

From SAS[®] *Programming in the Pharmaceutical Industry, Second Edition*. Full book available for purchase [here](#).

Contents

List of Programs	xi
About This Book	xv
About The Author	xix
Acknowledgements	xxi
Chapter 1 Environment and Guiding Principles	1
The Statistical Programmer’s Working Environment	2
Pharmaceutical Industry Vocabulary	2
Statistical Programmer Work Description	2
The Drug/Device Development Process	3
Industry Regulations and Standards	4
Your Clinical Trial Colleagues	8
Guiding Principles for the Statistical Programmer	10
Understand the Clinical Study	10
Program a Task Once and Reuse Your Code Everywhere	11
Clinical Trial Data Are Dirty	13
Use SAS Macros Judiciously	15
A Good Programmer Is a Good Student	17
Strive to Make Your Programming Readable	17
Chapter 2 Preparing and Classifying Clinical Trial Data	19
Preparing Clinical Trial Data	20
“Clean” the Data If They Are Needed for Analysis	20
Categorize Data If Necessary	21
Avoid Hardcoding Data	24
Classifying Clinical Trial Data	26
Demographics and Trial-Specific Baseline Data	27

Concomitant or Prior Medication Data	27
Medical History Data	28
Investigational Therapy Drug Log	29
Laboratory Data	30
Adverse Event Data	31
Endpoint/Event Assessment Data	34
Clinical Endpoint Committee (CEC) Data	35
Study Termination Data	36
Treatment Randomization Data	36
Quality-of-Life Data	38
Chapter 3 Importing Data	39
Importing Relational Databases and Clinical Data Management Systems	40
SAS/ACCESS SQL Pass-Through Facility	40
SAS/ACCESS LIBNAME Statement	41
Importing ASCII Text	41
PROC IMPORT and the Import Wizard	42
SAS DATA Step	48
SAS Enterprise Guide	49
Importing Microsoft Office Files	52
LIBNAME Statement	53
Import Wizard and PROC IMPORT	55
SAS/ACCESS SQL Pass-Through Facility	58
SAS Enterprise Guide	59
Importing XML	62
XML LIBNAME Engine	63
SAS XML Mapper	67
Importing CDISC Model Content Files	68
Importing CDISC SAS Transport Format Files	69
Importing define.xml	69
Importing CDISC ODM Files	70
Chapter 4 Transforming Data and Creating Analysis Data Sets	71
Key Concepts for Creating Analysis Data Sets	72
Defining Variables Once	72
Defining Study Populations	72

Defining Baseline Observations	73
Last Observation Carried Forward (LOCF)	73
Defining Study Day	78
Windowing Data.....	78
Transposing Data	82
Categorical Data and Why Zero and Missing Results Differ Greatly	90
Performing Many-to-Many Comparisons/Joins	93
Using Medical Dictionaries.....	95
Other Tricks and Traps in Data Manipulation.....	99
Common Analysis Data Sets.....	105
Subject Level Analysis Data Set.....	105
Change-from-Baseline Data Set	105
Time-to-Event Data Set.....	108
Chapter 5 Creating Tables and Listings	113
Creating Tables	114
General Approach to Creating Tables	114
A Typical Clinical Trial Table	114
Using PROC TABULATE to Create Clinical Trial Tables.....	116
Using PROC REPORT to Create Clinical Trial Tables.....	118
Creating Typical Continuous/Categorical Summary Tables.....	122
Creating Adverse Event Summaries	130
Creating Concomitant or Prior Medication Tables	140
Creating a Laboratory Shift Table.....	145
Creating Kaplan-Meier Survival Estimates Tables.....	152
Creating Listings	159
Output Appearance Options and Issues.....	164
Creating ASCII Text Output	164
Creating Rich Text Format (RTF) Output.....	165
Creating Portable Document Format (PDF) Files.....	167
“Page X of N” Pagination Solutions.....	168
Footnote Indicating SAS Program and Date.....	170
ODS Report Writing Interface.....	170
The Power of ODS STYLE.....	170
SAS Macro-Based Reporting Systems	172
Chapter 6 Creating Clinical Trial Graphs.....	173

Common Clinical Trial Graphs	174
Scatter Plot.....	174
Line Plot.....	174
Bar Chart	175
Box Plot.....	176
Forest Plot	176
Kaplan-Meier Survival Estimates Plot	177
SAS Tools for Creating Clinical Trial Graphs	178
Sample Graphs	179
Creating a Scatter Plot.....	179
Creating a Line Plot	182
Creating a Bar Chart.....	185
Creating a Box Plot.....	189
Creating a Forest Plot	193
Creating a Kaplan-Meier Survival Estimates Plot	198
Using SAS Graphics Assistants	212
Graph-N-Go	212
SAS Enterprise Guide	213
ODS Graphics Designer	213
ODS Graphics Editor	213
When You Should Use SAS Graphics.....	214
Chapter 7 Performing Common Analyses and Obtaining Statistics	215
Obtaining Descriptive Statistics	216
Using PROC FREQ to Export Descriptive Statistics	216
Using PROC UNIVARIATE to Export Descriptive Statistics	217
Obtaining Inferential Statistics from Categorical Data Analysis.....	218
Performing a 2x2 Test for Association	218
Performing an NxP Test for Association	219
Performing a Stratified NxP Test for Association	220
Performing Logistic Regression	221
Obtaining Inferential Statistics from Continuous Data Analysis	221
Performing a One-Sample Test of the Mean	221
Performing a Two-Sample Test of the Means	223
Performing an N-Sample Test of the Means	224
Obtaining Time-to-Event Analysis Statistics.....	225

Obtaining Correlation Coefficients.....	226
General Approach to Obtaining Statistics	226
Chapter 8 Exporting Data	229
Exporting Data to the FDA	229
Using the SAS XPORT Transport Format.....	230
Creating ODM XML and define.xml	231
Exporting Data Not Destined for the FDA.....	232
Exporting Data with PROC CPORT.....	232
Exporting ASCII Text	233
Exporting Data to Microsoft Office Files	240
Exporting Other Proprietary Data Formats	243
Encryption and File Transport Options	244
Chapter 9 The Future of SAS Programming in Clinical Trials.....	245
Changes in the Business Environment	245
Changes in Technology	246
Changes in Regulations.....	246
Changes in Standards	247
Use of SAS Software in the Clinical Trial Industry.....	247
Chapter 10 Further Resources.....	249
Regulatory Resources	250
SAS Programming Validation	250
FDA Resources	250
Standards and Industry Organizations	251
SAS Help.....	252
Google Search.....	252
lexjansen.com	252
SAS-L	252
SAS Technical Support	252
SAS Users Groups	253
SAS Manuals and Online Documentation	253
SAS Press	253
SAS Focus Areas	253
Third-Party SAS Web Pages	254
Useful Technical Skills.....	254

Scripting.....	254
Version Control Software.....	254
VBScript/JavaScript for Applications	254
Systems Development Methodology.....	254
Modeling Tools.....	255
Markup Languages.....	255
File Transport and Data Encryption Technologies.....	255
Other Applications Development Languages	255
Qualifying for and Obtaining a Job.....	256
Glossary	257
Index	273
