domain	45
Building the AE Events Domain	48
Building the EX Exposure Interventions Domain	50
Building Trial Design Model (TDM) Domains	52
Chapter Summary	55
Chapter 4: Implementing CDISC SDTM with the SAS Clinical Standards Toolkit and Base SAS	57
SAS Clinical Standards Toolkit Background.....	57
Clinical Standards Setup for Study XYZ123.....	58
Building SDTM Datasets	61
Base SAS Macros and Tools for SDTM Conversions	61
Building the Special-Purpose DM and SUPPDM Domains	63
Building Define.xml	66
Chapter Summary	78
Chapter 5: Implementing the CDISC SDTM with SAS Clinical Data Integration	79
SAS Clinical Data Integration Introduction	79
SAS Clinical Data Integration Metadata	80
Classifications of SAS Clinical Data Integration Metadata	80
Setup of SAS Clinical Data Integration Metadata	81
SAS Clinical Data Integration Study Setup.....	85
Define the Clinical Study and Subfolders.....	85
Register Source Datasets and Define Target SDTM Datasets.....	88
Setting SAS Clinical Data Integration Defaults	94
Creating SDTM Domains.....	95
Creating the Special-Purpose DM and SUPPDM Domain	95
Creating the AE (Adverse Events) Events Domain.....	104
Creating the XP Pain Scale Customized Findings Domain	106
Creating the EX Exposure Interventions Domain.....	108
Creating the LB Laboratory Findings Domain	109
Creating the Trial Design Model Domains	109
Using Customized Code in SDTM Production	110
Templating Your SDTM Conversion Jobs for Reuse	111

Using SAS Clinical Data Integration to Create Define.xml	112
Chapter Summary	115
Chapter 6: ADaM Metadata and ADaM Define.xml	117
Metadata Spreadsheets	118
Variable Metadata in ADaM	118
Analysis Parameter Value-Level Metadata	119
Analysis Results Metadata	120
Building Define.xml	122
Define.xml Navigation and Rendering	123
Chapter Summary	125
Chapter 7: Implementing ADaM with Base SAS	127
ADaM Tools	128
ISO 8601 Date and DateTime Conversions	128
Merging in Supplemental Qualifiers	130
ADSL – The Subject-Level Dataset	134
The ADaM Basic Data Structure (BDS)	137
ADAE – Adverse Event Analysis Datasets	139
ADTTE – The Time-to-Event Analysis Dataset	141
Chapter Summary	145
Chapter 8: CDISC Validation Using SAS	147
SAS Clinical Standards Toolkit SDTM Validation	147
SAS Clinical Standards Toolkit Setup	148
SAS Clinical Standards Toolkit SDTM Validation Program	150
SAS Clinical Data Integration SDTM Validation	159
SAS Clinical Standards Toolkit Define.xml Validation Program	162
SAS Clinical Data Integration Define.xml Validation	163
Chapter Summary	165
Chapter 9: CDISC Validation Using Pinnacle 21 Community	167
Getting Started with Pinnacle 21 Community	168
Running Pinnacle 21 Community (Graphical User Interface)	168
Evaluating the Report	170
Modifying the Configuration Files	174
A Note about Controlled Terminology	176
Running Pinnacle 21 Community (Command-Line Mode)	177
ADaM Validation with Pinnacle 21 Community	181
ADaM Traceability Checks with SAS	182
Define.xml Validation with Pinnacle 21 Community	184
Chapter Summary	186

Chapter 10: CDISC Data Review and Analysis	187
Safety Evaluations with JMP Clinical.....	187
Getting Started with JMP Clinical.....	188
Safety Analyses.....	191
Patient Profiles.....	195
Event Narratives	197
One PROC Away with ADaM Data Sets.....	200
Transposing the Basic Data Structure for Data Review	202
Progression Free Survival with Investigator and Central Assessment.....	202
Chapter Summary	205
Chapter 11: Integrated Data and Regulatory Submissions	207
Regulatory Guidance	208
Data Integration Challenges	208
Data Integration Strategies.....	209
Representing Subjects Who Appear in Multiple Studies in Subject-Level Data Sets	210
Deciding Which Data to Integrate.....	213
Coding Dictionary Issues.....	214
Summary of Data Integration Strategies	215
Data Integration and Submission Tools	216
Setting Variable Lengths Based on the Longest Observed Value.....	216
Converting from Native SAS to Version 5.0 Transport Files	219
Converting from Version 5.0 Transport Files to Native SAS	219
Getting Submission Ready.....	220
Chapter Summary	221
Chapter 12: Other Topics	223
Standard for Exchange of Non-Clinical Data	223
Dataset-XML.....	224
BRIDG Model	225
Protocol Representation Model	226
FDA Janus Clinical Trials Repository.....	226
CDISC Model Versioning	227
Future CDISC Directions	227
Chapter Summary	228

Appendix A: Source Data Programs	229
adverse Dataset	230
demographics Dataset	231
dosing Dataset	232
laboratory Dataset	234
pain scores Dataset	240
Appendix B: SDTM Metadata	243
Appendix B.1 - Table of Contents Metadata	243
Appendix B.2 - Variable-Level Metadata	244
Appendix B.3 - Codelist Metadata	246
Appendix B.4 - Value-Level Metadata.....	248
Appendix B.5 - Computational Method Metadata	248
Appendix B.6 - Define Header Metadata	248
Appendix C: ADaM Metadata	249
Appendix C.1 - Define Header Metadata	249
Appendix C.2 - Table of Contents Metadata	249
Appendix C.3 - Variable-Level Metadata	250
Appendix C.4 - Parameter-Level Metadata	252
Appendix C.5 - Computational Method Metadata	252
Appendix C.6 - Codelist Metadata	252
Appendix C.7 - Analysis Results Metadata	253
Appendix C.8 - External Links Metadata	254
Appendix D: %run_p21v.SAS macro.....	263
%run_p21v.SAS Macro	263
Additional SAS Code Comments.....	265
Index.....	267
