Overview

This document provides requirements for installing and running SAS 9.2 Foundation for HP-UX. You must update your system to meet the minimum requirements before running SAS 9.2 Foundation. The major requirements listed in the document are:

- Software Requirements
- Hardware Requirements
- Space Requirements
- Specific Product Requirements
- Graphics Hardware and Software Compatibility

Software Requirements

Operating System

SAS 9.2 Foundation is supported on the following operating system:

- HP-UX 11i version 2, operating system release identifier B.11.23 and above

We require that you apply the following patches prior to installing SAS 9.2 Foundation on HP-UX, Release 11.i version 2:

- June 2007 patch bundle

Note: The patch levels listed were correct at the time this document was printed. However, patches required for HP-UX are subject to unexpected change as development continues. To ensure you have the latest patch requirements, go to the Install Center Web page (<http://support.sas.com/installcenter>) to find the most recent updates to this System Requirements document.

Streams

SAS for HP-UX requires that HP Streams be installed and enabled. The Streams product is generally installed by default. This can be quickly verified by performing the following command:

```
/usr/sbin/swlist -l product | grep Streams
```

If the Streams product is not found, it must first be installed before continuing. The software may be found on the HP-UX installation media that accompanied the system. The Systems Administrator would typically perform this installation.

Once installed, Streams must also be enabled in the HP-UX kernel. Streams status can be checked by performing the following command:

```
/usr/sbin/kctune -v streampipes
```

If "Current Value" is "1", Streams is enabled and you can skip the remaining steps which describe how to enable Streams.

If “Current Value” is “0”, first the streampipes kernel variable must be changed and then the system must be rebooted to enable streams. These actions are privileged and are generally performed by the Systems Administrator.

To change the streampipes kernel variable, issue the following command:

```
/usr/sbin/kctune streampipes=1
```

Upon success, you will see a message showing that the “Value at Next Boot” is “1.” You may now reboot the system or wait for a more convenient time.

Direct I/O

If you wish to use Direct I/O to improve system I/O throughput (see the UNIX Host Companion for more information), SAS requires that the “Online features of the VxFS File System” be installed. This product is not usually installed by default. This can quickly be verified by performing the following command:

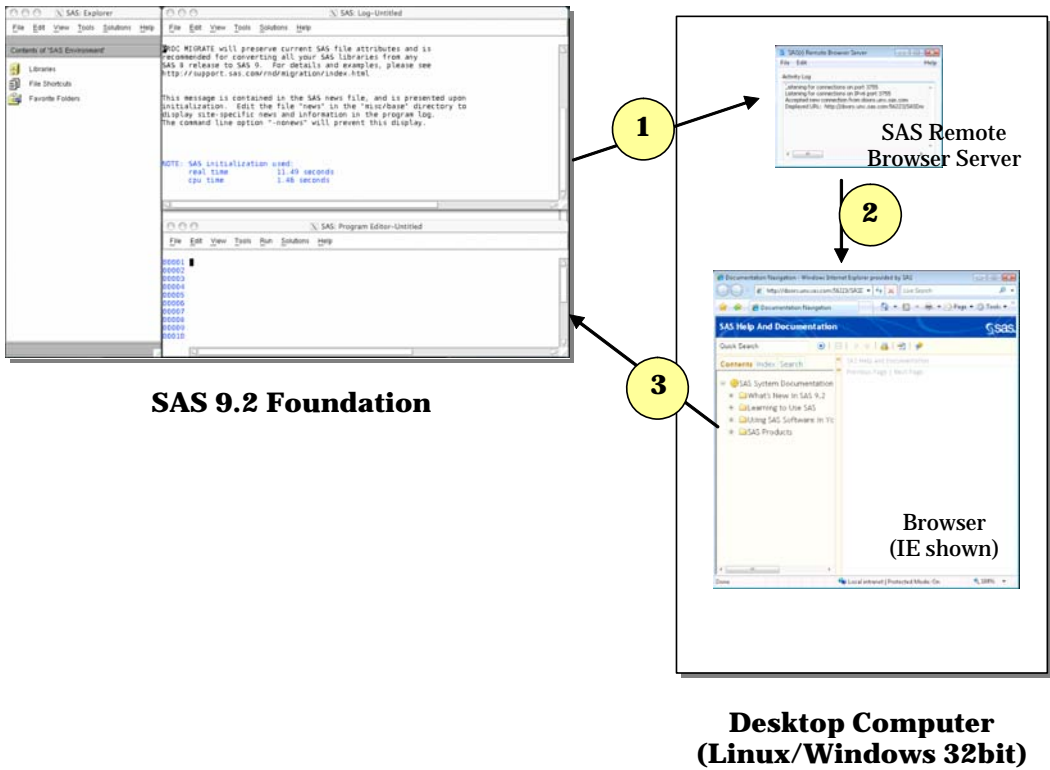

```
/usr/sbin/swlist -l product | grep Online
```

If the product is not found, it must be installed in order to enable Direct I/O. The software may be found on the HP-UX installation media that accompanied the system. The Systems Administrator would typically perform this installation.

Web Browser

SAS 9.2 Foundation uses a new system, Remote Browsing, for displaying Web-based information. Instead of running a browser on the UNIX workstation, SAS 9.2 Foundation sends the URL to your desktop computer for display in a Web browser. This removes the browser overhead from the UNIX server. A small software agent named the Remote Browser Server is installed on your desktop computer to enable SAS to communicate with your browser. The process is illustrated below.

SAS creates a URL that references the information to be displayed (usually program help or ODS output), then sends the URL to the SAS Remote Browser Server on your desktop computer (step 1). The Remote Browser Server then sends a request to the browser to display a page (step 2). The browser then reconnects to SAS to retrieve the information to be displayed and displays it in the browser (step 3).

To use remote browsing, your desktop computer must be one of the following platforms, and have installed one of the supported browsers.

Platform	Supported Browser
Windows XP/Vista 32-bit	Firefox 2.0
	Internet Explorer 6 with SP2 or Internet Explorer 7
Linux	Firefox 2.0

The Remote Browser Server must be installed and running for SAS to display web information. The installer for the Remote Browser Server can be found on support.sas.com (<http://support.sas.com/documentation/configuration/thirdpartysupport/v92/thirdparty92.html>), or directly downloaded from a SAS session.

For SAS to be able to use your Web browser, the browser must be configured to allow pop-up windows. In addition, elements of SAS require access to the SAS Web site and third-party Web sites. Contact your sys admin to ensure that your browser is configured to access external sites.

Hardware Requirements

Machines Supported

- HP machines conforming to PA-RISC 2.0

The following models are not compatible with PA-RISC 2.0; therefore, they are not supported:

600, 635, 645, 705, 710, 712, 715, 720, 722, 725, 728, 730, 735, 743, 745, 748, 750, 755, 770, 800, 808, 815, 825, 832, 834, 835, 840, 842, 845, 850, 852, 855, 860, 865, 870, 890, B120, C110, C115, C120, D200, D210, D220, D230, D250, D260, D310, D320, D330, D350, D360, D400, D410, DX0, DX5, E25, E35, E45, E55, F10, F20, F30, G30, G40, G50, G60, G70, H20, H30, H40, H50, H60, H70, I30, I40, I50, I60, I70, K100, K200, K210, K220, K400, K410, K420, S700, S715, S744, S760, T500, and T520.

Distribution Media

- Electronic Software Delivery
- DVD

Memory Requirements

For general SAS activities (for example, query and reporting, simple statistics, data manipulation), we recommend 96 MB per user.

More memory is needed for memory-intensive tasks such as OLAP, data mining, heavy statistical analysis, multivariate analysis, formats, and any GUI-based applications. Please see the Specific Products Requirements section for more details on memory requirements for specific products.

Supported Displays

- Any X11-based display server. Monitors must support a minimum of 256 colors (PseudoColor).

Space Requirements

The following list contains space requirements in MB for all of the products available with this release of SAS 9.2 Foundation for HP-UX. Use this information to help you determine how much free disk space you must have available before you can install SAS 9.2. In addition, SAS 9.2 Foundation requires approximately 30 MB of disk space on the /tmp partition to complete the installation.

Software Product	Required Disk Space	Additional Space for Samples/Optional Files
Base SAS Software	725.0	8.0
ODS Templates Software	6.6	0.0
Report Fonts for Server Software	368.7	0.0
SAS Data Quality Server Software	144.4	0.1
SAS Installation and Qualification Verification Software	0.2	0.0
SAS OLAP Server Software	3.9	0.0
SAS/ACCESS Interface to DB2 Software	1.0	0.1
SAS/ACCESS Interface to Informix Software	0.8	0.1
SAS/ACCESS Interface to Microsoft SQL Server	19.5	0.1
SAS/ACCESS Interface to MySQL Software	0.5	0.1
SAS/ACCESS Interface to Netezza Software	1.0	0.1
SAS/ACCESS Interface to ODBC Software	1.8	0.1
SAS/ACCESS Interface to Oracle Software	1.4	0.1
SAS/ACCESS Interface to PC Files Software	5.4	0.2
SAS/ACCESS Interface to Sybase Software	1.3	0.1
SAS/ACCESS Interface to Teradata Software	1.6	0.1
SAS/AF Software	11.5	0.0
SAS/ASSIST Software	22.9	0.0
SAS/CONNECT Software	4.3	0.2
SAS/EIS Software	21.3	10.4
SAS/ETS Software	86.9	2.2
SAS/FSP Software	2.0	0.0
SAS/Genetics Software	11.5	0.2
SAS/GIS Software	68.0	0.3
SAS/GRAPH Software	232.4	2.4
SAS/IML Software	18.2	0.6
SAS/INSIGHT Software	21.7	0.5
SAS/IntrNet Software	4.4	1.2
SAS/LAB Software	9.9	0.0
SAS/OR Software	69.4	2.3
SAS/QC Software	100.3	3.0
SAS/SECURE 168-bit Software	3.2	0.0
SAS/SHARE Software	2.0	0.2
SAS/STAT Software	211.0	3.8
SAS/TOOLKIT Software	9.7	0.0

SAS/GRAPH Map Data Sets

Data Set	Required Disk Space
Countries in Africa and Middle East Maps	6.5
Countries in Asia and Pacific Maps	35.2
Countries in Europe Maps	23.8
North America Maps	5.9
Countries in Latin America and Caribbean Maps	6.4
Canada Maps	1.8
Continents Maps	36.7
World Map	7.3
Very Large US County Map, Unprojected	11.0
Large US County Map, Unprojected and Reduced	1.4
Large US Mainland County Map, Projected and Reduced	1.4
Large US State Outline Map, Unprojected	1.3
Total for all entries	138.7

DBCS Support

The following list contains space requirements in MB for SAS 9.1.3 components that offer DBCS support.

Software Product	Required Disk Space
Base SAS Software	42.7
SAS/ACCESS Interface to DB2 Software	0.8
SAS/ACCESS Interface to Informix Software	0.2
SAS/ACCESS Interface to Microsoft SQL Software	0.8
SAS/ACCESS Interface to MySQL Software	0.5
SAS/ACCESS Interface to Netezza Software	1.0
SAS/ACCESS Interface to ODBC Software	1.5
SAS/ACCESS Interface to Oracle Software	0.4
SAS/ACCESS Interface to PC Files Software	2.3
SAS/ACCESS Interface to Sybase Software	0.7
SAS/AF Software	0.5
SAS/CONNECT Software	1.8
SAS/EIS Software	0.4
SAS/FSP Software	0.7
SAS/GRAPH Software	61.7
SAS/INSIGHT Software	4.3
SAS/LAB Software	1.6
SAS/QC Software	0.8
SAS/STAT Software	1.4

Chinese (Simplified) Language

Chinese (Simplified) Support	Required Disk Space
Base SAS Software	6.0
ODS Templates Software	6.7
SAS OLAP Server Software	0.2
SAS/GRAPH Software	0.2
SAS/IntrNet Software	0.3

Chinese (Traditional) Language

Chinese (Simplified) Support	Required Disk Space
Base SAS Software	0.7
ODS Templates Software	6.6
SAS OLAP Server Software	0.2
SAS/GRAPH Software	16.7

French Language

French Support	Required Disk Space
Base SAS Software	21.0
ODS Templates Software	6.7
SAS Data Quality Server Software	0.1
SAS/EIS Software	9.7
SAS/ETS Software	1.0
SAS/GRAPH Software	0.3
SAS/OR Software	0.6
SAS/QC Software	0.2
SAS/STAT Software	1.4

German Language

German Support	Required Disk Space
Base SAS Software	2.3
ODS Templates Software	6.6
SAS Data Quality Server Software	0.1
SAS/ETS Software	1.0
SAS/Genetics Software	0.1
SAS/GRAPH Software	0.3
SAS/OR Software	0.6
SAS/QC Software	0.2
SAS/STAT Software	1.4

Hungarian Language

Hungarian Support	Required Disk Space
Base SAS Software	1.9
ODS Templates Software	6.6

Japanese Language

Japanese Support	Primary Encoding Required Disk Space	Secondary Encoding Required Disk Space
Base SAS Software	10.2	10.2
ODS Templates Software	6.7	6.7
SAS OLAP Server Software	0.2	0.2
SAS/ETS Software	0.9	0.9
SAS/GRAPH Software	0.3	0.3
SAS/IntrNet Software	0.3	0.3
SAS/STAT Software	1.4	1.4
Maps Of Asia/Pacific region	2.2	2.2

Korean Language

Korean Support	Required Disk Space
Base SAS Software	5.6
ODS Templates Software	6.7
SAS OLAP Server Software	0.2
SAS/GRAPH Software	0.3
SAS/QC Software	0.2

Portuguese Language

Portuguese Support	Required Disk Space
Base SAS Software	23.7
ODS Templates Software	6.7
SAS Data Quality Server Software	0.1
SAS/ETS Software	0.9
SAS/Genetics Software	0.1
SAS/GRAPH Software	0.6
SAS/OR Software	0.6
SAS/QC Software	0.2
SAS/STAT Software	1.4

Russian Language

Russian Support	Required Disk Space
Base SAS Software	3.9
ODS Templates Software	6.6
SAS/EIS Software	7.4
SAS/ETS Software	1.0
SAS/Genetics Software	0.1
SAS/GRAPH Software	0.3
SAS/OR Software	0.6
SAS/QC Software	0.2
SAS/STAT Software	1.4

Spanish Language

Spanish Support	Required Disk Space
Base SAS Software	16.2
ODS Templates Software	6.6
SAS Data Quality Server Software	0.1
SAS/ETS Software	1.0
SAS/Genetics Software	0.1
SAS/GRAPH Software	0.4
SAS/OR Software	0.6
SAS/QC Software	0.2
SAS/STAT Software	1.4

UTF-8 Encoding

UTF-8 Support	Required Disk Space
Base SAS Software	0.1
ODS Templates Software	12.5

Specific Product Requirements

Base SAS Software

Requirements for SPD Engine on HP-UX

- An SMP (symmetric multiprocessing) computer with at least two CPUs; four are preferred
- At least one I/O channel per two CPUs
- Enough disk drives to have at least one mount point per CPU isolated on its own disk; two mount points per CPU are better

ODS Graphics

The use of ODS Graphics in Base SAS software requires a SAS/GRAPH license.

SAS/ACCESS Interface to DB2 Software

Products Required

- Base SAS software
- SAS/ACCESS Interface to DB2 software

DBMS Product Required

- DB2 Universal Database, Version 8.1 FixPak 4 or higher (64-bit libraries)

SAS/ACCESS Interface to DB2 can be installed on a DB2 server or on a DB2 client node with an installation of the DB2 Run-Time Client, DB2 Application Development Client, or DB2 Administration Client. In addition, DB2 Connect must be installed to connect to DB2 databases that reside on AS/400, VSE, VM, MVS, and OS/390 systems.

SAS/ACCESS Interface to Informix Software

Note: Before installing this product, ensure that patch PHSS_26263 has been installed on your system.

Products Required

- Base SAS software
- SAS/ACCESS Interface to Informix software

DBMS Product Required

- Informix Client SDK 2.90FC1

SAS/ACCESS Interface to Informix uses an ODBC connection. The ODBC driver included with Informix Connect must be installed and configured prior to using the SAS/Access to Informix software.

SAS/ACCESS Interface to Informix software also requires the use of communication protocols such as TCP/IP to function properly.

SAS/ACCESS Interface to Microsoft SQL Server Software

Products Required:

- Base SAS software
- SAS/ACCESS Interface to Microsoft SQL Server software

SAS/ACCESS Interface to MySQL Software

Products Required

- Base SAS software
- SAS/ACCESS Interface to MySQL software

DBMS Products Required

- MySQL Client 4.1 or 5.0
- MySQL Server 5.0 or later

For more information about SAS/ACCESS Interface to MySQL software, please see the MySQL chapter in *SAS/ACCESS Software for Relational Databases: Reference*.

SAS/ACCESS Interface to NETEZZA Software

Products Required

- Base SAS software
- SAS/ACCESS Interface to Netezza software
- Netezza ODBC driver, release 3.1.4 or later (available for download from the Netezza Web site or through Netezza technical support; see below for more information)

SAS/ACCESS Interface to Netezza requires an ODBC driver from Netezza. To get the Netezza ODBC driver, release 3.1.4 or above, please contact Netezza technical support at (877) 810-4441 or visit the Netezza customer support Web site, <http://www.netezza.com/support/login.cfm>.

SAS/ACCESS Interface to ODBC Software

Products Required

- Base SAS software
- SAS/ACCESS Interface to ODBC software

DBMS Products Required

- A compliant ODBC driver manager and ODBC driver (64-bit libraries)

ODBC drivers are often available from DBMS vendors and other third party ODBC driver developers. The ODBC driver you choose may require additional DBMS software in order to access the data.

You may have to edit the .odbc.ini file in your home directory with a text editor to configure data sources. Some ODBC driver vendors may allow a system administrator to maintain a centralized copy by setting an environment variable.

The ODBC drivers are ODBC API-compliant dynamic link libraries, referred to in UNIX as shared objects. You must include the full path to the dynamic link libraries in SHLIB_PATH so that the ODBC drivers can be loaded dynamically at run time.

For more information, please consult your ODBC driver vendor.

SAS/ACCESS Interface to Oracle Software

Products Required

- Base SAS software
- SAS/ACCESS Interface to Oracle software

DBMS Products Required

SAS/ACCESS Interface to Oracle software can be installed on either a full Oracle RDBMS server node or on an Oracle client node.

The minimum required Oracle Client release is:

- Oracle, Release 9i (64-bit libraries)

Note: In order to use the Bulk Load feature of this SAS product, you must have Oracle's SQL*Loader data-loading utility installed. This utility can be obtained by running the Oracle installer and selecting the Oracle Utilities product. Please refer to your Oracle documentation for information on SQL*Loader.

SAS/ACCESS Interface to PC Files Software

Products Required

- Base SAS software
- SAS/ACCESS Interface to PC Files software

Products Required on Windows

- SAS PC Files Server, running on Windows 32 bit System or WOW64

DBMS Products Required on Windows

- Microsoft Office 2007 System Driver: Data Connectivity Components (ACE)
- Microsoft Data Access Components (MDAC), Version 2.8 or higher

SAS/ACCESS Interface to PC Files software supports access to delimited files (csv, tab), dBase files (.dbf), JMP files (.jmp), SPSS files (.sav), Stata files (.dta), Excel files (.xls), Microsoft Access database files (.mdb or .accdb) and virtually any data source through ODBC support on Windows.

However, to access Microsoft Access database files (.mdb or .acdb), Microsoft Excel workbook files (.xls, .xlsb, .xslm or .xlsx) or any ODBC supported data sources, SAS/ACCESS Interface to PC Files software requires the PC Files Server (pcfserver.exe or pcfservice.exe) running on Windows 32-bit System or Windows 64-bit system with WOW(Windows-On-Windows) subsystem.

SAS/ACCESS Interface to Sybase Software

Products Required

- Base SAS software
- SAS/ACCESS Interface to Sybase software

DBMS Products Required

The following release of Sybase Open Client software is required:

- Sybase Open Client SDK (Software Developer's Kit) Software, Release 12.5.x (64-bit libraries)

The following is recommended:

- Adaptive Server Enterprise, Release 11.x or higher

Note: SAS/ACCESS Interface to Sybase software no longer supports access to Microsoft SQL Server data. SAS/ACCESS Interface to Sybase software uses the CTLIB API calls to access the Sybase DBMS product. These CTLIB API calls are not supported by Microsoft SQL Server; therefore, you will have to use SAS/ACCESS Interface to ODBC software with an appropriate ODBC driver to obtain access to Microsoft SQL Server data.

Note: Sybase ASIQ, Release 12.x is not supported; SAS/ACCESS Interface to ODBC software must be used instead.

SAS/ACCESS Interface to Teradata Software

Products Required

- Base SAS software
- SAS/ACCESS Interface to Teradata software

DBMS Products Required

The following release of Teradata Client software is required:

- Teradata CLIV2 client libraries, TTU 8.2 or later for HP-UX (64-bit libraries)

The following is recommended:

- Teradata FastExport utility, TTU 8.2 or later for HP-UX.
- Teradata MultiLoad utility, TTU 8.2 or later for HP-UX.
- Teradata Parallel Transporter API, TTU 8.2 or later for HP-UX.

SAS/AF Software

Products Required for Build Mode

- Base SAS software
- SAS/AF software
- SAS/GRAPH software (to create and display some graphics objects)
- Other products may be required depending on the application

Products Required for Run Mode

- Base SAS software
- SAS/GRAPH software (to display some graphics objects)
- Other products may be required depending on the application

Printers

- For printing graphics-based objects, a color or gray scale printer is required.
- Certain non-graphic objects may require SAS/GRAPH software to print depending on the object.

SAS/EIS Software

Products Required for Build Mode

- Base SAS software
- SAS/AF software
- SAS/EIS software
- SAS/FSP software
- SAS/GRAPH software
- Other products may be required depending on the application

Products Required for Run Mode

- Base SAS software
- SAS/GRAPH software
- SAS/EIS software
- Other products may be required depending on the application

Memory

- 96 MB required per concurrent user
- 128 MB recommended per concurrent user

Printers

- For printing graphics-based objects, a color or gray scale printer is required.

SAS/ETS Software

The use of ODS Graphics in SAS/ETS software requires a SAS/GRAPH license.

SAS/Genetics Software

Products Required:

- Base SAS software
- SAS/Genetics software
- SAS/GRAPH software

SAS/GIS Software

Products Required for Build Mode

- Base SAS software
- SAS/AF software (recommended)
- SAS/GIS software
- SAS/GRAPH software
- Other products may be required depending on the application

Products Required for Run Mode

- Base SAS software
- SAS/FSP software (recommended)
- SAS/GIS software
- SAS/GRAPH software
- Other products may be required depending on the application

Printers

- A color or gray scale printer is required. The list of possible printers can be found in the Graphics Hardware and Software Compatibility section.

SAS/IntrNet Software

SAS/IntrNet software consists of several components that may be installed independently. SAS/IntrNet Server software is installed on an existing SAS system and is included on SAS 9.2 media.

CGI Tools and Applications

Application Dispatcher

Requires Base SAS software and SAS/IntrNet Server software. The Application Broker component of the Application Dispatcher must be installed on a Web server.

htmSQL

Requires Base SAS software, SAS/SHARE software, and a SAS/IntrNet software license (SETINIT). The htmSQL component must be installed on a Web server.

MDDB Report Viewer Application

Requires Base SAS software, SAS/GRAPH software, SAS/IntrNet software, and SAS/EIS software or SAS OLAP Server software. The Application Dispatcher component must be installed and configured.

Xplore Sample Web Application

Requires Base SAS software and SAS/IntrNet Server software. The Application Dispatcher component must be installed and configured.

Java Tools and Applications

SAS/CONNECT Driver for Java

Requires Base SAS software, SAS/CONNECT software, and SAS/IntrNet Server software. SAS/SHARE software must also be installed if data services are used. The Java Tools package must be installed on a Web server or client system.

Tunnel Feature

Must be installed on a Web server running on a UNIX or Windows system.

SAS/LAB Software

Products Required:

- Base SAS software
- SAS/FSP software (required for interactive data entry)
- SAS/GRAPH software
- SAS/LAB software

SAS/OR Software

The use of traditional graphics in SAS/OR software requires a SAS/GRAPH license.

SAS/QC Software

The use of ODS Graphics and traditional graphics in SAS/QC software requires a SAS/GRAPH license.

SAS/STAT Software

The use of ODS Graphics in SAS/STAT software requires a SAS/GRAPH license.

Graphics Hardware and Software Compatibility

Printers

SAS/Graph software supports PostScript, HP-GL, HP-GL/2, PCL, and other printer languages on printers from manufacturers such as Brother, Canon, Hewlett-Packard, IBM, Konica Minolta, Lanier, Lexmark, Okidata, QMS, Ricoh, Sharp, Xante, and Xerox.

Displays

Display of graphs requires an Xwindows-capable display, terminal, or emulation software.

Images and Interfaces to Other Software

Included with SAS/GRAPH software are drivers that can produce Computer Graphics Metafiles (CGM) in binary, character, and clear-text formatted output for use by devices or software that support CGM, such as Word for Windows, WordPerfect for Windows, Harvard Graphics, and Lotus Freelance.

SAS/GRAPH software can generate encapsulated PostScript vector files, which can be exported to word processing packages such as Microsoft Word and WordPerfect. SAS/GRAPH software can also generate Windows metafiles that can be exported to numerous packages including Microsoft Office, Lotus Smart Suite, and Perfect Office. Contact SAS Technical Support for details.

SAS/GRAPH software's HPGL or HPGL2 driver can be used to produce files that can be transferred to most vector-based drawing programs such as CorelDraw and Micrografx Designer.

SAS/GRAPH software also has drivers for PDF and SVG along with image file formats of BMP, DIB, EMF, EPSI, PBM, PPM, GIF, JPEG, EMF, WMF, PNG, TIFF, and PaintBrush image formats. In addition, SAS/GRAPH software can import graphics in the following formats:

- BMP - Microsoft Windows Bitmap
- DIB - Device Independent Bitmap
- EMF - Microsoft NT Enhanced Metafile
- EPSI - Encapsulated PostScript Interchange
- GIF - Graphics Interchange Format
- JPG - JPEG Files
- PBM - Portable Bitmap
- PCD - PHOTO CD
- PCX - PC PaintBrush
- PNG - Portable Network Graphics
- TGA - TARGA Format
- TIF - Tagged Image File Format
- WMF - Microsoft Windows Metafile Format
- XBM - X Window Bitmaps
- XWD - X Window Dump

Viewing SVG output requires a browser capable of displaying SVG content, such as Mozilla 1.8+ based browsers (for example, Firefox 1.5+), a plug-in such as Adobe's SVG plug-in, or an application such as Batik's SVG viewer.

Viewing PDF output requires Adobe Reader.

Viewing HTML Pages Created with the ActiveX and Java Device Drivers

The ActiveX and Java device drivers allow you to create HTML pages from within SAS 9.2 Foundation.

Refer to the "Web Browser" section in this document for an overview of Remote Browsing. This is used to view HTML pages.

To view the Java applets, the Java plug-in must be installed on your desktop computer where the Remote Browser Server is running. On Windows systems, the user can install the plug-in when prompted if it is not already installed.

THE
POWER
TO KNOW.

support.sas.com

SAS is the world leader in providing software and services that enable customers to transform data from all areas of their business into intelligence. SAS solutions help organizations make better, more informed decisions and maximize customer, supplier, and organizational relationships. For more than 30 years, SAS has been giving customers around the world The Power to Know®. Visit us at **www.sas.com**.
