System Requirements

SAS® Universal Viewer 1.52

This document has been updated to reflect the requirements to deploy this SAS software along with SAS 9.4M9 (TS1M9), which was generally available in 2025.

Basic Installation Requirements

Platform	Installation Space Required
Microsoft Windows	5.0 MB
Microsoft Windows for x64	5.0 MB

SAS Universal Viewer uses the SAS Private JRE. For the latest information about required JREs, see the SAS 9.4 Support for Java page on the Support site.

Additional Requirements

SAS Universal Viewer 1.52 requires Microsoft Windows 11 (64-bit) or Windows Server 2016 or later. For 32-bit Windows, only Microsoft Windows 10 is supported.

SAS Universal Viewer also requires the Microsoft .NET runtime 4.8.1 or later.

SAS Universal Viewer requires a web browser. For a list of supported browsers, see the SAS 9.4 Support for Web Browsers page.

SAS Universal Viewer also requires SAS Providers for OLE DB, which is listed as a separate item during the installation process.
