

From *SAS® Programming with Medicare Administrative Data*.  
Full book available for purchase [here](#).

## Contents

<b>About This Book</b> .....	<b>ix</b>
<b>About The Author</b> .....	<b>xiii</b>
<b>Acknowledgments</b> .....	<b>xv</b>
<b>Chapter 1: Introduction</b> .....	<b>1</b>
Introduction and Purpose of This Book .....	1
Framework of This Book .....	2
Our Programming Project .....	3
Chapter Outline .....	5
How to Use This Book .....	6
Disclaimer .....	7
Chapter Summary .....	8
<b>Chapter 2: An Introduction to the Medicare Program</b> .....	<b>9</b>
Introduction and Goals of the Chapter .....	9
An Introduction to the Medicare Program .....	10
What is Medicare? .....	10
Medicare Enrollment and Eligibility .....	11
What Is Covered by Medicare? .....	11
What Is Not Covered by Medicare? .....	12
The Mechanics of Medicare .....	13
Chapter Summary .....	15
<b>Chapter 3: An Introduction to Medicare Data</b> .....	<b>17</b>
Introduction and Goals of This Chapter .....	17
A Note on the Source and Structure of Our Claims Data .....	18
Part B Carrier Claims Data .....	19
Durable Medical Equipment (DME) Data .....	19

Outpatient Claims Data .....	20
Inpatient Claims Data .....	20
Skilled Nursing Facility (SNF) Claims Data.....	21
Home Health Claims Data.....	21
Hospice Claims Data .....	22
Commonly Retained Elements in Administrative Claims Data .....	22
Master Beneficiary Summary File .....	24
Provider Data.....	24
Example: Identification of Emergency Department (ED) Utilization.....	25
Example: Identification of Surgical Services .....	26
Chapter Summary.....	26
<b>Chapter 4: Planning the Research Programming Project.....</b>	<b>29</b>
Introduction and Goals of This Chapter .....	29
Our Project's Plan: The SDLC .....	30
Our Project's High-Level Requirements.....	32
Our Project's Quality Assurance Plan .....	33
Our Project's Flowchart .....	33
Our Project's Data Storage and LIBNAMES .....	35
Our Research Programming Technical Specifications.....	36
Chapter Summary.....	37
<b>Chapter 5: Request, Receive, Load, and Transform Data .....</b>	<b>39</b>
Introduction .....	39
Requesting Medicare Administrative Claims and Enrollment Data .....	40
Sources of Medicare Claims and Enrollment Data .....	40
Data Available from CMS .....	41
Our Project's Data Requirements and Request Specifications.....	42
Contacting ResDAC and Completing Paperwork .....	43
Receiving, Decrypting, and Loading Medicare Administrative Claims and Enrollment Data .....	45
Receiving Our Medicare Administrative Data .....	45
Decrypting Our Medicare Administrative Data .....	46
Loading Our Medicare Administrative Data into SAS Data Sets.....	46
Algorithms: Transforming Base Claim and Line Level Data Sets into Single Claim-Level	

Files.....	47
Transforming Base Claim and Line-Level Carrier Data into a Claim-Level File .....	48
Chapter Summary .....	51
<b>Chapter 6: Working with Enrollment Data .....</b>	<b>53</b>
Introduction and Goals .....	53
Review and Approach.....	54
Basics of Medicare Enrollment Data .....	54
Our Programming Plan.....	55
Algorithms: Identifying Continuously Enrolled FFS Beneficiaries.....	55
Why Define Continuously Enrolled FFS Beneficiaries? .....	55
How to Specify the Programming for Continuous Enrollment in Medicare FFS .....	56
Medicare Part A and Part B Enrollment Variables .....	56
HMO Coverage Variable.....	56
Date of Death Variable .....	57
How to Program in SAS to Define Continuous Enrollment in Medicare FFS .....	57
Algorithms: Create or Retain Data Elements for Displaying Results by Certain Characteristics .....	59
Coverage Characteristics, Month of Death, Sex, and Race.....	59
Age Groups.....	62
Geographic Characteristics.....	63
Algorithms: Create Final Enrollment Data for Remainder of Programming .....	66
Chapter Summary .....	67
Exercises .....	67
<b>Chapter 7: Measuring Utilization of Services .....</b>	<b>69</b>
Introduction and Goals .....	69
Review and Approach.....	70
Review: Basics of Medicare Claims Data .....	70
Our Programming Plan.....	72
Algorithms: Delimit Claims by Continuously Enrolled Beneficiary Population.....	72
Algorithms: Measuring Evaluation and Management (E&M) Utilization.....	73
Algorithms: Measuring Inpatient Hospital Utilization.....	75
Algorithms: Measuring Emergency Department Utilization .....	80
Algorithms: Measuring Utilization of Ambulance Services.....	81
Algorithms: Measuring Outpatient Visit Information .....	84
Algorithms: Measuring Utilization of SNF, Home Health Agency, and Hospice Care .....	85

Chapter Summary .....	88
Exercises .....	88
<b>Chapter 8: Measuring Costs to Medicare .....</b>	<b>91</b>
Introduction and Goals.....	91
Review and Approach .....	93
Review: Basics of Medicare Cost.....	93
Our Programming Plan .....	93
A Note on Payment Standardization and Risk Adjustment .....	94
Algorithms: Measuring Evaluation and Management Payments.....	95
Algorithms: Measuring Inpatient Hospital Payments .....	98
Algorithms: Measuring Total Part A Payments.....	100
Chapter Summary .....	103
Exercises .....	103
<b>Chapter 9: Programming to Identify Chronic Conditions .....</b>	<b>105</b>
Introduction and Goals.....	105
Review and Approach .....	107
Review: Peculiarities of Medicare Data .....	107
Our Programming Plan .....	107
A Note on the Chronic Conditions Data Warehouse (CCW) .....	108
Algorithms: Identifying Beneficiaries with Diabetes or COPD .....	108
Algorithms: Evaluation and Management Visits for Beneficiaries with Diabetes or COPD.....	114
Algorithms: Diabetic Eye Exams for Beneficiaries with Diabetes .....	116
Algorithms: Hospital Readmissions for Beneficiaries with COPD .....	118
Chapter Summary .....	120
Exercises .....	121
<b>Chapter 10: Presenting Output and Project Disposition .....</b>	<b>123</b>
Introduction .....	123
Synthesis – Review and Approach.....	124
Review: Our Accomplishments.....	124
Our Programming Plan .....	124
Algorithms: Presenting Selected Measurements of Utilization, Cost to Medicare, and	

<b>Quality Outcomes</b> .....	125
<b>Presenting Ambulance Utilization</b> .....	125
<b>Presenting Medicare Payments for Evaluation and Management Services by     Provider</b> .....	127
<b>Presenting Rates of Diabetes and COPD</b> .....	129
<b>Algorithms: Presenting Inpatient Length of Stay Information by State</b> .....	131
<b>Algorithms: Presenting Mean Medicare Part A Payments per Beneficiary by State and County</b> .....	133
<b>Algorithms: Presenting Rates of Diabetic Eye Exams</b> .....	135
<b>Production Execution in Batch</b> .....	138
<b>Project Disposition</b> .....	138
<b>Archiving Materials for Future Use</b> .....	138
<b>Data Destruction</b> .....	139
<b>Chapter Summary</b> .....	139
<b>Exercises</b> .....	140
