(dojo-src 1.14.2)

Academic Free License
=====================

v. 2.1
------

This Academic Free License (the "License") applies to any original work of
authorship (the "Original Work") whose owner (the "Licensor") has placed the
following notice immediately following the copyright notice for the Original
Work:

  Licensed under the Academic Free License version 2.1

1) Grant of Copyright License. Licensor hereby grants You a world-wide,
royalty-free, non-exclusive, perpetual, sublicenseable license to do the
following:

  * to reproduce the Original Work in copies;
  * to prepare derivative works ("Derivative Works") based upon the Original
  Work;
  * to distribute copies of the Original Work and Derivative Works to the
  public;
  * to perform the Original Work publicly; and
  * to display the Original Work publicly.

2) Grant of Patent License. Licensor hereby grants You a world-wide,
royalty-free, non-exclusive, perpetual, sublicenseable license, under patent
claims owned or controlled by the Licensor that are embodied in the Original Work
as furnished by the Licensor, to make, use, sell and offer for sale the Original
Work and Derivative Works.

3) Grant of Source Code License. The term "Source Code" means the preferred form
of the Original Work for making modifications to it and all available
```

documentation describing how to modify the Original Work. Licensor hereby agrees to provide a machine-readable copy of the Source Code of the Original Work along with each copy of the Original Work that Licensor distributes. Licensor reserves the right to satisfy this obligation by placing a machine-readable copy of the Source Code in an information repository reasonably calculated to permit inexpensive and convenient access by You for as long as Licensor continues to distribute the Original Work, and by publishing the address of that information repository in a notice immediately following the copyright notice that applies to the Original Work.

4) Exclusions From License Grant. Neither the names of Licensor, nor the names of any contributors to the Original Work, nor any of their trademarks or service marks, may be used to endorse or promote products derived from this Original Work without express prior written permission of the Licensor. Nothing in this License shall be deemed to grant any rights to trademarks, copyrights, patents, trade secrets or any other intellectual property of Licensor except as expressly stated herein. No patent license is granted to make, use, sell or offer to sell embodiments of any patent claims other than the licensed claims defined in Section 2. No right is granted to the trademarks of Licensor even if such marks are included in the Original Work. Nothing in this License shall be interpreted to prohibit Licensor from licensing under different terms from this License any Original Work that Licensor otherwise would have a right to license.

5) This section intentionally omitted.

6) Attribution Rights. You must retain, in the Source Code of any Derivative Works that You create, all copyright, patent or trademark notices from the Source Code of the Original Work, as well as any notices of licensing and any descriptive text identified therein as an "Attribution Notice." You must cause the Source Code for any Derivative Works that You create to carry a prominent Attribution Notice reasonably calculated to inform recipients that You have modified the Original Work.

7) Warranty of Provenance and Disclaimer of Warranty. Licensor warrants that the copyright in and to the Original Work and the patent rights granted herein by Licensor are owned by the Licensor or are sublicensed to You under the terms of this License with the permission of the contributor(s) of those copyrights and patent rights. Except as expressly stated in the immediately proceeding sentence, the Original Work is provided under this License on an "AS IS" BASIS and WITHOUT WARRANTY, either express or implied, including, without limitation, the warranties of NON-INFRINGEMENT, MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY OF THE ORIGINAL WORK IS WITH YOU. This DISCLAIMER OF WARRANTY constitutes an essential part of this License. No license to Original Work is granted hereunder except under this disclaimer.

8) Limitation of Liability. Under no circumstances and under no legal theory, whether in tort (including negligence), contract, or otherwise, shall the Licensor be liable to any person for any direct, indirect, special, incidental, or consequential damages of any character arising as a result of this License or the use of the Original Work including, without limitation, damages for loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses. This limitation of liability shall not apply to liability for death or personal injury resulting from Licensor's negligence to the extent applicable law prohibits such limitation. Some jurisdictions do not allow the exclusion or limitation of incidental or consequential damages, so this exclusion and limitation may not apply to You.

9) Acceptance and Termination. If You distribute copies of the Original Work or a Derivative Work, You must make a reasonable effort under the circumstances to obtain the express assent of recipients to the terms of this License. Nothing else but this License (or another written agreement between Licensor and You) grants You permission to create Derivative Works based upon the Original Work or to exercise any of the rights granted in Section 1 herein, and any attempt to do so except under the terms of this License (or another written agreement between

Licensor and You) is expressly prohibited by U.S. copyright law, the equivalent laws of other countries, and by international treaty. Therefore, by exercising any of the rights granted to You in Section 1 herein, You indicate Your acceptance of this License and all of its terms and conditions.

10) Termination for Patent Action. This License shall terminate automatically and You may no longer exercise any of the rights granted to You by this License as of the date You commence an action, including a cross-claim or counterclaim, against Licensor or any licensee alleging that the Original Work infringes a patent. This termination provision shall not apply for an action alleging patent infringement by combinations of the Original Work with other software or hardware.

11) Jurisdiction, Venue and Governing Law. Any action or suit relating to this License may be brought only in the courts of a jurisdiction wherein the Licensor resides or in which Licensor conducts its primary business, and under the laws of that jurisdiction excluding its conflict-of-law provisions. The application of the United Nations Convention on Contracts for the International Sale of Goods is expressly excluded. Any use of the Original Work outside the scope of this License or after its termination shall be subject to the requirements and penalties of the U.S. Copyright Act, 17 U.S.C. § 101 et seq., the equivalent laws of other countries, and international treaty. This section shall survive the termination of this License.

12) Attorneys Fees. In any action to enforce the terms of this License or seeking damages relating thereto, the prevailing party shall be entitled to recover its costs and expenses, including, without limitation, reasonable attorneys' fees and costs incurred in connection with such action, including any appeal of such action. This section shall survive the termination of this License.

13) Miscellaneous. This License represents the complete agreement concerning the subject matter hereof. If any provision of this License is held to be unenforceable, such provision shall be reformed only to the extent necessary to make it enforceable.

14) Definition of "You" in This License. "You" throughout this License, whether in upper or lower case, means an individual or a legal entity exercising rights under, and complying with all of the terms of, this License. For legal entities, "You" includes any entity that controls, is controlled by, or is under common control with you. For purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

15) Right to Use. You may use the Original Work in all ways not otherwise restricted or conditioned by this License or by law, and Licensor promises not to interfere with or be responsible for such uses by You.

SOFTWARE RIGHTS

ANTLR 1989-2004 Developed by Terence Parr Partially supported by University of San Francisco & jGuru.com

We reserve no legal rights to the ANTLR--it is fully in the public domain. An individual or company may do whatever they wish with source code distributed with ANTLR or the code generated by ANTLR, including the incorporation of ANTLR, or its output, into commerical software.

We encourage users to develop software with ANTLR. However, we do ask that credit is given to us for developing ANTLR. By "credit", we mean that if you use ANTLR or incorporate any source code into one of your programs (commercial product, research project, or otherwise) that you acknowledge this fact somewhere in the documentation, research report, etc... If you like ANTLR and have developed a nice tool with the output, please mention that you developed it using ANTLR. In addition, we ask that the headers remain intact in our source code. As long as these guidelines are kept, we expect to continue enhancing this system and expect to make other tools available as they are completed.

TERMS AND CONDITIONS FOR USE, REPRODUCTION, AND DISTRIBUTION

1. Definitions.

"License" shall mean the terms and conditions for use, reproduction, and distribution as defined by Sections 1 through 9 of this document.

"Licensor" shall mean the copyright owner or entity authorized by the copyright owner that is granting the License.

"Legal Entity" shall mean the union of the acting entity and all other entities that control, are controlled by, or are under common control with that entity. For the purposes of this definition, "control" means (i) the power, direct or indirect, to cause the direction or management of such entity, whether by contract or otherwise, or (ii) ownership of fifty percent (50%) or more of the outstanding shares, or (iii) beneficial ownership of such entity.

"You" (or "Your") shall mean an individual or Legal Entity exercising permissions
granted by this License.

"Source" form shall mean the preferred form for making modifications, including but not limited to software source code, documentation source, and configuration

files.

"Object" form shall mean any form resulting from mechanical transformation or translation of a Source form, including but not limited to compiled object code, generated documentation, and conversions to other media types.

"Work" shall mean the work of authorship, whether in Source or Object form, made available under the License, as indicated by a copyright notice that is included in or attached to the work (an example is provided in the Appendix below).

"Derivative Works" shall mean any work, whether in Source or Object form, that is based on (or derived from) the Work and for which the editorial revisions, annotations, elaborations, or other modifications represent, as a whole, an original work of authorship. For the purposes of this License, Derivative Works shall not include works that remain separable from, or merely link (or bind by name) to the interfaces of, the Work and Derivative Works thereof.

"Contribution" shall mean any work of authorship, including the original version of the Work and any modifications or additions to that Work or Derivative Works thereof, that is intentionally submitted to Licensor for inclusion in the Work by the copyright owner or by an individual or Legal Entity authorized to submit on behalf of the copyright owner. For the purposes of this definition, "submitted" means any form of electronic, verbal, or written communication sent to the Licensor or its representatives, including but not limited to communication on electronic mailing lists, source code control systems, and issue tracking systems that are managed by, or on behalf of, the Licensor for the purpose of discussing and improving the Work, but excluding communication that is conspicuously marked or otherwise designated in writing by the copyright owner as "Not a Contribution."

"Contributor" shall mean Licensor and any individual or Legal Entity on behalf of whom a Contribution has been received by Licensor and subsequently incorporated within the Work.

2. Grant of Copyright License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable copyright license to reproduce, prepare Derivative Works of, publicly display, publicly perform, sublicense, and distribute the Work and such Derivative Works in Source or Object form.

3. Grant of Patent License. Subject to the terms and conditions of this License, each Contributor hereby grants to You a perpetual, worldwide, non-exclusive, no-charge, royalty-free, irrevocable (except as stated in this section) patent license to make, have made, use, offer to sell, sell, import, and otherwise transfer the Work, where such license applies only to those patent claims licensable by such Contributor that are necessarily infringed by their Contribution(s) alone or by combination of their Contribution(s) with the Work to which such Contribution(s) was submitted. If You institute patent litigation against any entity (including a cross-claim or counterclaim in a lawsuit) alleging that the Work or a Contribution incorporated within the Work constitutes direct or contributory patent infringement, then any patent licenses granted to You under this License for that Work shall terminate as of the date such litigation is filed.

4. Redistribution. You may reproduce and distribute copies of the Work or Derivative Works thereof in any medium, with or without modifications, and in Source or Object form, provided that You meet the following conditions:

  a. You must give any other recipients of the Work or Derivative Works a copy of this License; and

  b. You must cause any modified files to carry prominent notices stating that You changed the files; and

c. You must retain, in the Source form of any Derivative Works that You
      distribute, all copyright, patent, trademark, and attribution notices from
      the Source form of the Work, excluding those notices that do not pertain to
      any part of the Derivative Works; and

   d. If the Work includes a "NOTICE" text file as part of its distribution, then
      any Derivative Works that You distribute must include a readable copy of the
      attribution notices contained within such NOTICE file, excluding those
      notices that do not pertain to any part of the Derivative Works, in at least
      one of the following places: within a NOTICE text file distributed as part of
      the Derivative Works; within the Source form or documentation, if provided
      along with the Derivative Works; or, within a display generated by the
      Derivative Works, if and wherever such third-party notices normally appear.
      The contents of the NOTICE file are for informational purposes only and do
      not modify the License. You may add Your own attribution notices within
      Derivative Works that You distribute, alongside or as an addendum to the
      NOTICE text from the Work, provided that such additional attribution notices
      cannot be construed as modifying the License.

You may add Your own copyright statement to Your modifications and may provide
additional or different license terms and conditions for use, reproduction, or
distribution of Your modifications, or for any such Derivative Works as a whole,
provided Your use, reproduction, and distribution of the Work otherwise complies
with the conditions stated in this License.

5. Submission of Contributions. Unless You explicitly state otherwise, any
Contribution intentionally submitted for inclusion in the Work by You to the
Licensor shall be under the terms and conditions of this License, without any
additional terms or conditions. Notwithstanding the above, nothing herein shall
supersede or modify the terms of any separate license agreement you may have
executed with Licensor regarding such Contributions.

6. Trademarks. This License does not grant permission to use the trade names,
trademarks, service marks, or product names of the Licensor, except as required
for reasonable and customary use in describing the origin of the Work and
reproducing the content of the NOTICE file.

7. Disclaimer of Warranty. Unless required by applicable law or agreed to in
writing, Licensor provides the Work (and each Contributor provides its
Contributions) on an "AS IS" BASIS, WITHOUT WARRANTIES OR CONDITIONS OF ANY KIND,
either express or implied, including, without limitation, any warranties or
conditions of TITLE, NON-INFRINGEMENT, MERCHANTABILITY, or FITNESS FOR A
PARTICULAR PURPOSE. You are solely responsible for determining the
appropriateness of using or redistributing the Work and assume any risks
associated with Your exercise of permissions under this License.

8. Limitation of Liability. In no event and under no legal theory, whether in
tort (including negligence), contract, or otherwise, unless required by
applicable law (such as deliberate and grossly negligent acts) or agreed to in
writing, shall any Contributor be liable to You for damages, including any
direct, indirect, special, incidental, or consequential damages of any character
arising as a result of this License or out of the use or inability to use the
Work (including but not limited to damages for loss of goodwill, work stoppage,
computer failure or malfunction, or any and all other commercial damages or
losses), even if such Contributor has been advised of the possibility of such
damages.

9. Accepting Warranty or Additional Liability. While redistributing the Work or
Derivative Works thereof, You may choose to offer, and charge a fee for,
acceptance of support, warranty, indemnity, or other liability obligations and/or
rights consistent with this License. However, in accepting such obligations, You
may act only on Your own behalf and on Your sole responsibility, not on behalf of
any other Contributor, and only if You agree to indemnify, defend, and hold each

Contributor harmless for any liability incurred by, or claims asserted against, such Contributor by reason of your accepting any such warranty or additional liability.

END OF TERMS AND CONDITIONS

APPENDIX: How to apply the Apache License to your work

To apply the Apache License to your work, attach the following boilerplate notice, with the fields enclosed by brackets "[]" replaced with your own identifying information. (Don't include the brackets!) The text should be enclosed in the appropriate comment syntax for the file format. We also recommend that a file or class name and description of purpose be included on the same "printed page" as the copyright notice for easier identification within third-party archives.

Creative Commons CC0 1.0 Universal
==================================

Creative Commons Legal Code

CC0 1.0 Universal

Statement of Purpose

The laws of most jurisdictions throughout the world automatically confer
exclusive Copyright and Related Rights (defined below) upon the creator and
subsequent owner(s) (each and all, an "owner") of an original work of authorship
and/or a database (each, a "Work").

Certain owners wish to permanently relinquish those rights to a Work for the
purpose of contributing to a commons of creative, cultural and scientific works
("Commons") that the public can reliably and without fear of later claims of
infringement build upon, modify, incorporate in other works, reuse and
redistribute as freely as possible in any form whatsoever and for any purposes,
including without limitation commercial purposes. These owners may contribute to
the Commons to promote the ideal of a free culture and the further production of
creative, cultural and scientific works, or to gain reputation or greater
distribution for their Work in part through the use and efforts of others.

For these and/or other purposes and motivations, and without any expectation of
additional consideration or compensation, the person associating CC0 with a Work
(the "Affirmer"), to the extent that he or she is an owner of Copyright and
Related Rights in the Work, voluntarily elects to apply CC0 to the Work and
publicly distribute the Work under its terms, with knowledge of his or her
Copyright and Related Rights in the Work and the meaning and intended legal
effect of CC0 on those rights.

1. Copyright and Related Rights. A Work made available under CC0 may be protected
by copyright and related or neighboring rights ("Copyright and Related Rights").
Copyright and Related Rights include, but are not limited to, the following:

  i. the right to reproduce, adapt, distribute, perform, display, communicate,
    and translate a Work;

  ii. moral rights retained by the original author(s) and/or performer(s);

  iii. publicity and privacy rights pertaining to a person's image or likeness
    depicted in a Work;

  iv. rights protecting against unfair competition in regards to a Work, subject
    to the limitations in paragraph 4(a), below;

  v. rights protecting the extraction, dissemination, use and reuse of data in a

Work;

   vi. database rights (such as those arising under Directive 96/9/EC of the
     European Parliament and of the Council of 11 March 1996 on the legal
     protection of databases, and under any national implementation thereof,
     including any amended or successor version of such directive); and

   vii. other similar, equivalent or corresponding rights throughout the world
     based on applicable law or treaty, and any national implementations thereof.

2. Waiver. To the greatest extent permitted by, but not in contravention of,
applicable law, Affirmer hereby overtly, fully, permanently, irrevocably and
unconditionally waives, abandons, and surrenders all of Affirmer's Copyright and
Related Rights and associated claims and causes of action, whether now known or
unknown (including existing as well as future claims and causes of action), in
the Work

   i. in all territories worldwide,

   ii. for the maximum duration provided by applicable law or treaty (including
     future time extensions),

   iii. in any current or future medium and for any number of copies, and

   iv. for any purpose whatsoever, including without limitation commercial,
     advertising or promotional purposes (the "Waiver").

Affirmer makes the Waiver for the benefit of each member of the public at large
and to the detriment of Affirmer's heirs and successors, fully intending that
such Waiver shall not be subject to revocation, rescission, cancellation,
termination, or any other legal or equitable action to disrupt the quiet
enjoyment of the Work by the public as contemplated by Affirmer's express
Statement of Purpose.

3. Public License Fallback. Should any part of the Waiver for any reason be
judged legally invalid or ineffective under applicable law, then the Waiver shall
be preserved to the maximum extent permitted taking into account Affirmer's
express Statement of Purpose. In addition, to the extent the Waiver is so judged
Affirmer hereby grants to each affected person a royalty-free, non transferable,
non sublicensable, non exclusive, irrevocable and unconditional license to
exercise Affirmer's Copyright and Related Rights in the Work

   i. in all territories worldwide,

   ii. for the maximum duration provided by applicable law or treaty (including
     future time extensions),

   iii. in any current or future medium and for any number of copies, and

   iv. for any purpose whatsoever, including without limitation commercial,
     advertising or promotional purposes (the "License").

The License shall be deemed effective as of the date CC0 was applied by Affirmer
to the Work. Should any part of the License for any reason be judged legally
invalid or ineffective under applicable law, such partial invalidity or
ineffectiveness shall not invalidate the remainder of the License, and in such
case Affirmer hereby affirms that he or she will not

   i. exercise any of his or her remaining Copyright and Related Rights in the
     Work or

   ii. assert any associated claims and causes of action with respect to the
     Work, in either case contrary to Affirmer's express Statement of Purpose.

4. Limitations and Disclaimers.

  a. No trademark or patent rights held by Affirmer are waived, abandoned,
     surrendered, licensed or otherwise affected by this document.

  b. Affirmer offers the Work as-is and makes no representations or warranties of
     any kind concerning the Work, express, implied, statutory or otherwise,
     including without limitation warranties of title, merchantability, fitness
     for a particular purpose, non infringement, or the absence of latent or other
     defects, accuracy, or the present or absence of errors, whether or not
     discoverable, all to the greatest extent permissible under applicable law.

  c. Affirmer disclaims responsibility for clearing rights of other persons that
     may apply to the Work or any use thereof, including without limitation any
     person's Copyright and Related Rights in the Work. Further, Affirmer
     disclaims responsibility for obtaining any necessary consents, permissions or
     other rights required for any use of the Work.

  d. Affirmer understands and acknowledges that Creative Commons is not a party
     to this document and has no duty or obligation with respect to this CC0 or
     use of the Work.

GNU GENERAL PUBLIC LICENSE
==========================

Version 3,Â Â 29 June 2007

Copyright (C) 2007 Free Software Foundation, Inc. <http://fsf.org/>

Everyone is permitted to copy and distribute verbatim copies of this license
document, but changing it is not allowed.

Preamble

The GNU General Public License is a free, copyleft license for software and other
kinds of works.

The licenses for most software and other practical works are designed to take

away your freedom to share and change the works. By contrast, the GNU General
Public License is intended to guarantee your freedom to share and change all
versions of a program--to make sure it remains free software for all its users.
We, the Free Software Foundation, use the GNU General Public License for most of
our software; it applies also to any other work released this way by its authors.
You can apply it to your programs, too.

When we speak of free software, we are referring to freedom, not price. Our
General Public Licenses are designed to make sure that you have the freedom to
distribute copies of free software (and charge for them if you wish), that you
receive source code or can get it if you want it, that you can change the
software or use pieces of it in new free programs, and that you know you can do
these things.

To protect your rights, we need to prevent others from denying you these rights
or asking you to surrender the rights. Therefore, you have certain
responsibilities if you distribute copies of the software, or if you modify it:
responsibilities to respect the freedom of others.

For example, if you distribute copies of such a program, whether gratis or for a
fee, you must pass on to the recipients the same freedoms that you received. You
must make sure that they, too, receive or can get the source code. And you must
show them these terms so they know their rights.

Developers that use the GNU GPL protect your rights with two steps: (1) assert
copyright on the software, and (2) offer you this License giving you legal
permission to copy, distribute and/or modify it.

For the developers' and authors' protection, the GPL clearly explains that there
is no warranty for this free software. For both users' and authors' sake, the GPL
requires that modified versions be marked as changed, so that their problems will
not be attributed erroneously to authors of previous versions.

Some devices are designed to deny users access to install or run modified
versions of the software inside them, although the manufacturer can do so. This
is fundamentally incompatible with the aim of protecting users' freedom to change
the software. The systematic pattern of such abuse occurs in the area of products
for individuals to use, which is precisely where it is most unacceptable.
Therefore, we have designed this version of the GPL to prohibit the practice for
those products. If such problems arise substantially in other domains, we stand
ready to extend this provision to those domains in future versions of the GPL, as
needed to protect the freedom of users.

Finally, every program is threatened constantly by software patents. States
should not allow patents to restrict development and use of software on
general-purpose computers, but in those that do, we wish to avoid the special
danger that patents applied to a free program could make it effectively
proprietary. To prevent this, the GPL assures that patents cannot be used to
render the program non-free.

The precise terms and conditions for copying, distribution and modification
follow.

TERMS AND CONDITIONS

0. Definitions.

â€œThis Licenseâ€ refers to version 3 of the GNU General Public License.

â€œCopyrightâ€ also means copyright-like laws that apply to other kinds of works,
such as semiconductor masks.

â€œThe Programâ€ refers to any copyrightable work licensed under this License. Each

licensee is addressed as â€œyouâ€. â€œLicenseesâ€ and â€œrecipientsâ€ may be individuals or organizations.

To â€œmodifyâ€ a work means to copy from or adapt all or part of the work in a fashion requiring copyright permission, other than the making of an exact copy. The resulting work is called a â€œmodified versionâ€ of the earlier work or a work â€œbased onâ€ the earlier work.

A â€œcovered workâ€ means either the unmodified Program or a work based on the Program.

To â€œpropagateâ€ a work means to do anything with it that, without permission, would make you directly or secondarily liable for infringement under applicable copyright law, except executing it on a computer or modifying a private copy. Propagation includes copying, distribution (with or without modification), making available to the public, and in some countries other activities as well.

To â€œconveyâ€ a work means any kind of propagation that enables other parties to make or receive copies. Mere interaction with a user through a computer network, with no transfer of a copy, is not conveying.

An interactive user interface displays â€œAppropriate Legal Noticesâ€ to the extent that it includes a convenient and prominently visible feature that (1) displays an appropriate copyright notice, and (2) tells the user that there is no warranty for the work (except to the extent that warranties are provided), that licensees may convey the work under this License, and how to view a copy of this License. If the interface presents a list of user commands or options, such as a menu, a prominent item in the list meets this criterion.

1. Source Code.

The â€œsource codeâ€ for a work means the preferred form of the work for making modifications to it. â€œObject codeâ€ means any non-source form of a work.

A â€œStandard Interfaceâ€ means an interface that either is an official standard defined by a recognized standards body, or, in the case of interfaces specified for a particular programming language, one that is widely used among developers working in that language.

The â€œSystem Librariesâ€ of an executable work include anything, other than the work as a whole, that (a) is included in the normal form of packaging a Major Component, but which is not part of that Major Component, and (b) serves only to enable use of the work with that Major Component, or to implement a Standard Interface for which an implementation is available to the public in source code form. A â€œMajor Componentâ€, in this context, means a major essential component (kernel, window system, and so on) of the specific operating system (if any) on which the executable work runs, or a compiler used to produce the work, or an object code interpreter used to run it.

The â€œCorresponding Sourceâ€ for a work in object code form means all the source code needed to generate, install, and (for an executable work) run the object code and to modify the work, including scripts to control those activities. However, it does not include the work's System Libraries, or general-purpose tools or generally available free programs which are used unmodified in performing those activities but which are not part of the work. For example, Corresponding Source includes interface definition files associated with source files for the work, and the source code for shared libraries and dynamically linked subprograms that the work is specifically designed to require, such as by intimate data communication or control flow between those subprograms and other parts of the work.

The Corresponding Source need not include anything that users can regenerate automatically from other parts of the Corresponding Source.

The Corresponding Source for a work in source code form is that same work.

2. Basic Permissions.

All rights granted under this License are granted for the term of copyright on the Program, and are irrevocable provided the stated conditions are met. This License explicitly affirms your unlimited permission to run the unmodified Program. The output from running a covered work is covered by this License only if the output, given its content, constitutes a covered work. This License acknowledges your rights of fair use or other equivalent, as provided by copyright law.

You may make, run and propagate covered works that you do not convey, without conditions so long as your license otherwise remains in force. You may convey covered works to others for the sole purpose of having them make modifications exclusively for you, or provide you with facilities for running those works, provided that you comply with the terms of this License in conveying all material for which you do not control copyright. Those thus making or running the covered works for you must do so exclusively on your behalf, under your direction and control, on terms that prohibit them from making any copies of your copyrighted material outside their relationship with you.

Conveying under any other circumstances is permitted solely under the conditions stated below. Sublicensing is not allowed; section 10 makes it unnecessary.

3. Protecting Users' Legal Rights From Anti-Circumvention Law.

No covered work shall be deemed part of an effective technological measure under any applicable law fulfilling obligations under article 11 of the WIPO copyright treaty adopted on 20 December 1996, or similar laws prohibiting or restricting circumvention of such measures.

When you convey a covered work, you waive any legal power to forbid circumvention of technological measures to the extent such circumvention is effected by exercising rights under this License with respect to the covered work, and you disclaim any intention to limit operation or modification of the work as a means of enforcing, against the work's users, your or third parties' legal rights to forbid circumvention of technological measures.

4. Conveying Verbatim Copies.

You may convey verbatim copies of the Program's source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice; keep intact all notices stating that this License and any non-permissive terms added in accord with section 7 apply to the code; keep intact all notices of the absence of any warranty; and give all recipients a copy of this License along with the Program.

You may charge any price or no price for each copy that you convey, and you may offer support or warranty protection for a fee.

5. Conveying Modified Source Versions.

You may convey a work based on the Program, or the modifications to produce it from the Program, in the form of source code under the terms of section 4, provided that you also meet all of these conditions:

  * a) The work must carry prominent notices stating that you modified it, and giving a relevant date.

  * b) The work must carry prominent notices stating that it is released under this License and any conditions added under section 7. This requirement modifies the requirement in section 4 to â€œkeep intact all noticesâ€.

* c) You must license the entire work, as a whole, under this License to anyone
      who comes into possession of a copy. This License will therefore apply, along
      with any applicable section 7 additional terms, to the whole of the work, and
      all its parts, regardless of how they are packaged. This License gives no
      permission to license the work in any other way, but it does not invalidate
      such permission if you have separately received it.

    * d) If the work has interactive user interfaces, each must display Appropriate
      Legal Notices; however, if the Program has interactive interfaces that do not
      display Appropriate Legal Notices, your work need not make them do so.

A compilation of a covered work with other separate and independent works, which
are not by their nature extensions of the covered work, and which are not
combined with it such as to form a larger program, in or on a volume of a storage
or distribution medium, is called an "aggregate" if the compilation and its
resulting copyright are not used to limit the access or legal rights of the
compilation's users beyond what the individual works permit. Inclusion of a
covered work in an aggregate does not cause this License to apply to the other
parts of the aggregate.

6. Conveying Non-Source Forms.

You may convey a covered work in object code form under the terms of sections 4
and 5, provided that you also convey the machine-readable Corresponding Source
under the terms of this License, in one of these ways:

  * a) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by the Corresponding Source fixed
    on a durable physical medium customarily used for software interchange.

  * b) Convey the object code in, or embodied in, a physical product (including a
    physical distribution medium), accompanied by a written offer, valid for at
    least three years and valid for as long as you offer spare parts or customer
    support for that product model, to give anyone who possesses the object code
    either (1) a copy of the Corresponding Source for all the software in the
    product that is covered by this License, on a durable physical medium
    customarily used for software interchange, for a price no more than your
    reasonable cost of physically performing this conveying of source, or (2)
    access to copy the Corresponding Source from a network server at no charge.

  * c) Convey individual copies of the object code with a copy of the written
    offer to provide the Corresponding Source. This alternative is allowed only
    occasionally and noncommercially, and only if you received the object code
    with such an offer, in accord with subsection 6b.

  * d) Convey the object code by offering access from a designated place (gratis
    or for a charge), and offer equivalent access to the Corresponding Source in
    the same way through the same place at no further charge. You need not
    require recipients to copy the Corresponding Source along with the object
    code. If the place to copy the object code is a network server, the
    Corresponding Source may be on a different server (operated by you or a third
    party) that supports equivalent copying facilities, provided you maintain
    clear directions next to the object code saying where to find the
    Corresponding Source. Regardless of what server hosts the Corresponding
    Source, you remain obligated to ensure that it is available for as long as
    needed to satisfy these requirements.

  * e) Convey the object code using peer-to-peer transmission, provided you
    inform other peers where the object code and Corresponding Source of the work
    are being offered to the general public at no charge under subsection 6d.

A separable portion of the object code, whose source code is excluded from the
Corresponding Source as a System Library, need not be included in conveying the
object code work.

A "User Product" is either (1) a "consumer product", which means any tangible personal property which is normally used for personal, family, or household purposes, or (2) anything designed or sold for incorporation into a dwelling. In determining whether a product is a consumer product, doubtful cases shall be resolved in favor of coverage. For a particular product received by a particular user, "normally used" refers to a typical or common use of that class of product, regardless of the status of the particular user or of the way in which the particular user actually uses, or expects or is expected to use, the product. A product is a consumer product regardless of whether the product has substantial commercial, industrial or non-consumer uses, unless such uses represent the only significant mode of use of the product.

"Installation Information" for a User Product means any methods, procedures, authorization keys, or other information required to install and execute modified versions of a covered work in that User Product from a modified version of its Corresponding Source. The information must suffice to ensure that the continued functioning of the modified object code is in no case prevented or interfered with solely because modification has been made.

If you convey an object code work under this section in, or with, or specifically for use in, a User Product, and the conveying occurs as part of a transaction in which the right of possession and use of the User Product is transferred to the recipient in perpetuity or for a fixed term (regardless of how the transaction is characterized), the Corresponding Source conveyed under this section must be accompanied by the Installation Information. But this requirement does not apply if neither you nor any third party retains the ability to install modified object code on the User Product (for example, the work has been installed in ROM).

The requirement to provide Installation Information does not include a requirement to continue to provide support service, warranty, or updates for a work that has been modified or installed by the recipient, or for the User Product in which it has been modified or installed. Access to a network may be denied when the modification itself materially and adversely affects the operation of the network or violates the rules and protocols for communication across the network.

Corresponding Source conveyed, and Installation Information provided, in accord with this section must be in a format that is publicly documented (and with an implementation available to the public in source code form), and must require no special password or key for unpacking, reading or copying.

7. Additional Terms.

"Additional permissions" are terms that supplement the terms of this License by making exceptions from one or more of its conditions. Additional permissions that are applicable to the entire Program shall be treated as though they were included in this License, to the extent that they are valid under applicable law. If additional permissions apply only to part of the Program, that part may be used separately under those permissions, but the entire Program remains governed by this License without regard to the additional permissions.

When you convey a copy of a covered work, you may at your option remove any additional permissions from that copy, or from any part of it. (Additional permissions may be written to require their own removal in certain cases when you modify the work.) You may place additional permissions on material, added by you to a covered work, for which you have or can give appropriate copyright permission.

Notwithstanding any other provision of this License, for material you add to a covered work, you may (if authorized by the copyright holders of that material) supplement the terms of this License with terms:

  * a) Disclaiming warranty or limiting liability differently from the terms of

sections 15 and 16 of this License; or

  * b) Requiring preservation of specified reasonable legal notices or author
    attributions in that material or in the Appropriate Legal Notices displayed
    by works containing it; or

  * c) Prohibiting misrepresentation of the origin of that material, or requiring
    that modified versions of such material be marked in reasonable ways as
    different from the original version; or

  * d) Limiting the use for publicity purposes of names of licensors or authors
    of the material; or

  * e) Declining to grant rights under trademark law for use of some trade names,
    trademarks, or service marks; or

  * f) Requiring indemnification of licensors and authors of that material by
    anyone who conveys the material (or modified versions of it) with contractual
    assumptions of liability to the recipient, for any liability that these
    contractual assumptions directly impose on those licensors and authors.

All other non-permissive additional terms are considered â€œfurther restrictionsâ€
within the meaning of section 10. If the Program as you received it, or any part
of it, contains a notice stating that it is governed by this License along with a
term that is a further restriction, you may remove that term. If a license
document contains a further restriction but permits relicensing or conveying
under this License, you may add to a covered work material governed by the terms
of that license document, provided that the further restriction does not survive
such relicensing or conveying.

If you add terms to a covered work in accord with this section, you must place,
in the relevant source files, a statement of the additional terms that apply to
those files, or a notice indicating where to find the applicable terms.

Additional terms, permissive or non-permissive, may be stated in the form of a
separately written license, or stated as exceptions; the above requirements apply
either way.

8. Termination.

You may not propagate or modify a covered work except as expressly provided under
this License. Any attempt otherwise to propagate or modify it is void, and will
automatically terminate your rights under this License (including any patent
licenses granted under the third paragraph of section 11).

However, if you cease all violation of this License, then your license from a
particular copyright holder is reinstated (a) provisionally, unless and until the
copyright holder explicitly and finally terminates your license, and (b)
permanently, if the copyright holder fails to notify you of the violation by some
reasonable means prior to 60 days after the cessation.

Moreover, your license from a particular copyright holder is reinstated
permanently if the copyright holder notifies you of the violation by some
reasonable means, this is the first time you have received notice of violation of
this License (for any work) from that copyright holder, and you cure the
violation prior to 30 days after your receipt of the notice.

Termination of your rights under this section does not terminate the licenses of
parties who have received copies or rights from you under this License. If your
rights have been terminated and not permanently reinstated, you do not qualify to
receive new licenses for the same material under section 10.

9. Acceptance Not Required for Having Copies.

You are not required to accept this License in order to receive or run a copy of the Program. Ancillary propagation of a covered work occurring solely as a consequence of using peer-to-peer transmission to receive a copy likewise does not require acceptance. However, nothing other than this License grants you permission to propagate or modify any covered work. These actions infringe copyright if you do not accept this License. Therefore, by modifying or propagating a covered work, you indicate your acceptance of this License to do so.

10. Automatic Licensing of Downstream Recipients.

Each time you convey a covered work, the recipient automatically receives a license from the original licensors, to run, modify and propagate that work, subject to this License. You are not responsible for enforcing compliance by third parties with this License.

An â€œentity transactionâ€ is a transaction transferring control of an organization, or substantially all assets of one, or subdividing an organization, or merging organizations. If propagation of a covered work results from an entity transaction, each party to that transaction who receives a copy of the work also receives whatever licenses to the work the party's predecessor in interest had or could give under the previous paragraph, plus a right to possession of the Corresponding Source of the work from the predecessor in interest, if the predecessor has it or can get it with reasonable efforts.

You may not impose any further restrictions on the exercise of the rights granted or affirmed under this License. For example, you may not impose a license fee, royalty, or other charge for exercise of rights granted under this License, and you may not initiate litigation (including a cross-claim or counterclaim in a lawsuit) alleging that any patent claim is infringed by making, using, selling, offering for sale, or importing the Program or any portion of it.

11. Patents.

A â€œcontributorâ€ is a copyright holder who authorizes use under this License of the Program or a work on which the Program is based. The work thus licensed is called the contributor's â€œcontributor versionâ€.

A contributor's â€œessential patent claimsâ€ are all patent claims owned or controlled by the contributor, whether already acquired or hereafter acquired, that would be infringed by some manner, permitted by this License, of making, using, or selling its contributor version, but do not include claims that would be infringed only as a consequence of further modification of the contributor version. For purposes of this definition, â€œcontrolâ€ includes the right to grant patent sublicenses in a manner consistent with the requirements of this License.

Each contributor grants you a non-exclusive, worldwide, royalty-free patent license under the contributor's essential patent claims, to make, use, sell, offer for sale, import and otherwise run, modify and propagate the contents of its contributor version.

In the following three paragraphs, a â€œpatent licenseâ€ is any express agreement or commitment, however denominated, not to enforce a patent (such as an express permission to practice a patent or covenant not to sue for patent infringement). To â€œgrantâ€ such a patent license to a party means to make such an agreement or commitment not to enforce a patent against the party.

If you convey a covered work, knowingly relying on a patent license, and the Corresponding Source of the work is not available for anyone to copy, free of charge and under the terms of this License, through a publicly available network server or other readily accessible means, then you must either (1) cause the Corresponding Source to be so available, or (2) arrange to deprive yourself of the benefit of the patent license for this particular work, or (3) arrange, in a manner consistent with the requirements of this License, to extend the patent

license to downstream recipients. â€œKnowingly relyingâ€ means you have actual
knowledge that, but for the patent license, your conveying the covered work in a
country, or your recipient's use of the covered work in a country, would infringe
one or more identifiable patents in that country that you have reason to believe
are valid.

If, pursuant to or in connection with a single transaction or arrangement, you
convey, or propagate by procuring conveyance of, a covered work, and grant a
patent license to some of the parties receiving the covered work authorizing them
to use, propagate, modify or convey a specific copy of the covered work, then the
patent license you grant is automatically extended to all recipients of the
covered work and works based on it.

A patent license is â€œdiscriminatoryâ€ if it does not include within the scope of
its coverage, prohibits the exercise of, or is conditioned on the non-exercise of
one or more of the rights that are specifically granted under this License. You
may not convey a covered work if you are a party to an arrangement with a third
party that is in the business of distributing software, under which you make
payment to the third party based on the extent of your activity of conveying the
work, and under which the third party grants, to any of the parties who would
receive the covered work from you, a discriminatory patent license (a) in
connection with copies of the covered work conveyed by you (or copies made from
those copies), or (b) primarily for and in connection with specific products or
compilations that contain the covered work, unless you entered into that
arrangement, or that patent license was granted, prior to 28 March 2007.

Nothing in this License shall be construed as excluding or limiting any implied
license or other defenses to infringement that may otherwise be available to you
under applicable patent law.

12. No Surrender of Others' Freedom.

If conditions are imposed on you (whether by court order, agreement or otherwise)
that contradict the conditions of this License, they do not excuse you from the
conditions of this License. If you cannot convey a covered work so as to satisfy
simultaneously your obligations under this License and any other pertinent
obligations, then as a consequence you may not convey it at all. For example, if
you agree to terms that obligate you to collect a royalty for further conveying
from those to whom you convey the Program, the only way you could satisfy both
those terms and this License would be to refrain entirely from conveying the
Program.

13. Use with the GNU Affero General Public License.

Notwithstanding any other provision of this License, you have permission to link
or combine any covered work with a work licensed under version 3 of the GNU
Affero General Public License into a single combined work, and to convey the
resulting work. The terms of this License will continue to apply to the part
which is the covered work, but the special requirements of the GNU Affero General
Public License, section 13, concerning interaction through a network will apply
to the combination as such.

14. Revised Versions of this License.

The Free Software Foundation may publish revised and/or new versions of the GNU
General Public License from time to time. Such new versions will be similar in
spirit to the present version, but may differ in detail to address new problems
or concerns.

Each version is given a distinguishing version number. If the Program specifies
that a certain numbered version of the GNU General Public License â€œor any later
versionâ€ applies to it, you have the option of following the terms and conditions
either of that numbered version or of any later version published by the Free
Software Foundation. If the Program does not specify a version number of the GNU

General Public License, you may choose any version ever published by the Free
Software Foundation.

If the Program specifies that a proxy can decide which future versions of the GNU
General Public License can be used, that proxy's public statement of acceptance
of a version permanently authorizes you to choose that version for the Program.

Later license versions may give you additional or different permissions. However,
no additional obligations are imposed on any author or copyright holder as a
result of your choosing to follow a later version.

15. Disclaimer of Warranty.

THERE IS NO WARRANTY FOR THE PROGRAM, TO THE EXTENT PERMITTED BY APPLICABLE LAW.
EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER
PARTIES PROVIDE THE PROGRAM â€œAS ISâ€ WITHOUT WARRANTY OF ANY KIND, EITHER
EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF
MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE
QUALITY AND PERFORMANCE OF THE PROGRAM IS WITH YOU. SHOULD THE PROGRAM PROVE
DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. Limitation of Liability.

IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY
COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MODIFIES AND/OR CONVEYS THE PROGRAM AS
PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL,
INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE
THE PROGRAM (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED
INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE
PROGRAM TO OPERATE WITH ANY OTHER PROGRAMS), EVEN IF SUCH HOLDER OR OTHER PARTY
HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

17. Interpretation of Sections 15 and 16.

If the disclaimer of warranty and limitation of liability provided above cannot
be given local legal effect according to their terms, reviewing courts shall
apply local law that most closely approximates an absolute waiver of all civil
liability in connection with the Program, unless a warranty or assumption of
liability accompanies a copy of the Program in return for a fee.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Programs

If you develop a new program, and you want it to be of the greatest possible use
to the public, the best way to achieve this is to make it free software which
everyone can redistribute and change under these terms.

To do so, attach the following notices to the program. It is safest to attach
them to the start of each source file to most effectively state the exclusion of
warranty; and each file should have at least the â€œcopyrightâ€ line and a pointer
to where the full notice is found.

    <one line to give the program's name and a brief idea of what it
does.>
    Copyright (C) <year> <name of author>

    This program is free software: you can redistribute it and/or modify
    it under the terms of the GNU General Public License as published by

If the program does terminal interaction, make it output a short notice like this
when it starts in an interactive mode:

        <program> Copyright (C) <year> <name of author>

        This program comes with ABSOLUTELY NO WARRANTY; for details type `show w'.
        This is free software, and you are welcome to redistribute it
        under certain conditions; type `show c' for details.

The hypothetical commands `show w' and `show c' should show the appropriate parts
of the General Public License. Of course, your program's commands might be
different; for a GUI interface, you would use an "about box".

You should also get your employer (if you work as a programmer) or school, if
any, to sign a "copyright disclaimer" for the program, if necessary. For more
information on this, and how to apply and follow the GNU GPL, see
<http://www.gnu.org/licenses/>.

The GNU General Public License does not permit incorporating your program into
proprietary programs. If your program is a subroutine library, you may consider
it more useful to permit linking proprietary applications with the library. If
this is what you want to do, use the GNU Lesser General Public License instead of
this License. But first, please read

GNU Lesser General Public License
=================================

Version 2.1, February 1999

        Copyright (C) 1991, 1999 Free Software Foundation, Inc.

        59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

        Everyone is permitted to copy and distribute verbatim copies

        of this license document, but changing it is not allowed.

        [This is the first released version of the Lesser GPL. It also counts

        as the successor of the GNU Library Public License, version 2, hence

        the version number 2.1.]

Preamble

The licenses for most software are designed to take away your freedom to share
and change it. By contrast, the GNU General Public Licenses are intended to

guarantee your freedom to share and change free software--to make sure the
software is free for all its users.

This license, the Lesser General Public License, applies to some specially
designated software packages--typically libraries--of the Free Software
Foundation and other authors who decide to use it. You can use it too, but we
suggest you first think carefully about whether this license or the ordinary
General Public License is the better strategy to use in any particular case,
based on the explanations below.

When we speak of free software, we are referring to freedom of use, not price.
Our General Public Licenses are designed to make sure that you have the freedom
to distribute copies of free software (and charge for this service if you wish);
that you receive source code or can get it if you want it; that you can change
the software and use pieces of it in new free programs; and that you are informed
that you can do these things.

To protect your rights, we need to make restrictions that forbid distributors to
deny you these rights or to ask you to surrender these rights. These restrictions
translate to certain responsibilities for you if you distribute copies of the
library or if you modify it.

For example, if you distribute copies of the library, whether gratis or for a
fee, you must give the recipients all the rights that we gave you. You must make
sure that they, too, receive or can get the source code. If you link other code
with the library, you must provide complete object files to the recipients, so
that they can relink them with the library after making changes to the library
and recompiling it. And you must show them these terms so they know their rights.

We protect your rights with a two-step method: (1) we copyright the library, and
(2) we offer you this license, which gives you legal permission to copy,
distribute and/or modify the library.

To protect each distributor, we want to make it very clear that there is no
warranty for the free library. Also, if the library is modified by someone else
and passed on, the recipients should know that what they have is not the original
version, so that the original author's reputation will not be affected by
problems that might be introduced by others.

Finally, software patents pose a constant threat to the existence of any free
program. We wish to make sure that a company cannot effectively restrict the
users of a free program by obtaining a restrictive license from a patent holder.
Therefore, we insist that any patent license obtained for a version of the
library must be consistent with the full freedom of use specified in this
license.

Most GNU software, including some libraries, is covered by the ordinary GNU
General Public License. This license, the GNU Lesser General Public License,
applies to certain designated libraries, and is quite different from the ordinary
General Public License. We use this license for certain libraries in order to
permit linking those libraries into non-free programs.

When a program is linked with a library, whether statically or using a shared
library, the combination of the two is legally speaking a combined work, a
derivative of the original library. The ordinary General Public License therefore
permits such linking only if the entire combination fits its criteria of freedom.
The Lesser General Public License permits more lax criteria for linking other
code with the library.

We call this license the "Lesser" General Public License because it does Less to
protect the user's freedom than the ordinary General Public License. It also
provides other free software developers Less of an advantage over competing
non-free programs. These disadvantages are the reason we use the ordinary General
Public License for many libraries. However, the Lesser license provides

advantages in certain special circumstances.

For example, on rare occasions, there may be a special need to encourage the widest possible use of a certain library, so that it becomes a de-facto standard. To achieve this, non-free programs must be allowed to use the library. A more frequent case is that a free library does the same job as widely used non-free libraries. In this case, there is little to gain by limiting the free library to free software only, so we use the Lesser General Public License.

In other cases, permission to use a particular library in non-free programs enables a greater number of people to use a large body of free software. For example, permission to use the GNU C Library in non-free programs enables many more people to use the whole GNU operating system, as well as its variant, the GNU/Linux operating system.

Although the Lesser General Public License is Less protective of the users' freedom, it does ensure that the user of a program that is linked with the Library has the freedom and the wherewithal to run that program using a modified version of the Library.

The precise terms and conditions for copying, distribution and modification follow. Pay close attention to the difference between a "work based on the library" and a "work that uses the library". The former contains code derived from the library, whereas the latter must be combined with the library in order to run.

TERMS AND CONDITIONS FOR COPYING, DISTRIBUTION AND MODIFICATION
----

0. This License Agreement applies to any software library or other program which contains a notice placed by the copyright holder or other authorized party saying it may be distributed under the terms of this Lesser General Public License (also called "this License"). Each licensee is addressed as "you".

A "library" means a collection of software functions and/or data prepared so as to be conveniently linked with application programs (which use some of those functions and data) to form executables.

The "Library", below, refers to any such software library or work which has been distributed under these terms. A "work based on the Library" means either the Library or any derivative work under copyright law: that is to say, a work containing the Library or a portion of it, either verbatim or with modifications and/or translated straightforwardly into another language. (Hereinafter, translation is included without limitation in the term "modification".)

"Source code" for a work means the preferred form of the work for making modifications to it. For a library, complete source code means all the source code for all modules it contains, plus any associated interface definition files, plus the scripts used to control compilation and installation of the library.

Activities other than copying, distribution and modification are not covered by this License; they are outside its scope. The act of running a program using the Library is not restricted, and output from such a program is covered only if its contents constitute a work based on the Library (independent of the use of the Library in a tool for writing it). Whether that is true depends on what the Library does and what the program that uses the Library does.

1. You may copy and distribute verbatim copies of the Library's complete source code as you receive it, in any medium, provided that you conspicuously and appropriately publish on each copy an appropriate copyright notice and disclaimer of warranty; keep intact all the notices that refer to this License and to the absence of any warranty; and distribute a copy of this License along with the Library.

You may charge a fee for the physical act of transferring a copy, and you may at your option offer warranty protection in exchange for a fee.

2. You may modify your copy or copies of the Library or any portion of it, thus forming a work based on the Library, and copy and distribute such modifications or work under the terms of Section 1 above, provided that you also meet all of these conditions:

    a) The modified work must itself be a software library.

    b) You must cause the files modified to carry prominent notices stating that you changed the files and the date of any change.

    c) You must cause the whole of the work to be licensed at no charge to all third parties under the terms of this License.

    d) If a facility in the modified Library refers to a function or a table of data to be supplied by an application program that uses the facility, other than as an argument passed when the facility is invoked, then you must make a good faith effort to ensure that, in the event an application does not supply such function or table, the facility still operates, and performs whatever part of its purpose remains meaningful.

    (For example, a function in a library to compute square roots has a purpose that is entirely well-defined independent of the application. Therefore, Subsection 2d requires that any application-supplied function or table used by this function must be optional: if the application does not supply it, the square root function must still compute square roots.)

    These requirements apply to the modified work as a whole. If identifiable sections of that work are not derived from the Library, and can be reasonably considered independent and separate works in themselves, then this License, and its terms, do not apply to those sections when you distribute them as separate works. But when you distribute the same sections as part of a whole which is a work based on the Library, the distribution of the whole must be on the terms of this License, whose permissions for other licensees extend to the entire whole, and thus to each and every part regardless of who wrote it.

    Thus, it is not the intent of this section to claim rights or contest your rights to work written entirely by you; rather, the intent is to exercise the right to control the distribution of derivative or collective works based on the Library.

    In addition, mere aggregation of another work not based on the Library with the Library (or with a work based on the Library) on a volume of a storage or distribution medium does not bring the other work under the scope of this License.

3. You may opt to apply the terms of the ordinary GNU General Public License instead of this License to a given copy of the Library. To do this, you must alter all the notices that refer to this License, so that they refer to the ordinary GNU General Public License, version 2, instead of to this License. (If a newer version than version 2 of the ordinary GNU General Public License has appeared, then you can specify that version instead if you wish.) Do not make any other change in these notices.

Once this change is made in a given copy, it is irreversible for that copy, so the ordinary GNU General Public License applies to all subsequent copies and derivative works made from that copy.

This option is useful when you wish to copy part of the code of the Library into a program that is not a library.

4. You may copy and distribute the Library (or a portion or derivative of it, under Section 2) in object code or executable form under the terms of Sections 1 and 2 above provided that you accompany it with the complete corresponding machine-readable source code, which must be distributed under the terms of Sections 1 and 2 above on a medium customarily used for software interchange.

If distribution of object code is made by offering access to copy from a designated place, then offering equivalent access to copy the source code from the same place satisfies the requirement to distribute the source code, even though third parties are not compelled to copy the source along with the object code.

5. A program that contains no derivative of any portion of the Library, but is designed to work with the Library by being compiled or linked with it, is called a "work that uses the Library". Such a work, in isolation, is not a derivative work of the Library, and therefore falls outside the scope of this License.

However, linking a "work that uses the Library" with the Library creates an executable that is a derivative of the Library (because it contains portions of the Library), rather than a "work that uses the library". The executable is therefore covered by this License. Section 6 states terms for distribution of such executables.

When a "work that uses the Library" uses material from a header file that is part of the Library, the object code for the work may be a derivative work of the Library even though the source code is not. Whether this is true is especially significant if the work can be linked without the Library, or if the work is itself a library. The threshold for this to be true is not precisely defined by law.

If such an object file uses only numerical parameters, data structure layouts and accessors, and small macros and small inline functions (ten lines or less in length), then the use of the object file is unrestricted, regardless of whether it is legally a derivative work. (Executables containing this object code plus portions of the Library will still fall under Section 6.)

Otherwise, if the work is a derivative of the Library, you may distribute the object code for the work under the terms of Section 6. Any executables containing that work also fall under Section 6, whether or not they are linked directly with the Library itself.

6. As an exception to the Sections above, you may also combine or link a "work that uses the Library" with the Library to produce a work containing portions of the Library, and distribute that work under terms of your choice, provided that the terms permit modification of the work for the customer's own use and reverse engineering for debugging such modifications.

You must give prominent notice with each copy of the work that the Library is used in it and that the Library and its use are covered by this License. You must supply a copy of this License. If the work during execution displays copyright notices, you must include the copyright notice for the Library among them, as well as a reference directing the user to the copy of this License. Also, you must do one of these things:

    a) Accompany the work with the complete corresponding machine-readable
    source code for the Library including whatever changes were used in the
    work (which must be distributed under Sections 1 and 2 above); and, if the
    work is an executable linked with the Library, with the complete
    machine-readable "work that uses the Library", as object code and/or source
    code, so that the user can modify the Library and then relink to produce a
    modified executable containing the modified Library. (It is understood that
    the user who changes the contents of definitions files in the Library will
    not necessarily be able to recompile the application to use the modified

definitions.)

    b) Use a suitable shared library mechanism for linking with the Library. A
    suitable mechanism is one that (1) uses at run time a copy of the library
    already present on the user's computer system, rather than copying library
    functions into the executable, and (2) will operate properly with a
    modified version of the library, if the user installs one, as long as the
    modified version is interface-compatible with the version that the work was
    made with.

    c) Accompany the work with a written offer, valid for at least three years,
    to give the same user the materials specified in Subsection 6a, above, for
    a charge no more than the cost of performing this distribution.

    d) If distribution of the work is made by offering access to copy from a
    designated place, offer equivalent access to copy the above specified
    materials from the same place.

    e) Verify that the user has already received a copy of these materials or
    that you have already sent this user a copy.

For an executable, the required form of the "work that uses the Library" must
include any data and utility programs needed for reproducing the executable from
it. However, as a special exception, the materials to be distributed need not
include anything that is normally distributed (in either source or binary form)
with the major components (compiler, kernel, and so on) of the operating system
on which the executable runs, unless that component itself accompanies the
executable.

It may happen that this requirement contradicts the license restrictions of other
proprietary libraries that do not normally accompany the operating system. Such a
contradiction means you cannot use both them and the Library together in an
executable that you distribute.

7. You may place library facilities that are a work based on the Library
side-by-side in a single library together with other library facilities not
covered by this License, and distribute such a combined library, provided that
the separate distribution of the work based on the Library and of the other
library facilities is otherwise permitted, and provided that you do these two
things:

    a) Accompany the combined library with a copy of the same work based on the
    Library, uncombined with any other library facilities. This must be
    distributed under the terms of the Sections above.

    b) Give prominent notice with the combined library of the fact that part of
    it is a work based on the Library, and explaining where to find the
    accompanying uncombined form of the same work.

8. You may not copy, modify, sublicense, link with, or distribute the Library
except as expressly provided under this License. Any attempt otherwise to copy,
modify, sublicense, link with, or distribute the Library is void, and will
automatically terminate your rights under this License. However, parties who have
received copies, or rights, from you under this License will not have their
licenses terminated so long as such parties remain in full compliance.

9. You are not required to accept this License, since you have not signed it.
However, nothing else grants you permission to modify or distribute the Library
or its derivative works. These actions are prohibited by law if you do not accept
this License. Therefore, by modifying or distributing the Library (or any work
based on the Library), you indicate your acceptance of this License to do so, and
all its terms and conditions for copying, distributing or modifying the Library
or works based on it.

10. Each time you redistribute the Library (or any work based on the Library), the recipient automatically receives a license from the original licensor to copy, distribute, link with or modify the Library subject to these terms and conditions. You may not impose any further restrictions on the recipients' exercise of the rights granted herein. You are not responsible for enforcing compliance by third parties with this License.

11. If, as a consequence of a court judgment or allegation of patent infringement or for any other reason (not limited to patent issues), conditions are imposed on you (whether by court order, agreement or otherwise) that contradict the conditions of this License, they do not excuse you from the conditions of this License. If you cannot distribute so as to satisfy simultaneously your obligations under this License and any other pertinent obligations, then as a consequence you may not distribute the Library at all. For example, if a patent license would not permit royalty-free redistribution of the Library by all those who receive copies directly or indirectly through you, then the only way you could satisfy both it and this License would be to refrain entirely from distribution of the Library.

If any portion of this section is held invalid or unenforceable under any particular circumstance, the balance of the section is intended to apply, and the section as a whole is intended to apply in other circumstances.

It is not the purpose of this section to induce you to infringe any patents or other property right claims or to contest validity of any such claims; this section has the sole purpose of protecting the integrity of the free software distribution system which is implemented by public license practices. Many people have made generous contributions to the wide range of software distributed through that system in reliance on consistent application of that system; it is up to the author/donor to decide if he or she is willing to distribute software through any other system and a licensee cannot impose that choice.

This section is intended to make thoroughly clear what is believed to be a consequence of the rest of this License.

12. If the distribution and/or use of the Library is restricted in certain countries either by patents or by copyrighted interfaces, the original copyright holder who places the Library under this License may add an explicit geographical distribution limitation excluding those countries, so that distribution is permitted only in or among countries not thus excluded. In such case, this License incorporates the limitation as if written in the body of this License.

13. The Free Software Foundation may publish revised and/or new versions of the Lesser General Public License from time to time. Such new versions will be similar in spirit to the present version, but may differ in detail to address new problems or concerns.

Each version is given a distinguishing version number. If the Library specifies a version number of this License which applies to it and "any later version", you have the option of following the terms and conditions either of that version or of any later version published by the Free Software Foundation. If the Library does not specify a license version number, you may choose any version ever published by the Free Software Foundation.

14. If you wish to incorporate parts of the Library into other free programs whose distribution conditions are incompatible with these, write to the author to ask for permission. For software which is copyrighted by the Free Software Foundation, write to the Free Software Foundation; we sometimes make exceptions for this. Our decision will be guided by the two goals of preserving the free status of all derivatives of our free software and of promoting the sharing and reuse of software generally.

NO WARRANTY

15. BECAUSE THE LIBRARY IS LICENSED FREE OF CHARGE, THERE IS NO WARRANTY FOR THE LIBRARY, TO THE EXTENT PERMITTED BY APPLICABLE LAW. EXCEPT WHEN OTHERWISE STATED IN WRITING THE COPYRIGHT HOLDERS AND/OR OTHER PARTIES PROVIDE THE LIBRARY "AS IS" WITHOUT WARRANTY OF ANY KIND, EITHER EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. THE ENTIRE RISK AS TO THE QUALITY AND PERFORMANCE OF THE LIBRARY IS WITH YOU. SHOULD THE LIBRARY PROVE DEFECTIVE, YOU ASSUME THE COST OF ALL NECESSARY SERVICING, REPAIR OR CORRECTION.

16. IN NO EVENT UNLESS REQUIRED BY APPLICABLE LAW OR AGREED TO IN WRITING WILL ANY COPYRIGHT HOLDER, OR ANY OTHER PARTY WHO MAY MODIFY AND/OR REDISTRIBUTE THE LIBRARY AS PERMITTED ABOVE, BE LIABLE TO YOU FOR DAMAGES, INCLUDING ANY GENERAL, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES ARISING OUT OF THE USE OR INABILITY TO USE THE LIBRARY (INCLUDING BUT NOT LIMITED TO LOSS OF DATA OR DATA BEING RENDERED INACCURATE OR LOSSES SUSTAINED BY YOU OR THIRD PARTIES OR A FAILURE OF THE LIBRARY TO OPERATE WITH ANY OTHER SOFTWARE), EVEN IF SUCH HOLDER OR OTHER PARTY HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES.

END OF TERMS AND CONDITIONS

How to Apply These Terms to Your New Libraries

If you develop a new library, and you want it to be of the greatest possible use to the public, we recommend making it free software that everyone can redistribute and change. You can do so by permitting redistribution under these terms (or, alternatively, under the terms of the ordinary General Public License).

To apply these terms, attach the following notices to the library. It is safest to attach them to the start of each source file to most effectively convey the exclusion of warranty; and each file should have at least the "copyright" line and a pointer to where the full notice is found.

    one line to give the library's name and an idea of what it does.

    Copyright (C) year name of author

    This library is free software; you can redistribute it and/or

    modify it under the terms of the GNU Lesser General Public

    License as published by the Free Software Foundation; either

    version 2.1 of the License, or (at your option) any later version.

    This library is distributed in the hope that it will be useful,

    but WITHOUT ANY WARRANTY; without even the implied warranty of

    MERCHANTABILITY or FITNESS FOR A PARTICULAR PURPOSE. See the GNU

    Lesser General Public License for more details.

    You should have received a copy of the GNU Lesser General Public

    License along with this library; if not, write to the Free Software

    Foundation, Inc., 59 Temple Place, Suite 330, Boston, MA 02111-1307 USA

Also add information on how to contact you by electronic and paper mail.

You should also get your employer (if you work as a programmer) or your school,
if any, to sign a "copyright disclaimer" for the library, if necessary. Here is a
sample; alter the names:

    Yoyodyne, Inc., hereby disclaims all copyright interest in

    the library `Frob' (a library for tweaking knobs) written

IMPORTANT-READ THIS AGREEMENT CAREFULLY BEFORE INSTALLING OR USING THE SOFTWARE. TERADATA WILL
LICENSE THE SOFTWARE TO YOU ONLY IF YOU ACCEPT THE TERMS AND CONDITIONS OF THIS AGREEMENT. BY
INSTALLING OR USING THE SOFTWARE, OR BY CLICKING THE "ACCEPT" ICON BELOW, YOU AGREE
TO THE TERMS AND CONDITIONS OF THIS AGREEMENT. IF YOU DO NOT AGREE TO THE TERMS AND CONDITIONS
OF THIS AGREEMENT, CLICK THE "REJECT" ICON AND DO NOT INSTALL OR USE THE SOFTWARE.

This Driver License Agreement ("Agreement") is a legal contract between you (both as
an individual, and on behalf of your employer and any Teradata-authorized licensee for whom you
and/or your employer are acting on their behalf) and Teradata Corporation ("Teradata")
for the software product identified above, which consists of computer software code in object code
form only, as well as associated media, printed materials, and online or electronic documentation
(collectively, the "Software"). The term "Software" also includes any and
all error corrections, bug fixes, updates, upgrades, or new versions or releases of the Software
(collectively and individually, "Enhancements") that Teradata may elect in its sole
discretion to provide you. Teradata is under no obligation to provide you with Enhancements under
this Agreement. By clicking the "ACCEPT" icon below, you represent and warrant that
you possess the authority to enter into this Agreement on behalf of yourself, and on behalf
of your employer and any Teradata-authorized licensee for whom you and/or your employer are
acting on their behalf. As used in this Agreement, the terms "you", "your"
and "yours" collectively and individually refer to you as an individual and to your
employer, as well as such Teradata-authorized licensee.

1(a). License: This Agreement pertains to your authorized use of Software in object code form
only. Notwithstanding anything to the contrary herein, you are granted no rights to obtain,
access or use the Software's source code. Subject to your compliance with all of the terms of
this Agreement and only during the term of this Agreement (unless this Agreement is terminated
earlier as provided below), Teradata grants you a nonexclusive, nontransferable, license to
install and use the Software on a single computer of yours (the configuration of which Teradata
has previously approved in writing for use with the Software) and only on those certified and
supported configurations of Teradata RDBMS ("Supported Code") for the sole purpose of
facilitating your Teradata-licensed use of the Supported Code. IF YOU ARE NOT A TERADATA-LICENSED
USER OF SUPPORTED CODE, YOU ARE NOT AUTHORIZED TO INSTALL OR USE THE SOFTWARE. You may make a
backup copy of the Software, and use the backup copy for so long as the computer on which you
are rightfully using your original copy of the Software is inoperable or if the original copy
of the Software has been destroyed. You will ensure that all copies of the Software contain
Teradata's and its licensors' copyright notices, as well as all other proprietary legends.

1(b). License Restrictions: No license rights to the Software will be implied. You are responsible
for the installation of the Software, as well as for providing parallel and backup operations. You
will not sell, copy, rent, loan, modify, transfer, disclose, embed, sublicense, distribute,
or create derivative works of the Software, in whole or in part, without Teradata's prior
written consent. You will not disclose the results of any testing or evaluation, including
any benchmarks, performed by you insofar as it relates to the Software without Teradata's
prior written consent. You will not reverse-assemble, reverse compile or reverse-engineer the
Software for purposes of illegally obtaining the Software's source code. The Software,
which includes all copies thereof whether in whole or in part, is and remains the exclusive
property of Teradata and its licensors.

2. SOFTWARE AND SERVICES DISLAIMER OF WARRANTY: This Agreement does not require Teradata to provide
you with any Software-related consulting services, technical assistance, training, support or
maintenance services of any kind (collectively and individually, "Services"). To the
extent that Teradata elects to provide you with any Services, such Services are provided to you
at Teradata's sole discretion. TERADATA PROVIDES SERVICES, AND TERADATA AND ITS LICENSORS
LICENSE THE SOFTWARE, TO YOU HEREUNDER ON AN "AS-IS" BASIS WITHOUT WARRANTIES OF
ANY KIND, ORAL OR WRITTEN, EXPRESS OR IMPLIED. WITHOUT LIMITATION TO THE FOREGOING, THERE
ARE NO IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE. YOU BEAR
THE ENTIRE RISK AS TO SATISFACTORY QUALITY, PERFORMANCE, AND ACCURACY OF THE SOFTWARE. YOU
ASSUME ALL RESPONSIBILITY FOR THE SELECTION OF THE SOFTWARE TO ACHIEVE YOUR INTENDED RESULTS,

AND FOR THE INSTALLATION, USE AND RESULTS OBTAINED FROM THE SOFTWARE. NEITHER TERADATA NOR ITS LICENSORS WARRANT THAT THE SOFTWARE OR SERVICES WILL MEET YOUR REQUIREMENTS OR CONFORM TO ANY SPECIFICATIONS, OR THAT THE OPERATION OF THE SOFTWARE WILL BE UNINTERRUPTED OR ERROR FREE.

3. LIMITATIONS ON LIABILITY: UNDER NO CIRCUMSTANCES WILL TERADATA's AND ITS LICENSORS' TOTAL CUMULATIVE LIABILITY FOR CLAIMS RELATING TO THE SERVICES (IF ANY), THE SOFTWARE, AND/OR THIS AGREEMENT, WHETHER BASED IN CONTRACT OR IN TORT, INCLUDING NEGLIGENCE, EXCEED $1,000; PROVIDED, HOWEVER, THAT THE FOREGOING WILL NOT APPLY TO CLAIMS FOR (I) PERSONAL INJURY, INCLUDING DEATH, TO THE EXTENT CAUSED BY TERADATA's NEGLIGENCE OR WILLFUL MISCONDUCT; OR (II) PHYSICAL DAMAGE TO TANGIBLE REAL OR PERSONAL PROPERTY TO THE EXTENT CAUSED BY TERADATA's NEGLIGENCE OR WILLFUL MISCONDUCT EQUAL TO THE AMOUNT OF DIRECT DAMAGES UP TO ONE MILLION DOLLARS PER OCCURRENCE. IN NO EVENT WILL TERADATA OR ITS LICENSORS BE LIABLE FOR ANY INDIRECT, SPECIAL, PUNITIVE, INCIDENTAL OR CONSEQUENTIAL DAMAGES, EVEN IF INFORMED OF THE POSSIBILITY OF SUCH DAMAGES.

Some states or jurisdictions do not allow the exclusion of limitation of incidental, consequential or special damages, or the exclusion of implied warranties, so the above limitations as set forth above in Section 2 and this Section 3 may not apply to you.

4. Government Restrictions: You agree that you will not directly or indirectly export or transmit the Software without obtaining Teradata's prior written authorization, as well as appropriate governmental approvals, including those required by the U.S. government. Software provided to the U.S. Government pursuant to solicitations issued on or after December 1, 1995 is provided with the commercial license rights and restrictions set forth herein. All Software provided to the U.S. Government pursuant to solicitations issued prior to December 1, 1995 is provided with "Restricted Rights" as provided for in 48 C.F.R. 52.227-14 (June 1987) or 48 C.F.R. 252.227-7013 (November 1995), as applicable.

5. Term, Termination and Expiration: This Agreement, including your license to the Software, will expire or terminate on the same date that your Teradata-authorized license to the Supported Code expires or terminates (whichever occurs first) unless this Agreement is terminated earlier as follows. Either party may terminate this Agreement with cause upon providing the other party with 15 days prior written notice in the event that such other party is in default of a material obligation under this Agreement. The party in default will have this 15 day period in which to cure. Either party may terminate this Agreement without cause upon providing 30 days prior written notice to the other party. When this Agreement terminates or expires, you will immediately cease all use of the Software, and destroy all copies of the Software. Sections 1(b), 1(c), 2, 3, 4, 5, 6, and 7 will survive expiration or termination of this Agreement.

6. Choice of Law and Dispute Resolution: The parties will attempt in good faith to resolve any controversy or claim by negotiation or mediation. If they are unable to do so, and regardless of the causes of action alleged, the claim whether arising under this Agreement or otherwise will be resolved by arbitration before a sole arbitrator in Dayton, Ohio pursuant to the then-current Commercial Rules of the American Arbitration Association and the federal substantive and procedural law of arbitration. The arbitrator's award will be final and binding, and may be entered in any court having jurisdiction thereof, but may include only damages consistent with the limitations in this Agreement. Each party will bear its own attorney's fees and costs related to the arbitration. The obligations to negotiate, mediate and arbitrate shall not apply to claims for misuse or infringement of a party's intellectual property rights. Any claim or action must be brought within two years after the cause of action accrues. New York law will govern the interpretation and enforcement of this Agreement, except that the Federal Arbitration Act will govern the interpretation and enforcement of the arbitrability of claims under this Section 6.

7. Entire Agreement: This Agreement constitutes the entire understanding of the parties with respect to the Services (if any) and the Software, and supersedes all other prior agreements and understandings whether oral or written. No oral representation or change to this Agreement will be binding upon either party unless agreed to in writing and signed by authorized representatives of both parties. You will not assign this Agreement or your rights, nor will you delegate your obligations under this Agreement. Failure by either party to enforce any term or condition of this Agreement will not be deemed a waiver of future enforcement of that or any other term or condition. The provisions of this Agreement are severable.

NORTHWOODS SOFTWARE CORPORATION

Software License Agreement

This Software License Agreement (this 'Agreement') is a legal agreement between
Northwoods Software Corporation, a New Hampshire corporation ('Northwoods'), and
you, either an individual or a single entity. This Software License Agreement sets forth
the terms and conditions under which Northwoods grants to you a license to use one or more
computer software products of Northwoods and Northwoods' related documentation therefor.
Certain capitalized terms used in this Agreement are defined in Section 1.0 below.

Each Licensed Product is identified in a License Certificate issued by Northwoods to you.
If two or more Licensed Products are listed on a License Certificate, the License shall apply
to each such Licensed Product.

This Agreement sets forth the terms and conditions applicable to your License of the Licensed
Software and the Documentation. Please note that, as more particularly set forth in this
Agreement, certain of the terms and conditions set forth in this Agreement may not be applicable
to your License, depending on the type of License that you purchased and the terms of your
License Certificate.

***   IMPORTANT NOTICE   ***

BY INSTALLING, COPYING, OR OTHERWISE USING ANY OF THE LICENSED SOFTWARE, YOU AGREE TO BE BOUND BY
THE TERMS OF THIS AGREEMENT. IF YOU DO NOT AGREE TO THE TERMS AND CONDITIONS OF THIS AGREEMENT,
THEN YOU SHOULD NOT INSTALL ANY OF THE LICENSED SOFTWARE.

NOTE: Unless you have purchased an OEM License or an Internal Use License, your usage of any
Licensed Software and related Documentation is governed by an Evaluation License.

In addition to the foregoing, the terms and conditions of this Agreement include the following:

1.0   DEFINITIONS

The following terms and variations thereof shall have the following meanings:

'Agreement' means this Software License Agreement between Northwoods and Customer.

'Customer' means you, the individual or single entity in whose name the License
Certificate was issued.

'Developer' means, with respect to a particular Licensed Product, an Internal User who
(a) is a member of the Licensed Group for such Licensed Product and (b) uses such Licensed
Product to develop one or more Licensed Applications.

'Documentation' means, with respect to any Licensed Software, such assistance manuals,
online help files, release notes, Sample Code, or other materials, in printed or electronic form,
including any Updates thereof, that may be provided by Northwoods to assist a Developer in the
use of such Licensed Software.

'Domain Name' means a unique name that identifies an Internet resource, such as a web
site (e.g., www.nwoods.com).

'Evaluation License' means a License permitting Customer to use a Licensed Product in
accordance with the provisions of Section 2.1.1(a) below and the further terms and conditions
of this Agreement.

'External User' means someone other than an Internal User.

'Intellectual Property Right' means any U.S. or foreign patent, copyright, trade secret, trademark, industrial property, or other proprietary or intellectual property right of any kind.

'Internal Use License' means a License permitting Customer to use a Licensed Product in accordance with the provisions of Section 2.1.1(b) below and the further terms and conditions of this Agreement.

'Internal User' means an employee or contractor of Customer. For purposes hereof, 'contractor' means someone who is not an employee of Customer but who is under contract with Customer to perform services of a type that otherwise might be performed by an employee of Customer.

'License' means Northwoods' grant to you of a non-exclusive, non-transferable right to use a Licensed Product, subject to and in accordance with the terms and conditions of this Agreement. There are three different types of Licenses - an Evaluation License, an Internal Use License, and an OEM License.

'License Certificate' means, with respect to a particular Licensed Product that is licensed by Northwoods to Customer under this Agreement, a certificate issued by Northwoods to Customer that identifies the applicable Licensed Software and the License-Specific Terms applicable to Customer's use of such Licensed Product.

'License Effective Date' means the date on which Customer first installs any Licensed Software on a computer for evaluation purposes, or, if the Customer purchased an Internal Use License or an OEM License, the date on which Customer placed the order therefor.

'License-Specific Terms' means, with respect to a particular Licensed Product that is licensed by Northwoods to Customer under this Agreement, the identity of the applicable Licensed Software that is part of such Licensed Product together with certain additional licensing terms applicable to Customer's use of such Licensed Product that are set forth in the License Certificate for such Licensed Product. The License-Specific Terms are recorded in Northwoods' records. In the event of any inconsistency between the License-Specific Terms contained in Northwoods' records and the License-Specific Terms stated in any printed, electronic, or other copy of a License Certificate (whether due to an alteration of such License Certificate or other cause), the License-Specific Terms contained in Northwoods' records shall be controlling.

'License Term' means the duration of the License, which depends on the type of License and the License-Specific Terms, all as more particularly set forth in this Agreement.

'Licensed Application' means a software application (including Redistributables) developed by a Developer by use of the Licensed Software. The License-Specific Terms may further define what constitutes a Licensed Application.

'Licensed Application End User' means an authorized user of a Licensed Application.

'Licensed Domain' means a Domain Name from which a Licensed Application End User is able to access a Licensed Application via the Internet. For the avoidance of doubt, if two or more Domain Names identify the same web site or other Internet resource (i.e., there is a single primary Domain Name from which a Licensed Application End User is able to access a Licensed Application via the Internet and there are also one or more alias Domain Names that point to that same primary Domain Name), then there will only be considered to be one Licensed Domain and the alias Domain Name(s) will not be counted.

'Licensed Group' means, with respect to a particular Licensed Product, such Internal Users who are permitted to be Developers for such Licensed Product, as set forth in the License Certificate for such Licensed Product. By way of examples, if the License Certificate for a Licensed Product states that the Licensed Group for such Licensed Product (a) is a particular business unit within Customer, only an Internal User within such business unit may be a Developer for such Licensed Product, or (b) is unlimited, any Internal User of Customer may be a Developer for such Licensed Product, in both cases subject to such additional limitations as are otherwise set forth in this Agreement and the applicable License Certificate (including any limitation on the number of Developers who may develop Licensed Applications for such Licensed Product).

'Licensed Product' means, collectively, Licensed Software that is licensed by Northwoods

for use by Customer under this Agreement and the related Documentation for such Licensed Software.

'Licensed Software' means any Northwoods' computer software product licensed for use under this Agreement, including any Updates of such computer software product that may be supplied to Customer by Northwoods. The Licensed Software is identified in the License-Specific Terms.

'Northwoods' means Northwoods Software Corporation, a New Hampshire corporation, and its successors and assigns.

'Object Code' means, with respect to software, an encoded form of such software that allows such software to be used on a computer, but which is not intended to allow such software to be enhanced or otherwise modified.

'OEM License' means a License permitting Customer to use a Licensed Product in accordance with the provisions of Section 2.1.1(c) below and the further terms and conditions of this Agreement.

'Redistributables' means (a) the Object Code form of portions of the Licensed Software, which portions are described as such in the Documentation and are usually provided as Dynamic Link Libraries (DLL's), tar files, zip files, JAR files, or obfuscated javascript files (depending on the specific product), and (b) also the Source Code or Object Code form of the Sample Code as originally supplied to, or as modified by, Customer. For the avoidance of doubt, obfuscated javascript files are considered to be Object Code and not Source Code.

'sample Code' means the Source Code version of the computer software supplied by Northwoods and described as 'sample code' in the Documentation, which computer software is intended to illustrate how to use the Licensed Software. For the avoidance of doubt, Sample Code is part of the Documentation and not part of the Licensed Software.

'source Code' means, with respect to software, an encoded form of such software that allows a software developer to enhance and otherwise modify such software and that can be used, with certain software development tools, to produce Object Code.

'Trial Period' means, with respect to an Evaluation License, a period of thirty (30) days following the License Effective Date therefor or such longer period of time, if any, as may be specified as the License Term for such Evaluation License in the License-Specific Terms therefor.

'Update' means any bug fix, correction, patch, workaround, enhancement, release, version, or other update of a Licensed Product provided by Northwoods to Customer after the initial delivery of such Licensed Product.

2.0   LICENSE PROVISIONS

2.1   License Grant and Restrictions

2.1.1   Subject to the further terms and conditions of this Agreement, Northwoods grants to Customer a worldwide License to use each Licensed Product, as follows:

(a)   Evaluation License. If the License is an Evaluation License, then:

(i)   Customer may only use the Licensed Product for evaluation purposes; and

(ii)   the License Term shall commence on the License Effective Date and shall continue thereafter for the Trial Period, subject to termination of the License during the License Term as otherwise set forth in this Agreement.

The Licensed Software may include a duration limitation that tracks the License Term and may disable the Licensed Software when the License Term expires. If Customer purchases an Internal Use License or an OEM License for the Licensed Product, Northwoods will provide Customer with a software code which, when activated, will deactivate any such duration limitation.

(b)   Internal Use License. If the License is an Internal Use License, then:

(i)   the License Term shall commence on the License Effective Date and shall continue

thereafter for the period set forth in the License-Specific Terms, subject to termination of the License during the License Term as otherwise set forth in this Agreement;

(ii)   the aggregate number of Developers who may use the Licensed Software to develop Licensed Applications is specified in the License-Specific Terms;

(iii)   the aggregate number of Licensed Applications that such Developer(s) may develop is specified in the License-Specific Terms;

(iv)   all Licensed Application End Users must be Internal Users;

(v)   the aggregate number of Licensed Application End Users who are authorized to use each Licensed Application is specified in the License-Specific Terms; and

(vi)   for those Licensed Products that enable Licensed Applications to be accessed via the Internet, the aggregate number of Licensed Domains from which Licensed Application End Users may access any such Licensed Application is specified in the License-Specific Terms.

(c)   OEM License. If the License is an OEM License, then:

(i)   the License Term shall commence on the License Effective Date and shall continue thereafter for the period set forth in the License-Specific Terms, subject to termination of the License during the License Term as otherwise set forth in this Agreement;

(ii)   the aggregate number of Developers who may use the Licensed Software to develop Licensed Applications is specified in the License-Specific Terms;

(iii)   the aggregate number of Licensed Applications that such Developer(s) may develop is specified in the License-Specific Terms;

(iv)   the Licensed Application End Users may be Internal Users or External Users; and

(v)   the aggregate number of Licensed Application End Users who are authorized to use each Licensed Application is not limited; and

(vi)   for those Licensed Products that enable Licensed Applications to be accessed via the Internet, the aggregate number of Licensed Domains from which Licensed Application End Users may access any such Licensed Application is specified in the License-Specific Terms.

For the avoidance of doubt, upon the expiration or earlier termination of the License Term (unless, and then only to the extent that, the License Term is renewed by Northwoods), (A) no further Licensed Applications may be developed, and (B) with respect to any Licensed Application that was developed prior to such expiration or termination, any Licensed Application End User who was using such Licensed Application prior to such expiration or termination may continue to use such Licensed Application after such expiration or termination, but no other Licensed Application End Users or anyone else may use such Licensed Application.

(d)   The parties agree that, for purposes of this Agreement, all Licensed Products shall be delivered by Northwoods to Customer in the State of New Hampshire.

2.1.2   Customer may make such number of copies of each Licensed Product as may reasonably be required for Customer's exercise of its License rights and for archival purposes. Each such copy shall be and remain subject to all usage and other restrictions applicable to such Licensed Product under this Agreement. All such copies are and shall remain the sole property of Northwoods and subject to this Agreement. All Intellectual Property Rights notices included in such Licensed Product must be maintained in all such copies and may not be altered or removed.

2.1.3   Customer is solely responsible for all hardware, infrastructure systems, and third party software associated with operating the Licensed Software.

2.1.4   Except as may otherwise expressly be permitted by this Agreement, and subject to such additional limitations and restrictions as are set forth in this Agreement, CUSTOMER MAY NOT:

(a)   use, copy, display, publish, or transfer any Licensed Product;

(b)   modify any Licensed Product, or create any derivative work of any Licensed Product;

(c)   reverse engineer, disassemble, decompile, or take any other action to derive the Source Code form of any of the Licensed Software;

(d)   use any Licensed Product, nor permit any Licensed Product to be used, other than by one or more Developers (the number of permitted Developers being specified in the License-Specific Terms) to develop a Licensed Application;

(e)   rent, lease, transfer, sell, sublicense, or distribute any Licensed Product thereof to any third party without the express written consent of Northwoods; for the avoidance of doubt, no time-sharing or service-sharing use of any Licensed Product by any third party is permitted;

(f)   use any Licensed Product to develop a Licensed Application unless Customer includes substantial added value in such Licensed Application in addition to the Redistributables;

(g)   use any Licensed Product to develop a Licensed Application if such Licensed Application would be competitive with such Licensed Product; nor

(h)   distribute any portion of any Licensed Product other than the Redistributables, which may only be distributed in Object Code form and only as part of a Licensed Application.

2.1.5   Except as otherwise set forth in this Section, the Licensed Software is provided and may only be used in Object Code form. If the License-Specific Terms expressly provide that any of the Licensed Software is being licensed with Source Code rights, then such Licensed Software shall also be provided and may be used in Source Code form. In such case, Customer:

(a)   may modify such Licensed Software and use the modified Licensed Software in the same fashion, and subject to the same restrictions, as the unmodified Licensed Software (however, for the avoidance of doubt, Customer shall not redistribute any Source Code); and

(b)   shall defend, indemnify, and hold harmless Northwoods and its affiliates, and its and their respective successors and assigns, and all of the respective officers, directors, employees, stockholders, managers, members, agents, and representatives of any of the foregoing (each, an 'Indemnitee') from and against any and all claims, losses, damages, liabilities, costs, and expenses (including reasonable attorneys' and other professional fees) suffered or incurred by Northwoods or any other Indemnitee that arise out of or relate to any modifications of such Licensed Software made by Customer.

2.2   License Termination

2.2.1   With respect to each Licensed Product that is listed in a License Certificate, the License of such Licensed Product shall commence on the License Effective Date and shall continue thereafter for the applicable License Term, subject to earlier termination as follows:

(a)   Customer may terminate such License at any time and for any reason by written notice to Northwoods;

(b)   if Customer breaches any of its obligations under this Agreement, then such License shall automatically terminate; provided, that, if such breach is curable, then such License shall terminate if such breach is not cured by Customer within thirty (30) days of notice from Northwoods; and

(c)   if Customer is declared bankrupt, becomes insolvent, or commences liquidation or receivership proceedings, then such License may be terminated by Northwoods.

Upon termination of all License(s) granted under this Agreement, this Agreement shall automatically terminate; provided, that the following provisions of this Agreement shall survive any such termination: Sections 1.0 (to the extent that any term defined therein is used in any other Section which survives such termination), 2.2.2, 2.3, 2.4, 3.2, 4.0, 5.0, and 6.0.

2.2.2   Upon the expiration or earlier termination of such License, Customer shall:

(a)   immediately cease all use of such Licensed Product;

(b)   promptly destroy all copies (including tangible, electronic, magnetic, and other copies) of such Licensed Product; provided, that to the extent that Customer archives electronic information in the ordinary course of its business, Customer shall not be required to destroy such electronic copies of such Licensed Product as are so included in such archives, so long as such electronic copies are not otherwise copied or used by Customer, and

(c)   promptly certify in writing to Northwoods that Customer has complied with its obligations hereunder and is no longer using or in possession of any copy of such Licensed Product.

2.3   Proprietary Rights

2.3.1   Each Licensed Product and all Intellectual Property Rights therein are the exclusive property of Northwoods or its licensors. All rights in and to each Licensed Product not specifically granted to Customer under this Agreement are reserved to Northwoods.

2.3.2   Customer shall not alter or remove any Intellectual Property Rights notices or any other legal notices contained on or in copies of any Licensed Product. If Customer is permitted by Northwoods to make any copies of any Licensed Product, Customer shall reproduce all such notices on or in all copies. The existence of any copyright notice shall not constitute publication and shall not be construed as an admission or presumption of publication of any Licensed Product.

2.3.3   All Updates of a Licensed Product provided by Northwoods (regardless of any payments made by Customer therefor) shall belong to and be owned by Northwoods, shall be considered to be part of such Licensed Product, and shall be licensed to Customer on the same terms and conditions as are applicable to such Licensed Product under this Agreement (including the License-Specific Terms).

2.4   Confidentiality

2.4.1   Customer agrees that each Licensed Product is confidential and proprietary to Northwoods. Customer agrees to hold each Licensed Product in confidence and not to disclose such Licensed Product without the prior written approval of Northwoods, except:

(a)   to Customer's Developer(s) to whom disclosure is necessary for Customer's permitted use of such Licensed Product, provided that (i) Customer shall ensure that each such Developer agrees to comply with all of Customer's obligations under this Agreement, and (ii) the acts and omissions of Customer's Developer(s) shall be deemed to be the acts and omissions of Customer and Customer shall be responsible therefor and for any breach of this Agreement caused thereby, or

(b)   as required by applicable law, rule, or regulation, or by an order of a court or governmental or law enforcement agency or other authority, each of competent jurisdiction, provided that Customer shall have used reasonable efforts to secure confidential treatment of any such information to be disclosed, or

(c)   that Customer may distribute Redistributables (in Object Code form) as part of Licensed Applications as permitted by Section 2.1.

2.4.2   Customer shall take all reasonable steps to safeguard all copies of each Licensed Product and ensure that no persons, whether or not authorized to have access to a Licensed Product, shall take any action in violation of this Agreement.

3.0   LIMITED WARRANTY; WARRANTY LIMITATIONS AND DISCLAIMERS

3.1   Limited Warranty.

(a)   If the License is an Internal Use License or an OEM License, then Northwoods warrants (the 'Limited Warranty') that the Licensed Software will, for a period of thirty (30) days following the date on which the Licensed Software was first delivered to Customer (the 'Limited Warranty Period'), function substantially as set forth in the Documentation therefor. The Limited Warranty is only for the benefit of Customer. The Limited Warranty shall not apply to an Evaluation License.

(b)   Customer's sole and exclusive remedy for any breach of the Limited Warranty shall be as follows:

(i)   If the Limited Warranty is breached, Customer must, during the Limited Warranty Period, notify Northwoods in writing of the non-conformity in the Licensed Software that constitutes the breach.

(ii)   In the event such a notification is given to Northwoods during the Limited Warranty Period, Northwoods will attempt to verify the non-conformity reported by Customer and, if verified, ascertain the reason for the non-conformity and supply a correction or bypass.

(iii)   If Northwoods verifies the reported non-conformity but is unable to repair or replace the defective Licensed Software, or determines that such repair or replacement is impractical in Northwoods' sole judgment, then Northwoods may terminate the License by providing written notice thereof to Customer. Likewise, if Northwoods verifies the reported non-conformity but fails to repair or replace the defective Licensed Software within thirty (30) days after Northwoods' receipt of Customer's notice of the breach, then, during the continuance of such failure, Customer may elect to terminate the License by providing written notice thereof to Northwoods. In the event of any such termination, Customer shall comply with its obligations under Section 2.2.2 and, upon Northwoods' receipt of Customer's written certification pursuant to Section 2.2.2(c), Northwoods shall refund to Customer the License fee paid by Customer for the defective Licensed Product.

(c)   The Limited Warranty shall not apply if any breach of the Limited Warranty is due to: (i) the use of the Licensed Software other than in accordance with the Documentation; or (ii) any modification of the Licensed Software other than an Update provided by Northwoods during the Limited Warranty Period.

3.2   Disclaimers.

(a)   All software contains errors, and Customer acknowledges that the use of any software (including the Licensed Software) entails the likelihood of some human and machine errors, omissions, delays, interruptions, and losses, including inadvertent loss of data or damage to media, which may give rise to loss or damage. Accordingly, NORTHWOODS MAKES NO WARRANTY THAT THE LICENSED SOFTWARE IS ERROR-FREE.

(b)   NORTHWOODS ALSO MAKES NO WARRANTY THAT ANY LICENSED PRODUCT WILL MEET CUSTOMER's REQUIREMENTS.

(c)   EXCEPT FOR THE LIMITED WARRANTY (WHICH APPLIES ONLY TO AN INTERNAL USE LICENSE AND AN OEM LICENSE, AND NOT TO AN EVALUATION LICENSE), EACH LICENSED PRODUCT IS PROVIDED 'AS IS' AND NORTHWOODS MAKES NO WARRANTIES, EXPRESS OR IMPLIED, WITH RESPECT TO ANY LICENSED PRODUCT. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, NORTHWOODS DISCLAIMS AND EXCLUDES ANY AND ALL IMPLIED WARRANTIES, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, NON-INFRINGEMENT, AND ANY OTHER IMPLIED WARRANTY ARISING OUT OF OR IN CONNECTION WITH THE DELIVERY, USE, OR PERFORMANCE OF ANY LICENSED PRODUCT.

4.0   LIMITATION OF LIABILITY

4.1   THE TOTAL LIABILITY OF NORTHWOODS UNDER THIS AGREEMENT (INCLUDING AS A RESULT OF A BREACH OF ANY OF NORTHWOODS' OBLIGATIONS HEREUNDER AND/OR FOR THE DELIVERY, USE, PERFORMANCE, OR NON-PERFORMANCE OF ANY LICENSED PRODUCT), WHETHER ARISING IN CONTRACT, NEGLIGENCE, STRICT LIABILITY, TORT, OR OTHER CLAIM OR ACTION, SHALL BE LIMITED TO THE DIRECT LOSSES AND DAMAGES SUFFERED BY CUSTOMER THAT ARE OTHERWISE RECOVERABLE UNDER THIS AGREEMENT, IN AN AMOUNT NOT TO EXCEED THE SUM OF TEN DOLLARS ($10.00).

4.2   NORTHWOODS NEITHER ASSUMES, NOR AUTHORIZES ANY OTHER PERSON TO ASSUME ON NORTHWOODS' BEHALF, ANY LIABILITIES IN ADDITION TO THOSE LIABILITIES OF NORTHWOODS SPECIFICALLY SET FORTH IN THIS AGREEMENT.

4.3   Except as otherwise expressly set forth in Section 3.1(b)(iii), ALL AMOUNTS PAID BY CUSTOMER TO NORTHWOODS ARE NON-REFUNDABLE.

4.5   Customer is responsible for any and all uses of each Licensed Product (including testing of the same to determine whether it does or does not meet Customer's requirements, and in the case of the Sample Code that any Open Source Software referenced therein has acceptable license terms), and for the distribution and use of any Redistributables as part of Licensed Applications. Customer agrees that Northwoods shall have no liability or responsibility for any use of any Redistributable as part of any Licensed Application, and Customer shall defend, indemnify, and hold harmless Northwoods and all other Indemnitees from and against any and all claims, losses, damages, liabilities, costs, and expenses (including reasonable attorneys' and other professional fees) that arise out of or relate to any such uses.

4.6   Customer acknowledges that the limitations on Northwoods' liability set forth in this Agreement are a material part of the consideration payable by Customer to Northwoods under this Agreement and that Northwoods would not have entered into this Agreement without such limitations.

5.0   TAXES; GOVERNMENTAL RESTRICTIONS

5.1   Customer is solely responsible for any and all sales, use, and other taxes and governmental charges applicable to this Agreement and/or each Licensed Product, including the transfer of any media and/or data. Notwithstanding the foregoing, in no event shall Customer be responsible for any taxes based on the net income of Northwoods.

5.2   Customer may not export or otherwise use any Licensed Product or any Redistributable except as authorized by United States law and the laws of the jurisdiction(s) in which such Licensed Product or Redistributable is to be used. In particular, but without limitation, no Licensed Product or Redistributable may be exported or re-exported (a) into any U.S. embargoed countries or (b) to anyone on the U.S. Treasury Department's list of Specially Designated Nationals or the U.S. Department of Commerce Denied Person's List or Entity List. Customer represents and warrants that Customer is not located in any such country or on any such list.

5.3   If any Licensed Product is licensed to or for use by the U.S. Government or any agency thereof, the following provisions shall apply: Such license and usage rights include only those rights expressly set forth in this Agreement (which are the rights customarily provided by Northwoods to the public) and do not include any additional rights to use, modify, reproduce, release, perform, display, or disclose any Licensed Product or Redistributable. All Licensed Software and Redistributables are 'Commercial Computer Software', and all Documentation is 'Commercial Computer Software Documentation', within the meaning of the applicable civilian and military Federal acquisition regulations and any supplement thereto. If a government agency has a need for rights not conveyed under these terms, it must negotiate with Northwoods to determine if there are acceptable terms for transferring such rights, and a mutually acceptable written addendum specifically conveying such rights must be executed and delivered by Northwoods and the government agency. The contractor/manufacturer is Northwoods Software Corporation, 142 Main Street, Nashua, New Hampshire, USA.

5.4   All unpublished rights are reserved under the copyright laws of the United States and all applicable foreign countries.

6.0   GENERAL PROVISIONS

6.1   Governing Law; Jurisdiction.

(a)   This Agreement shall be governed by and construed in accordance with the laws of the State of New Hampshire, USA, without reference to its conflict of laws principles. The provisions of the United Nations Convention on Contracts for the International Sale of Goods are excluded.

(b)   The parties agree that, in the event of any action for enforcement of or breach of this Agreement, the Federal and State courts of the State of New Hampshire shall have exclusive jurisdiction over the enforcement of this Agreement, and the parties specifically consent to, and agree that they are subject to, the jurisdiction of such courts; provided, that Northwoods shall be entitled to seek injunctive or other equitable relief in any court of competent jurisdiction.

6.2   Notices. Except as otherwise specifically set forth in this Agreement, all notices and other communications required to be given under this Agreement shall be in writing and shall be deemed to have been sufficiently given if sent by registered or certified mail,

return receipt requested, or by a nationally recognized express courier. Any such notice (a) if given to Northwoods, shall be sent to Northwoods at its address set forth on its web site (www.nwoods.com or any successor thereto), or (b) if given to Customer, shall be sent to Customer at its address set forth in the License-Specific Terms or such other address as Customer may have notified Northwoods in writing.

6.3   Assignment. This Agreement is assignable by Northwoods. This Agreement is not assignable, in whole or in part, by Customer without the prior written consent of Northwoods, and any assignment or attempted assignment of this Agreement (including an assignment by operation of law) by Customer without such consent shall be void and shall also constitute a breach of this Agreement; provided, however, that Customer may assign this Agreement to a purchaser or other acquirer of all or substantially all of Customer's assets or business if, within thirty (30) days following such assignment, said purchaser or acquirer provides Northwoods with written notice of such permitted assignment and a written certification signed by the purchaser or acquirer agreeing to be bound by and perform all of Customer's obligations under this Agreement. This Agreement is binding on and for the benefit of Customer and its permitted successors and assigns, as well as Northwoods and its successors and assigns.

6.4   Enforceability. Each provision of this Agreement shall be valid and enforced to the fullest extent permitted by law. If there is any conflict between any provision of this Agreement and any statute, law, or governmental ordinance, order, rule, or regulation, the latter shall prevail; provided, that any such conflicting provision shall be curtailed and limited only to the extent necessary to bring it within the legal requirements and the remainder of this Agreement shall not be affected thereby.

6.5   Waiver. The failure of any party to enforce any term or condition of this Agreement shall not constitute a waiver of such party's right to enforce such term or condition or any other term or condition of this Agreement, unless waived in writing.

6.6   Force Majeure. Neither party will be liable for any failure to perform any of such party's obligations under this Agreement (excluding, however, a party's payment obligations) due to any causes beyond such party's reasonable control, including acts of God (including earthquakes and other natural disasters), war, riot, embargoes, acts of civil or military authorities, fire, flood, accident, and strikes. In the event of any such cause, the affected party's time for delivery or other performance will be extended for a period equal to the duration of the delay caused thereby.

6.7   Interpretation. Section headings are inserted for convenience of reference only and shall not affect the construction of this Agreement. The singular number shall include the plural, and vice versa. Any use of the word 'including' will be interpreted to mean 'including, but not limited to,' unless otherwise indicated. References to any individual or entity shall be construed to mean such individual or entity and his, her, or its successors in interest and permitted assigns, as applicable.

6.8   Entire Agreement. This Agreement, including the License-Specific Terms, (a) is the entire agreement between Northwoods and Customer with respect to Northwoods' license to Customer of the Licensed Product(s) and Customer's right to use the same, and (b) supersedes all prior agreements, covenants, understandings, representations, warranties, and undertakings, whether written, electronic, or oral, between the parties regarding such matters.

6.9   Amendments. This Agreement may only be amended by a writing duly executed and delivered by each party.

6.10   Publicity. Northwoods shall be permitted to include Customer's name and logo in a list of Northwoods other customers on a Northwoods' website. Neither party may issue press releases including the other party's name without prior written consent of the other party.

    libraries or other derivative products that resemble or compete with the Software.

SEVERABILITY
In the event that any section or any part of any section of this agreement, or this agreement
as it applies to any persons or under any circumstances, should be adjudged invalid, such
adjudication shall not affect or impair the validity of the remainder of this agreement, or
the agreement as it applies to other persons, and under other circumstances.
