

SAS® OnDemand for Academics

For Instructors: How to Create a Course

Overview

To create a course in SAS OnDemand for Academics, you must have or be the following:

- An active SAS OnDemand for Academics account
- A professor or instructor that is associated with an institution

Once you create a course, you can edit its information and delete it only. Your course data is not affected by either of these actions.

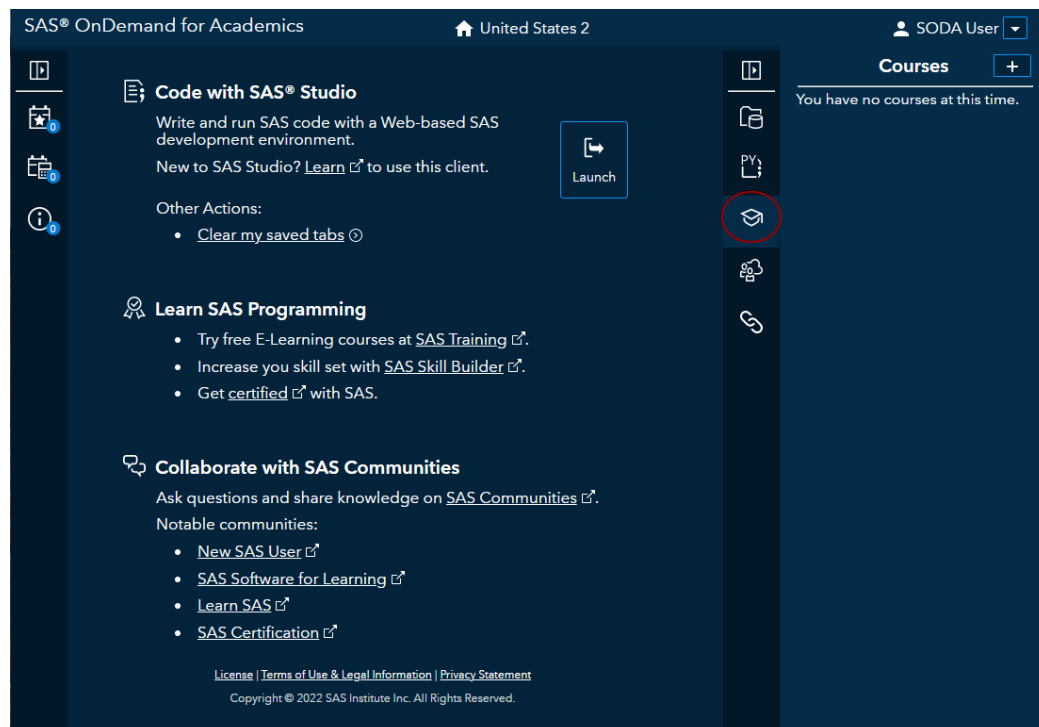

Create a Course

1. [Log on to SAS OnDemand for Academics.](#)

Note: If you do not have an account, see SAS OnDemand for Academics [Registration Instructions](#).

Your SAS OnDemand for Academics Dashboard is displayed.

2. Select the **Courses** tab. Click

3. Click  to create a new course. The Course Creation page is displayed.
4. Complete the form to register your course. Be sure to select the SAS software that you will use to teach your course.

SAS® OnDemand for Academics Course Creation SODA User

- SAS® Enterprise Guide®
- SAS® Enterprise Miner™
- SAS® Forecast Studio

The information provided is accurate and complies with the [terms of use](#) and the [license](#) for this site. In particular, the following statements are all true and accurate to the best of my knowledge.

- The associated institution is academic and meets the criteria set forth in the terms and license.
- The course defined here is officially recognized and offered by this institution.
- I am currently a faculty member at this institution and assigned to this course.
- Additional applications made available through this and other similar courses will be used only for activities associated to those courses.

Create Cancel

If your institution or school is not listed, then click **Add**. The Find Institution page is displayed.

Find Institution

Use one or more of the following fields to search for the Institution.

Name: SAS Institute

City: Cary

Country: United States

Search

Showing 1 of 1 results.

	Institution Name	City	Region	Country
•	SAS Institute	Cary	North Carolina	United States

If you cannot find your Institution by searching above, you may [create an Institution](#).

Add Cancel

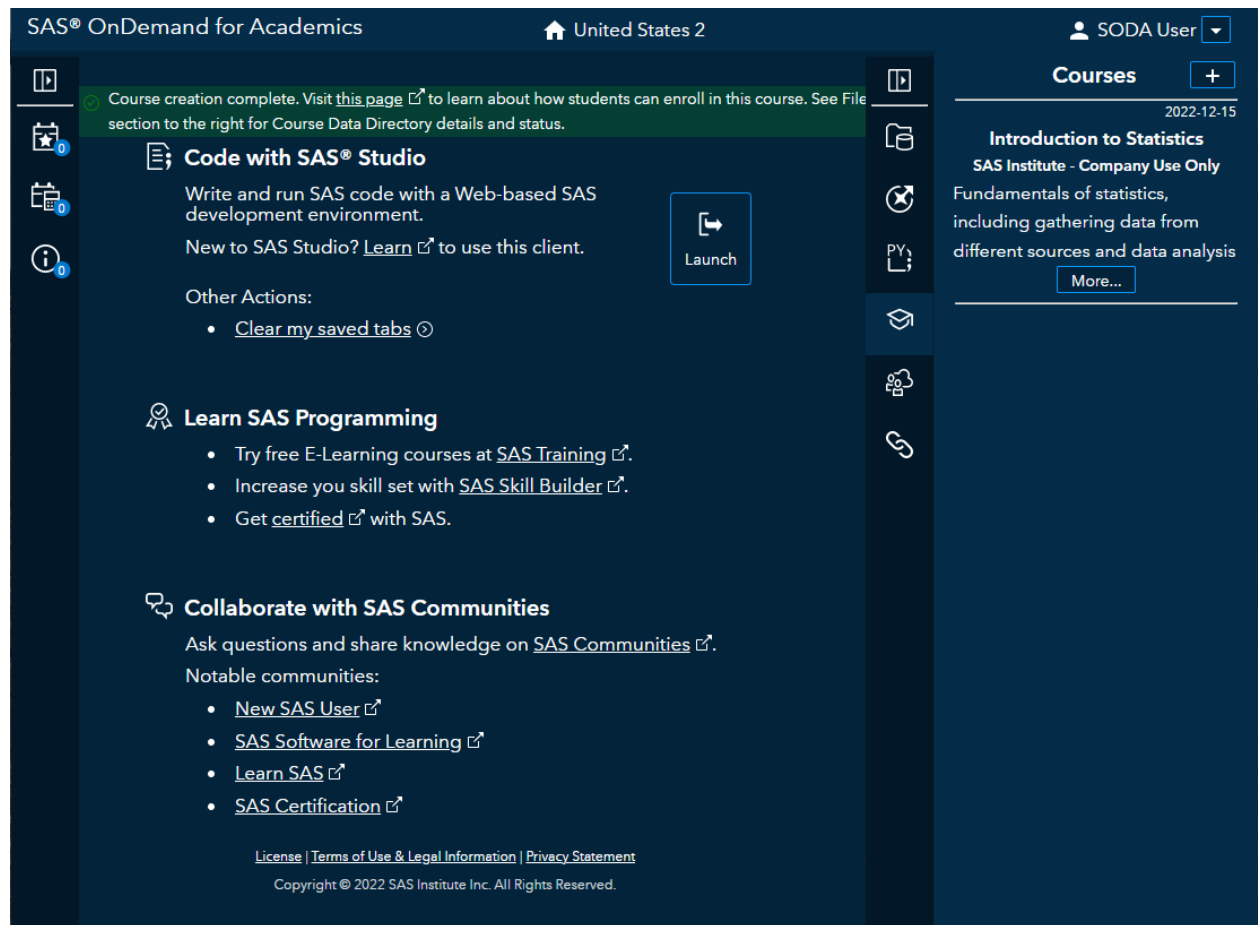

Complete the form to find your institution. Click **Search**. If it is listed in the table, select your institution. Click **Add**.

If it is not listed in the table, click **create an Institution** and fill out that form.

Click **Create** on the Course Creation page when you have filled in all the fields.

Your course is created, and you are returned to the Dashboard.

5. Your courses are listed under the **Courses** tab. Click . Click **More** for course information.

The screenshot displays the SAS OnDemand for Academics dashboard. At the top, it shows 'SAS® OnDemand for Academics' and 'United States 2'. The user is identified as 'SODA User'. A notification banner states: 'Course creation complete. Visit [this page](#) to learn about how students can enroll in this course. See File section to the right for Course Data Directory details and status.'

The main content area features three sections:

- Code with SAS® Studio**: 'Write and run SAS code with a Web-based SAS development environment. New to SAS Studio? [Learn](#) to use this client.' A 'Launch' button is present. Below this, 'Other Actions' includes 'Clear my saved tabs'.
- Learn SAS Programming**: 'Try free E-Learning courses at [SAS Training](#). Increase your skill set with [SAS Skill Builder](#). Get [certified](#) with SAS.'
- Collaborate with SAS Communities**: 'Ask questions and share knowledge on [SAS Communities](#). Notable communities: [New SAS User](#), [SAS Software for Learning](#), [Learn SAS](#), and [SAS Certification](#)'.

At the bottom, there are links for 'License | Terms of Use & Legal Information | Privacy Statement' and 'Copyright © 2022 SAS Institute Inc. All Rights Reserved.'

On the right sidebar, the 'Courses' tab is active, showing a course titled 'Introduction to Statistics' by 'SAS Institute - Company Use Only'. The description reads: 'Fundamentals of statistics, including gathering data from different sources and data analysis'. A 'More...' button is available for this course.

6. The Course Details page is displayed. The course code is listed on the Course Details page. If the course does not have any enrollments, then you can edit the course's name, description, level, and software. If the course has enrollments, then you can edit only the course's name and description. You can also delete your course. Your course data is not affected by these actions.
