About This Book ix

Acknowledgments xv

Part 1 Getting Started with Web Programming

Chapter 1 SAS and the Internet 3

Introduction 3

SAS Web Technologies 4

TCP/IP and the Internet 5

 Using PROC HTTP 7

 Markup Languages 7

Deploying Content on the Web Server 9

 Using the Apache Web Server 10

 Using Microsoft Internet Information Services 12

References 12

Chapter 2 Introduction to HTML 15

Hypertext Markup Language 15

HTML versus XHTML 19

 XHTML Markup 19

 Formatting HTML Using Style Sheets 22

Collecting User-supplied Information with Forms 25

References 29

Chapter 3 Creating Static HTML Output 31

Introduction 31

Creating Static HTML Output 34

 Displaying Preformatted Text 34

 DATA Step Programming for Web Output 36

Using the Output Delivery System to Create HTML 38

The ODS HTML Statement in SAS® 41

 Creating Multiple Pages with a Single Program 43

 Creating a Table of Contents for Procedure Output 45

Listing the Contents of a Data Set 47

Using Styles to Format ODS Output 50

References 54

Chapter 4 SAS and XML 57

- Introduction 57
- XML Basics 58
- Validating XML Documents 60
- Parsing XML 61
 - SAS XML Libname Engine 62
- Using the XML Mapper Application 62
 - Formatting XML Documents 64
 - Using ODS to Create XML 65
- Using the ODS MARKUP Statement to Create XHTML 67
- PROC TEMPLATE: Not Just for Geeks Anymore 69
- References 73

Part 2 Dynamic Access to Data

Chapter 5 Remote Access to SAS Data 77

- Client/Server Computing 77
- Remote Data Services with SAS/SHARE 79
 - Editing the TCP Services File 79
 - Configuring TCP Security 80
 - Starting and Stopping the SAS/SHARE Server 81
 - Starting the SAS/SHARE Server on UNIX 82
 - Managing SAS/SHARE as a Windows Service 82
- Testing Remote Services 85
- Remote SQL Pass-Through to SAS/SHARE 86
- Distributed Computing with the Integrated Object Model 87
- References 87

Chapter 6 Access to Relational Databases Using SAS 89

- Introduction: Client/Server Database Management Systems 89
- Overview: SAS/ACCESS to Relational Database Management Systems (RDBMS) 92
 - PROC ACCESS 93
- SQL Pass-Through 97
 - SAS/ACCESS Interface to ODBC 98
 - SAS/ACCESS Interface to OLE DB 100
 - SAS/ACCESS Interface to Microsoft SQL Server 100
 - SAS/ACCESS Interface to PC Files 101
- Conclusion 101
- References 102

Part 3 SAS/IntrNet Software

Chapter 7 SAS/IntrNet: the Application Dispatcher 105

- Overview 105
- Installing the Application Broker 107
- Creating an Application Dispatcher Service 108
 - Defining an Application Dispatcher Service for UNIX or Linux 109
 - Defining an Application Dispatcher Service for Windows 110
- Configuring the Default Application Service 114
- Starting and Stopping the Application Server 115
- Testing the Application Service 119
- Defining Application Server Libraries 121
- Debugging SAS Output 125
- Generating Dynamic Output with the Output Delivery System 129
- References 131

Chapter 8 SAS/IntrNet: htmSQL 133

- SAS/IntrNet Data Services 133
- Configuring the Web Server for htmSQL 134
- htmSQL Directives 136
- Generating Tables with htmSQL 137
- Creating Forms with htmSQL 140
- Defining Data Sources with htmSQL 141
- References 143

Part 4 SAS Enterprise BI Server Web Applications

Chapter 9 SAS Enterprise Business Intelligence 147

- Introduction 147
- SAS Integrated Object Model (IOM) Servers 148
- Applications Programs in SAS Enterprise BI 150
- SAS Client/Server Architecture 152
- Java Web Applications 154
 - Installation and Configuration 154
- References 158

Chapter 10 SAS Information Delivery Portal 159

- Introduction 159
- Getting Started 160
- Customizing Portal Page Properties 165

Collection Portlets	166
Web Reports	172
Standard and Custom Portlets	174
References	175

Chapter 11 Information Maps and OLAP Cubes 177

Introduction	177
SAS Information Map Studio	178
Building a Map Directly with PROC INFOMAPS	182
SAS OLAP Cube Studio	184
Creating Cubes with PROC OLAP	198
Building a Map from a Cube	201
References	205

Chapter 12 SAS Web Report Studio 207

Overview	207
Using the Report Wizard	208
Building a Web Report from an Information Map of an OLAP Cube	217
Formatting the Report	225
Adding a New Section	228
References	231

Chapter 13 SAS Stored Processes and the Stored Process Application 233

Introduction	233
Creating a SAS Stored Process with SAS Enterprise Guide 4.3	234
Running a Stored Process in SAS Enterprise Guide	235
Creating a Stored Process Using SAS Enterprise Guide	238
Using the SAS Stored Process Web Application	251
Running the Web Application	251
SAS Stored Processes in SAS Web Report Studio	254
References	257

Part 5 Developing Web Applications with SAS and Java

Chapter 14 Java Servlets and JavaServer Pages 261

Introduction	261
Java Servlets	262
Creating a JavaServer Page	268

A Simple JSP Example	271
JSP Custom Tag Libraries	273
Database Access Using JDBC and JavaServer Pages	282
Web Archive Files	290
References	293

Chapter 15 SAS AppDev Studio 3.4 Eclipse Plug-in 295

Introduction	295
Configuring SAS AppDev Studio	296
Creating an Initial Project	297
Configure Eclipse Workspace	297
Create the Project and Application Metadata	299
Add the JDBC TableView Template	303
Add a Welcome Page and Run the Application	307
Deploy the Web Application as a WAR File	310
References	311

Chapter 16 SAS BI Web Services 313

Introduction	313
Using PROC SOAP to Send and Receive XML	314
Creating a SAS BI Web Service	319
Creating a New Web Service Using the Web Service Maker Application	324
Create a Stored Process in SAS Management Console	325
Deploy as a Web Service	328
Deleting a Web Service	330
Web Service Definition Language (WSDL) Files	331
Testing the Web Service	333
References	335

Chapter 17 Dynamic HTML with SAS and AJAX 337

Introduction	337
HTML, JavaScript, and SAS/IntrNet	340
JavaScript, JSON and the SAS Stored Process Web Application	345
JavaScript, XML and SAS BI Web Services	349
Epilogue	353
References	354

Index 355
