Introduction xi

Chapter 1 Accessing SAS Data without Using SAS Code 1

1.1 Abstract 2

1.2 Introduction 2

1.3 ODBC 2

1.3.1 Setting Up a SAS Server for the SAS ODBC Driver 3

1.3.2 Microsoft Access 2000 8

1.3.3 Microsoft Excel 2000 17

1.3.4 Visual Basic 6.0 22

1.3.5 Lotus Approach Version 9 26

1.3.6 OpenOffice.org 2.1 27

1.4 Dynamic Data Exchange 43

1.4.1 Visual Basic 6.0 45

1.5 SAS Integration Technologies 45

1.5.1 Visual Basic 6.0 46

1.5.2 LotusScript Version 9 54

1.5.3 OpenOffice.org 2.1 55

1.6 Conclusions 59

1.7 Recommended Reading 59

Chapter 2 Out of Space with SAS Software? 61

2.1 Abstract 62

2.2 Introduction 63

2.3 Space Allocation under z/OS 63

2.3.1 Reallocation of Space under z/OS 64

2.3.2 Common z/OS Disk Space Errors 65

2.4 Saving Permanent Disk Space 65

2.4.1 Creating a SAS Data Set (All Platforms) 65

2.4.2	Replacing a SAS Data Set (All Platforms)	66
2.4.3	Appending to a SAS Data Set (All Platforms)	66
2.4.4	Inserting and Deleting Observations (All Platforms)	67
2.5	Saving Temporary Disk Space	68
2.5.1	Creating Multiple SAS Data Sets in the Same Data Step (All Platforms)	68
2.5.2	WORK Allocation	68
2.5.3	SORTWORK Allocation	69
2.5.4	WORK and SORTWORK Allocation in Batch	69
2.5.5	Virtual Disk Space	70
2.5.6	Reusing WORK Data Set Names and Other Housekeeping (All Platforms)	70
2.6	General Disk Space Economies	71
2.6.1	Tape Format SAS Data Sets	71
2.6.2	Transport Format SAS Data Sets (All Platforms)	72
2.6.3	XPORT Engine Files (All Platforms)	72
2.6.4	PROC CPORT and PROC CIMPORT Files (All Platforms)	73
2.6.5	Releasing Unused Space in a SAS Data Library	73
2.6.6	Compression (All Platforms)	74
2.7	Recommendations	78
2.7.1	All Platforms	78
2.7.2	z/OS Mainframe Specific	78
2.8	Recommended Reading	78

Chapter 3 Why Does My Job Run So Slowly? 79

3.1	Abstract	80
3.2	Introduction to SAS/ACCESS Software	80
3.2.1	Access Descriptors versus Pass-Through SQL versus DB2 LIBNAME Statements	80
3.3	PROC SQL	82
3.3.1	Processing Data in DB2 or in SAS?	83
3.4	Summary of Results	94
3.4.1	Summarizing Rows in a DB2 Table	94
3.4.2	Combining DB2 Tables Using Inner Join or Left Join	94

- 3.4.3 Selecting Rows from a SAS Data Set
Using Another SAS Data Set 95
- 3.4.4 The Effects of Sorting with z/OS DFSORT 95
- 3.5 Converting SAS/ACCESS View Descriptors to SQL Views 98
- 3.6 Recommendations 98
- 3.7 Recommended Reading 99

Chapter 4 Distributing SAS/GRAPH Reports 101

- 4.1 Abstract 102
- 4.2 Introduction 102
- 4.3 GIF, JPEG, Bitmap, and Other Graphics File Formats 105
- 4.4 The HTML and WEBFRAME Graphics Devices 106
- 4.5 The ACTIVEX and JAVA Graphics Devices 108
 - 4.5.1 SAS/GRAPH ActiveX Control 109
 - 4.5.2 SAS/GRAPH Java Applets 111
- 4.6 The SAS Metagraphics Data Devices 113
- 4.7 Creating Drill-Down Graphs 116
 - 4.7.1 HTML and WEBFRAME Device Drivers 116
 - 4.7.2 SAS Metagraphics Data Device Drivers 119
- 4.8 Summary 124
- 4.9 Recommended Reading 129

Chapter 5 Importing Data from and Exporting Data to Databases without SAS/ACCESS 131

- 5.1 Abstract 132
- 5.2 Introduction 132
- 5.3 Access to Live Database Data 133
- 5.4 Access to Database Extracts 134
 - 5.4.1 Delimited Flat Files 134
 - 5.4.2 Fixed-Column Data 136
 - 5.4.3 Fixed-Block Data 137
 - 5.4.4 Reading All Data as Text 138
 - 5.4.5 Converting Data between z/OS and Other Platforms 139

- 5.4.6 Accessing Data in Spreadsheets 142
- 5.4.7 DDE (Windows Only) 142
- 5.4.8 OLE (Windows Only) 143
- 5.4.9 Reading Spreadsheet Files as Raw Data (Windows, Linux, and UNIX) 160
- 5.5 Writing Data to Compatible Files for Spreadsheets 168
 - 5.5.1 Delimited Flat Files 168
 - 5.5.2 HTML Files 171
- 5.6 Converting Date and Time Formats 173
- 5.7 Summary 179
 - 5.7.1 Importing 179
 - 5.7.2 Exporting 180
- 5.8 Recommended Reading 180

Chapter 6 Developing SAS Applications Using SAS Enterprise Guide 181

- 6.1 Abstract 182
- 6.2 Introduction to SAS Enterprise Guide 183
 - 6.2.1 What Is SAS Enterprise Guide? 183
 - 6.2.2 Limitations of SAS Enterprise Guide 184
 - 6.2.3 User Interface 185
 - 6.2.4 Tasks 189
 - 6.2.5 Traditional Programming 191
- 6.3 Hints and Tips for SAS Enterprise Guide Administrators 192
 - 6.3.1 Accessing Local SAS Installations 192
 - 6.3.2 Accessing Server-Based SAS Installations 192
 - 6.3.3 Why You Cannot Use Autoexec.sas 193
 - 6.3.4 Why Do Platform-Specific System Commands Fail? 194
 - 6.3.5 Changing the Current Directory 195
- 6.4 Hints and Tips for SAS Enterprise Guide Users 197
 - 6.4.1 Installing SAS Enterprise Guide Custom Tasks 197
 - 6.4.2 Using the Add-In Manager to Remove a Custom Task 198
 - 6.4.3 Generating SAS Code Using SAS Enterprise Guide Tasks 203

6.4.4	Scheduling Batch SAS Processes	203
6.4.5	Linux or UNIX Remote Servers	205
6.5	Introducing SAS Enterprise Guide at a New Client Site— A Case Study	207
6.5.1	Environment	207
6.5.2	User Training	209
6.5.3	User Perception	210
6.5.4	Conclusions	211
6.5.5	What Happened Next	211
6.6	Recommended Reading	212
