Acknowledgments xi

Preface xiii

Chapter 1 Introduction 1

- Risk Modeling: Definition and Brief History 4
- Use of AI and Machine Learning in Risk Modeling 7
- The New Risk Management Function 7
- Overcoming Barriers to Technology and AI Adoption with a Little Help from Nature 10
- This Book: What It Is and Is Not 11
- Endnotes 12

Chapter 2 Data Management and Preparation 15

- Importance of Data Governance to the Risk Function 18
- Fundamentals of Data Management 20
- Other Data Considerations for AI, Machine Learning, and Deep Learning 22
- Concluding Remarks 29
- Endnotes 30

Chapter 3 Artificial Intelligence, Machine Learning, and Deep Learning Models for Risk Management 31

- Risk Modeling Using Machine Learning 35
- Definitions of AI, Machine, and Deep Learning 40
- Concluding Remarks 52
- Endnotes 52

Chapter 4 Explaining Artificial Intelligence, Machine Learning, and Deep Learning Models 55

- Difference Between Explaining and Interpreting Models 57
- Why Explain AI Models 59
- Common Approaches to Address Explainability of Data Used for Model Development 61

| | |
|--|------------|
| Common Approaches to Address Explainability of Models and Model Output | 62 |
| Limitations in Popular Methods | 68 |
| Concluding Remarks | 69 |
| Endnotes | 69 |
| Chapter 5 Bias, Fairness, and Vulnerability in Decision-Making | 71 |
| Assessing Bias in AI Systems | 73 |
| What Is Bias? | 76 |
| What Is Fairness? | 77 |
| Types of Bias in Decision-Making | 78 |
| Concluding Remarks | 89 |
| Endnotes | 89 |
| Chapter 6 Machine Learning Model Deployment, Implementation, and Making Decisions | 91 |
| Typical Model Deployment Challenges | 93 |
| Deployment Scenarios | 98 |
| Case Study: Enterprise Decisioning at a Global Bank | 101 |
| Practical Considerations | 102 |
| Model Orchestration | 103 |
| Concluding Remarks | 104 |
| Endnote | 104 |
| Chapter 7 Extending the Governance Framework for Machine Learning Validation and Ongoing Monitoring | 105 |
| Establishing the Right Internal Governance Framework | 108 |
| Developing Machine Learning Models with Governance in Mind | 109 |
| Monitoring AI and Machine Learning | 112 |
| Compliance Considerations | 122 |
| Further Takeaway | 125 |
| Concluding Remarks | 126 |
| Endnotes | 127 |
| Chapter 8 Optimizing Parameters for Machine Learning Models and Decisions in Production | 129 |
| Optimization for Machine Learning | 131 |
| Machine Learning Function Optimization Using Solvers | 133 |
| Tuning of Parameters | 136 |
| Other Optimization Algorithms for Risk Models | 141 |

| | |
|---|------------|
| Machine Learning Models as Optimization Tools | 143 |
| Concluding Remarks | 147 |
| Endnotes | 148 |
| Chapter 9 The Interconnection between Climate and Financial Instability | 149 |
| Magnitude of Climate Instability: Understanding the “Why” of Climate Change Risk Management | 152 |
| Interconnected: Climate and Financial Stability | 157 |
| Assessing the impacts of climate change using AI and machine learning | 158 |
| Using scenario analysis to understand potential economic impact | 160 |
| Practical Examples | 170 |
| Concluding Remarks | 172 |
| Endnotes | 172 |
| | |
| About the Authors | 175 |
| | |
| Index | 177 |
